## 19A:43

## 3) Action Planned for 1992-93

- 5 Ecological Reserves are being proposed for establishment.
- The Bay du Nord River will be nominated as a Canadian Heritage River.

 International Biosphere Program (IBP) sites will be reviewed to determine their status and future role as candidate ecological reserves.

- Management plans for five seabird ecological reserves are under development.
- Field assessment of several proposed ecological reserve sites is underway.

Work on developing a protected areas system plan is underway. (This is being undertaken in conjunction with the Newfoundland Protected Areas Association).

Feasibility studies have been initiated for Torngat and Mealy Mountains National Parks proposals.

Examine b is when also register is and, are binoving considered or on issues consideration. Thus, the worth with a finite cares or tring allows in consideration. Thus, the worth is a consonics. The intuitive part of our being says that this is absurd, yet the outgoing a particle insection of the south of our being says that this is absurd, yet the worth the cares aparted insections is to be an of our being says that this is absurd, yet the outgoing a particle insections is to be an of our being says that this is absurd, yet the worth the cares aparted insections is to be an of our being says that this is absurd, yet the outgoing at particle insections is to be an of our being says that this is absurd, yet the worth the cares aparted insection of our being says that this is absurd, yet the outgoing at particle insections and the object of the section of the seco
