COAL STILL COMING SLOW.

Sergeant-Major G. V. Gustar, secretary of the West Toronto branch of the G. W. V. A., stated yesterday that coal was still slow in reaching its destination. More than ten days ago he had placed an order for anthracite with a local firm, and they were still unable to procure it for him. Many other West Toronto homes were in the same predicament.

ENTERTAIN THE SOLDIERS.

The R. S. Williams Co. entertained a number of soldiers from the Base and College hospitals in the reception hall of their store. Among those who assisted were Ben Hakes, Mr. Lincoln, Malcolm Wood, Arthur Smedley, Miss Bernice Donner, and Misses McKillop and Crockett.

WILL CALL DRAFTS.

That all draftees in both the United States and Canada are to be carried by the locals of both countries was the decision arrived at by the International Union of Bricklayers and Masons at the convention recently held at Philadelphia. Business Manager John Viole for the Toronto locals stated yesterday that it would be imperative for all such men to have their policies straightened out at his office at the earliest moment in view of the possibility of their being called away to the east or to Britain very shortly.

DID NOT KNOW ABOUT LIQUOR.

John Gorman, proprietor of the King George Hotel, West Queen street, who was recently fined \$200 in the police court for having liquor on his premises, appeared before the Ontario License Board yesterday to show cause why his license should not be cancelled. He explained to the board that the liquor had been brought into his house unknown to him, and the board decided to investigate his evidence before giving his judgment.

FIFTY MILLION WAS REQUIRED BY ROAD FOR ROLLING STOCK

Canadian Northern Railway Would Need Million for Toronto Alone.

LOOMIS-PLATTEN REPORT

W. H. Coverdale Resumes Testimony Before Arbitrators on Value of Shares.

Taking his figures from the Loomis-Platten report, W. H. Coverdale, consulting engineer, who assisted in the preparation of the report, stated when the C.N.R. arbitration proceedings resumed, that the sum of \$50,000,000 was needed to be spent on rolling stock at the prices which prevailed at that date to enable the C.N.R. to handle the proper business. He also stated that the method resorted to by the engineers to obtain the physical value of the railroad. "Suppose you have a railway valued at \$400,000,000 with no prospect of paying dividends in 20 years, how much would you pay for it?" asked Mr. Meredith.

"What will it do after that?" asked Mr. Meredith. "It will be taken into consideration, but will the waste in 20 years eat it up?"

"No one would think of capitalizing future profits and making that the value of the stock," declared W. N. Tilley, counsel for the Dominion Government.

Justice Harris was of the opinion that the evidence on depreciation was mixed all of them up, and was not a help. Mr. Butler contended that the matter of depreciation was an open one, and said that more would be said about that end of the matter in the future.

Density of Traffic. Mr. Coverdale produced the following list showing the density of traffic for various lines during the first year when they reached the Pacific coast: N.P.R., first year in 1884, 172,000 tons per mile of track; second year, 156,000; third year, 177,000; fourth year, 185,000; and fifth year, 213,000. G.N.R., first year in 1884, 212,000 tons per mile of track; second year, 21,000; third year, 21,000; fourth year, 21,000; and fifth year, 21,000. C.P.R., first year in 1887, 188,000 tons per mile of track; second year, 154,000; third year, 184,000; fourth year, 217,000; and fifth year, 241,000. C.N.R., first year in 1916, 478,000 tons per mile of track, and second year in 1917, 483,215 tons. Mr. Coverdale also stated that the estimated surplus in 1923 would be \$4,875,000, which would give a dividend of 4.61 per cent. The estimated gross revenue for 1923, \$50,000,000; the estimated operating ratio, 69; estimated operating expenses, \$15,500,000; estimated net income, \$24,800,000; and estimated interest charges, \$20,285,000. These figures were based on the assumption that the railroad would have to be spent during the next five years on improvements.

Too Many "Ifs" in Matter. "There are too many 'ifs' in this matter," declared Justice Harris. "If you can get anyone to spend this money by 1923. If not, then I say you cannot earn this money."

The figures quoted above by Mr. Coverdale were taken from the Loomis-Platten report. Pierce Butler dwelt on the amount of business that he stated was "knocking at the door" of the company, and said that the improvements were necessary.

"You must remember," stated Sir William Meredith, "that public work has not been done in Canada. The public works department of the United States is today preparing to spend millions of money," said Mr. Butler. "And the public works department of Canada can spend millions."

"Canada can look after its own public work," stated Sir William Meredith.

Could Find the Money.

"If it can be shown that it is absolutely necessary for the growth of the country and the public interest, I think I think the government or private parties could find \$200,000,000 to carry on this work and carry on the improvement of the railroad," said Mr. Butler.

Three years in Kingston Penitentiary on four charges of housebreaking, the terms to run concurrently, was the sentence yesterday by Judge Denison to Joseph Benoit, a young French-Canadian. The latter pleaded guilty on all four charges. A score or more of similar charges are held against Benoit.

Because she insisted that she conscientiously gave her daughter's age as fifteen years, a birth certificate recently received from England showed the girl to be fourteen. Mrs. Emma Houston was dismissed on a charge of perjury in the women's court. The charge was in connection with the Factories Act.

ODDFELLOWSHIP PROGRESSES.

Annual Reports From Encampments Show Healthy State Order.

The annual reports of the various encampments of the I.O.O.F. throughout the province are now being received by the grand lodge, and the return show great progress. Notwithstanding the present times, a great revival movement is going on in the order, and the coming year promises to be one of the greatest and most successful in the history of the order. A very large proportion of the patriots are overseas, and an outstanding feature of the report is the enormous amount of patriotic work that is being carried on by every encampment from one end of the province to the other.

Witness said there were many other things that he did not personally inspect, but that he depended on facts given by the company.

Considerable discussion took place regarding the inspection made of the property when the report was made, and Mr. Tilley made the statement

that the inspection was not sufficient. "It was for this purpose it was made," said the witness, and explained that it was made on the necessity of New York financiers lending money to the concern. "There was no mention made to me of purchasing the property," he said, and added that it would require a more minute inspection in that case than the one that was made.

Cameron and others.

LODGES CONSIDER DRAFTS.

Question of Keeping Them in Good Standing Discussed.

A matter that will be of vital interest to all fraternal societies is now occupying the attention of the various officers. As the majority of the orders have, since the beginning of the year, kept all members overseas in good standing, the question has arisen as to the possibility of doing the same with those members of the various orders who have come, or will come, under the M.L.A. Although nothing definite has as yet been decided, it is possible that all the orders will be asked to give their opinions on this matter. The general feeling, however, is that all should be treated alike, and it appears that while some are in favor of doing this others are against it.

ALTERATION PLANS ARE SATISFACTORY

Property Committee Board of Education Approves Recommendations Made.

CONTRACTORS COMPLAIN

Work Has Been Delayed, and They Are Asking More Money.

The plans for the alterations to be made in Parkdale Collegiate were submitted to the property committee of the board of education by the superintendent of buildings at the meeting yesterday and were approved. The alterations consist chiefly of the addition of three rooms to the present building. The appropriation for this work was made several years ago, but as there was not enough to admit of any addition to the building the matter was left over. The land has now been obtained, but it is not known as yet when the work will commence.

The resignations of two employees in the building department were accepted by the committee. Mr. E. Beatty, who has been in the service of the board of education for several years, has been offered a position with the military hospital commission at Ottawa. He was given his salary until the end of February. Mr. Beatty's resignation was accepted by the building department, and his salary will be paid until the end of April in view of the fact that she has been in the service of the board for over 20 years.

Communications were received from J. R. Bell and James A. Philpott, two contractors who are at present working for the board, to the effect that as their work had been delayed for some time and that the price of materials has gone up, they would have to ask additional money to carry on with their work. Philpott, who has a contract for building Ordie street school, stated that the other contractors were holding him back in his work and that he had to be to be in the morning. Mr. Bell is a building contractor who had been held up for the same reason and asked for an additional \$750 to meet expenses without loss to himself. The matter was left in the hands of a sub-committee consisting of Messrs. Brown and C. H. Bishop, the superintendent of buildings.

Petition Against Garage.

A petition was presented to the parents of children in Queen Victoria school asking that the garage which was to have been built on Broadview street, between Victoria and Ordie streets, be removed. The garage was erected in some other place, as there would be the danger of children being struck by cars when they were on their way to school. The question was left in the hands of the Trustee Dr. Caroline Brown and the superintendent of buildings. The transfer of the following caretakers was recommended by the superintendent of buildings and approved by the committee: R. J. Rayner, from George street school to Victoria street school; W. W. Tumford, from Ordie street school to Palmerston street school; A. Jennings, from Hillcrest school to Ordie street school; J. E. Carter, from Essex street school to Hillcrest street school; J. Cornock, from Hillcrest street school to Essex street school; J. Amos, from Hester How school to Manning avenue school; T. T. from Backhouse street school to Hester How school.

Mr. Bishop explained that there were seven of the caretakers from the schools in Toronto who had been and that the positions in three schools were just being filled temporarily, and that the men on returning might have employment when they were discharged from the army.

New Classes Provided for.

The committee approved a recommendation by the superintendent of buildings to have \$2500 put in this year's estimates for the purpose of providing additional domestic science and manual training equipment for one school, \$1500 for domestic science and \$1000 for manual training.

The property committee will open an additional class at the following schools: Queen Alexandra, Frankland, Rosedale, McMurich, Palmerston avenue, Grace street, Niagara street, Winchester street, and St. John's Parish Hall. The committee will be obtained to provide additional accommodation for Norway school, a sub-committee consisting of Dr. Steele, Mrs. Ada Courches, Dr. Caroline Brown and C. H. Bishop was appointed to look into the matter and, if possible, find the accommodation needed.

DISCUSS HALIFAX RELIEF.

Lodge Starts Fund for Relief of Members' Dependents.

T. Hastings, P.P.G.M.; H. P. Gilbert, P.G.M.; P. Ballenhill, D.P.G.M., and E. C. Schunck, P.C.S., representing the district officers of the M. U. I. O. O. F., have just started their annual fraternal visits to the various lodges in the Ontario district. All the lodges that have so far been visited have been found to be in a flourishing condition. The chief matter that has been taken up at those visits is the Halifax disaster. In view of the fact that the order lost a great number in the disaster, it is the intention to start a fund to relieve their dependents. The district has started the fund with the donation of \$100, and each individual lodge will be asked to contribute in proportion to its means. By these means it is hoped that grand total of approximately \$1000 will be raised.

ANNUAL LADIES' NIGHT.

Windsor Lodge, No. 35, S. O. E. B. S., held its annual ladies' night last evening in the S. O. E. Hall, when about 250 were present. The chair was taken by Supreme President Bro. Froctor, who in a short address spoke on the grand showing the order had made overseas, and the prominent part Lodge Windsor had played, over twenty per cent of its members being now overseas. The following artists contributed to the program: Will Spencer, Miss Hogg, J. T. Allen, Ed. Froctor, Mrs. Edwards, and the Osborne sisters gave some Scotch dances.
