600 WOMEN'S SWEATERS, IN NEW SPRING STYLES, TO BE CLEARED, \$6.95

Wool Pullovers and Coats in Various Designs, Many Less Than Half the Usual Price
Rare, indeed, are the opportunities nowadays of buying wool sweaters at such a price, and so greatly has the cost of wool increased that there is every likelihood of their becoming rarer. So this big, specially priced offering marks a red letter day in the Sweater Section! Of course there's a reason for such value! The sweaters are a sample clearance bought at many dollars below their usual price from a manufacturer who had taken all the orders he could fill for the season. And not only are the values extraordinarily good, but the styles are smart, the colors are modish, and even the stitches among the most popular of the day. They include the fashionable brushed wool, wool jersey, links and links, cardigan and fancy stitches. Whether in coat or pull-over style, most of the sweaters will have contrasting collars and cuffs, and the sketches will show you how attractive they are:

The colors include rose with brown, white, Oxford or black collars and trimmings, cherry and white, Copen. and white, maize and white, mauve and white, emerald, coral, etc. Though the collection is large, the number in some styles is limited. So come early for a good choice. Extra space and salespeople will make selection easy. Special 6.95
