How many labor for God without God; not without his permission, nor without his support, but without his inspiration.—Dr. Joseph Parker.

THE TRUE REASON — WASH DAY MADE EASY.

There is reason in everything, but not every reason given is true. About washing clothes, for instance, common sense and the chemistry of every day life teach us that certain things must be done, while others may be left undone. Clothes must be made clean, sweet pure and wholesome without either injuring the fabric or the hands of the laundress. If these objects can be attained, it does not matter as to what methods are used, and the soap or soap powder, no matter what it is called, that will admit of the most varied methods of use is the handiest. Some things, however, are important to observe. The dirt and all soap must be entirely removed from the interstices of the clothes and all microbes must be destroyed. The only and easiest way to do this is by heating the water in which the clothes are contained to the boiling point. The boiling water, by constant self-agitation, is forced through the interstices of the fabrics, and thus cleanses them from dirt, and disease-breeding microbes, as they can be cleansed in no other way—and without in any manner injuring the fabric. As there is no royal road to learning, neither is there any easier, surer or safer way of washing clothes clean and freeing them from all disease-breeding microbes or bacteria than by using PYLE'S PEARLINE and to strictly follow the directions accompanying each package. Above all things, avoid any soap or soap powder that does not work to best advantage in hot water.—American Analyst, N. Y.

Be pleasant and kind to those around you. The man who stirs his cup with an icicle spoils the tea and chills his own fingers.
