NOVOROSSYSK, Caucasia, Oct. 29.—(Via Petrograd).—The Turkish ruiser Hamidieh, which arrived here today, demanded the surrender of the city and the government properties, threatening in case of refusal to combard the town. GREEKS CONTROL CORFU CHANNEL.

Canadian Press Despatch. ROME, Oct. 29, 6.30 p.m.—The report that Greece has landed 12,000 soldiers at Santi Quaranta, thus taking possession of the southern part of Albania, which gives them entire control of the Corfu Channel, is causing a profound impression in Rome. As this step on the part of Greece was strongly opposed by the London conference, it is generally believed in Italian political circles that Greece will not be supported by Great tain and France.

ZEPPELIN SHEDS AT OSTEND.

ZEPPELIN SHEDS AT OSTEND. However, the German concentration on the new line of opera-tions is not being made without resistance. Reports from Ypres say that the French won decisive engagements today north and east of that town. In the same zone the Germans lost ground both Wednes-day and Thursday. Heavy rains have rendered the discomfort of troops on both sides almost unbearable. Canals and rivers in all of northwestern France and western Flanders are overflowing their banks, and it is practically impossible to move heavy artillery for the present. For this reason the German efforts to fortify the coast line southward from Ostend have not made much progress. It is true that big guns are now planted at Zeebruge and further east, but as yet they have in no wise troubled the allied fleet. There is a persistent rumor of Zeppelin sheds being built at Ostend. What amounts to a state of famine exists in Ostend. The city is filled with German wounded, and the allied fleet has poured a de-vastating fire into the city for several days. Supplies are cut off for the most part, and the civil population is in dire straits. German mark

"The enemy's submarines have also been reported seeking an opportunity to attack the bombarding ships which are covered by British destroyers."
