

Physicians

prescribe Scott's Emulsion of Cod-liver Oil and Hypophosphites because they find their patients can tolerate it for a long time, as it does not upset the stomach nor derange the digestion like the plain oil.

Scott's Emulsion is as much easier to digest than the plain oil as milk is easier to digest than butter. Besides, the fish-fat taste is taken out of the oil, and it is almost palatable. The way sickly children, emaciated, anæmic and consumptive adults, gain flesh on Scott's Emulsion is very remarkable.

Don't be persuaded to accept a substitute!
