## HIGH SCHOOL BOYS BEST HELP ON FARM

Women's Institute Lecturers Meet  
in Annual Conference  
for Two Days.

### BABY A HOME BUILDER

Miss Watson Urges More Gen-  
eral Use of Food  
Substitutes.

Women's institute lecturers and  
members of the provincial committee  
opened a two days' conference at the  
parliament buildings yesterday. Ad-  
dresses were given by George A. Put-  
nam, superintendent; Dr. G. C. Creel-  
man, commissioner of agriculture; Dr.  
Margaret Patterson, and Dr. Helen  
MacMurchy.

Mr. Putnam told of the requirements  
and plans for the season's work, and  
was followed by Dr. Creelman, who  
emphasized the necessity of producing  
more food. He explained the short  
course for "farmettes," which will  
soon commence at the Ontario Agri-  
cultural College, Guelph, and urged  
the lecturers to assist in urging the  
young people to offer their services  
for farm work. "The high school boys  
were the best help we had last year,"  
he said, "and they are going back this  
year."

There was serious need for more  
food products, he said. France's ra-  
tions were getting very low, and in  
Italy the entire army could not be

maintained on the field for lack of  
food.

### Use of Substitutes.

Miss Watson, Macdonald Institute,  
O.A.C., spoke on the question of wheat  
substitution. "Use substitutes when-  
ever you can," she advised. "Produce  
the cooking of substitutes as much as  
you can. They can be made tastily  
and in a manner that will be appetiz-  
ing." She said there was great igno-  
rance as to what Canada was doing  
along the lines of food conservation.

Dr. Margaret Patterson, speaking on  
the subject of Child Welfare, said the  
war had demonstrated that the ques-  
tion was most important. It was time  
for a national health movement, she  
said, for there was a great wastage of  
life. The death rate from tuberculosis  
in 1915, and if a "Health First" cam-  
paign was waged the people would be-  
come educated. "Every child should  
have a medical inspection early in  
life," she said, "if it is to have a  
square deal."

### In Hands of Women.

"The Baby" was the subject of an  
address by Dr. Helen MacMurchy. "It's  
for the baby the war is being fought—  
everything is bound up with the ques-  
tion of the next generation," she said.  
The future of the race was in the  
hands of the women to a very great  
extent, and a regular course in baby  
welfare was advocated. This would  
be a material help. Reconstruction  
means the setting up of new homes  
and the payment of proper wages.  
"The baby is the greatest home build-  
er of all," she added.

During the afternoon an address on  
the work in connection with the  
women's hospital was given by Dr.  
Cullis in Foresters' Hall.

### MISS CHURCH IN CHARGE.

Miss Church has been invited to  
take charge of the women's section  
of the work in connection with the  
tag day in the interests of the re-  
turned soldiers.

### WOMEN'S HOSPITAL NEEDS

At the special meeting held yester-  
day afternoon in the interests of the  
Women's College Hospital on Rush-  
olme road, a good deal of interest was  
added to the campaign which is short-  
ly to be put on foot by the promoters  
of the work in Toronto by the earnest ad-  
dress of Dr. Winifred Cullis of Lon-  
don, England, who emphasized the  
need for a women's hospital and told  
of the great success that had followed  
the establishment of the New Women's  
Hospital in London, England,  
which she is associated.

The plan of the campaign, which is  
to be held towards the close of the  
month, was outlined by Dr. Winifred  
Gordon, who stated that \$50,000 was  
the goal to be attempted, the city  
having promised \$30,000, which will  
be required to make up the \$20,000  
needed. Thru the collection made in  
a former campaign \$46,000 was raised,  
which, with subscriptions since given  
by friends, form a present fund of  
\$50,000.

Mrs. Torrington presided at the  
meeting and Judge Boyd of the juve-  
nile court added his endorsement in a  
brief address.

Brown.

"LAW AND THE WOMAN."  
Speaking on "Law and the Woman,"  
before the Canadian Women's Club,  
A. R. Hassard stated if women were  
in control the world would be a bet-  
ter and happier sphere. He stated  
that women were pets of the law, and  
to bear out this statement pointed out  
that a woman associated with her  
husband in a criminal offence was not  
held responsible. Also the woman  
slandering her neighbor over the back  
fence was not liable to punishment,  
but the innocent husband, working at  
the far end of the town, might be  
called to account for his wife's mis-  
conduct. Mr. Hassard, a champion of  
the cause of woman in public life. He  
made reference to the great esteem  
in which a man holds the individual  
woman, and said no man placed  
them on so high a pedestal individu-  
ally, why not grant them the fullest  
privileges as regards the vote?

## Real Movie Star Appearing at Hippo- drome. Who Can Wear Her Slipper?

A real "Cinderella" is in Toronto. Not  
the faded Cinderella of old, but a real  
bonnet up-to-date, small footed Princess  
of the Screen. This modern Cinderella  
is dainty Violet MacMillan, the Movie  
Star, you have seen so much on the  
screen. She is appearing at the Hippo-  
drome all this week in "The Princess"  
vaudeville novelty called "In and Out  
of the Movies," in which the little star is  
seen both in "real" and "ready."  
While Miss MacMillan's engagement  
continues she is going to hold a Cin-  
derella contest at the Walk-Over Shoe  
Co. on Yonge street, and all ladies suc-  
ceeding in putting on her tiny satin slip-  
per will be given a box seat at the Hip-  
podrome for any performance (except  
Saturday night). While Miss MacMillan  
was playing at the Princess Theatre,  
in Montreal, a short time ago two Cin-  
derellas were found. Surely Toronto can  
find a couple. The contest closes Friday  
noon.  
Many Toronto movie fans will remem-  
ber Miss MacMillan as the star of the Oz  
Fairy Tales in the Paramount Program.  
She later played six months under direc-  
tion of Thos. Ince, and later as star on  
the Universal Program.

## BEAUTY CHATS

By EDNA KENT FORBES.

### Profiles Show Your Character

Sometimes, for days, my mail will have  
only letters about the complexion, the  
hair, exercising, diet, and such easily  
answered questions. Then a letter like  
this will come:

"My side-face is awful, simply awful;  
or at least it seems so to me. My fore-  
head slopes back, instead of being rather  
straight, as most foreheads are; my nose  
is large and goes to a turned up point;  
my lips stick out; and my chin slopes  
in. Now, what could a person do for a  
profile like that? My skin is bad, be-  
sides, and my hair is as miserably side  
face as full face."

Well, there are a lot of things one  
might do to improve even so hopeless a  
profile as this—which may not be hope-  
less after all. The complexion may be  
made perfect, and if the girl has a  
little color in her cheeks—as she should  
have, if she is healthy—the flush of  
the skin will greatly improve the side  
view of her face. A fine-skinned nose  
will not look so bad, even if its shape  
leaves much to be desired.

If protruding teeth make her mouth  
look, in spacing them correctly, to over-  
come this, and the chin won't seem so  
receding, then.

The rest is a matter of hair dressing.  
The hair must be drawn down far

enough over the forehead to hide its bad  
line; this can be determined by using  
a hand mirror. It must be pulled  
slightly over the cheek and drawn back  
a little from the temples, to give a curv-  
ing line at the cheek; this will not throw  
the nose into such prominence as a se-  
vere style would. And the knot must  
be placed quite high on the head, to-  
wards the back; its position is most im-  
portant of all; so placed, it will give a  
graceful line to the head, and will bal-  
ance the bad line of the chin, making  
the receding rather attractive. Just why  
this is I can't say; but the proof is in  
the trial. If you have a poor chin,  
just experiment—try doing your hair in  
a knot on the nape of the neck, and see  
how unbecoming it is. See how the  
profile improves as you dress the hair  
high. And, finally, see how very pretty  
that high knot is.

### TO CO-ORDINATE AUXILIARIES.

A movement is on foot to co-ordi-  
nate all the women's auxiliaries of  
overseas units with a central execu-  
tive, the object being to get the men  
in the hospitals in touch with some-  
one of their own primary unit. A  
meeting will be held April 12, the  
place of meeting to be announced  
later, and it is particularly hoped that  
all women having relatives overseas  
will attend.

### SEAT SALE FOR FOLLIES.

The sale of seats will open tomor-  
row morning for the Siegfried Follies,  
which will be seen at the new Princess  
next week. The demand for seats  
promises to be very large, judging by  
the number of mail orders already re-  
ceived. The advance guard of the or-  
ganization has already arrived in Tor-  
onto, and is busily engaged in pre-  
paring the stage for the production.

### A Single Application

Banishes Every Hair

(The Modern Beauty.)

Here is how any woman can easily  
and quickly remove objectionable  
hairs without possible injury  
to the skin: Make a paste with some  
powdered delatone and water. apply  
to hairy surface and after 2 or 3 min-  
utes rub off, wash the skin and the  
hairs are gone. This is a painless, in-  
expensive method and, excepting  
where the growth is unusually thick,  
a single application is enough. You  
should, however, be careful to get  
genuine delatone.
