Farm Hands Needed. Farm Hands Needed.

Farm hands are in great demand all over the country. The County of Stormont is in a serious predicament for want of help, and is trying to arrange with the railway companies to get them to send along all available men. All around Toronto it is nearly as bad, Help is wanted. Three hundred men can find employment on farms within a radius of 40 miles of the city. Here is a chance for you—accept it.

Bucharest, Roumania, March 28 .-The efforts of the government to suppress the revolt of the peasants have met with only partial success. The troops are acting with increased ener-

Hundreds of rioters have been killed in the numerous conflicts with the soldiers, but as yet there is no sign of permanent amelioration of the situation. On the contrary, the rioters appear to be becoming more bold and determined and to-day the situation undoubtedly is aggravated.

As an indication of the viervous apprehension existing even in the capital, the new prefect of Bucharest, as a measure of precaution, orders all shops in the city closed. This order created the impression that the rioters were approaching Bucharest and there was panic until it was learned that

these fears were groundless.

Co-Operation Between Electrical Interests and Hydro Commismission Probable as Result of Whitney's Attitude.

Frederic Nicholls, vice-president and managing director of the Electrical Development Company, and representing the several electric interests of the province in various capacities, had a prolonged interview with the members of the Ontario government yesterday morning. Premier Whitney, and Hon- Messrs. Foy, Hanna, Matheson, Pyne and Monteith were pre-Hon, Adam Beck was in Lon-

Mr. Nicholis declined absolutely to say anything about the interview, stating that at all times he was willing to talk to the press, but in this matter it was only the government that could speak.

A Conference.

Premier Whitney, however, was not communicative.

"We have had a fifty minutes conversation with Mr. Nicholis," he said. The Toronto Electric Light Co. question was not discussed at all. Mr. Nicholls brought up the broader question of the whole situation as regards electric power in the province. I cannot say more without telling you more than I ought to do. You may say that I was very much pleased and interested with what he had to say. "You can make any common sense deductions you please, but you must not attribute them to me," he concluded jocularly.

The most obvious deduction appears to be that the firm stand taken by the government in connection with the policy of the hydro-electric power commission, as expressed by Premier Whitney a few days ago, when he stated that the whole cabinet were fighting along with Hon. Adam Beck for it, has impressed the electric corporations with the fact that the government and its policy is a factor. rnment and its policy is a factor to ose no time about getting down

The commission offers fair prices, and what is practically a government guarantee for collection. This aspect the case has been steadily kept before the electrical gentlemen in the press, but hitherto they appear to

have disregarded it. It is not improbable that any remarks Mr. Nicholls might make to he government would touch on the possibility of co-operation betthe electrical syndicates and hydro-electric power commission adjustment of terms for the sale of power, giving the interests of the riginal exploiters of Niagara energy as favorable consideration as possible and the desirability of compromise any local conflicting interests. There has never been any desire un duly to hamper the operations of the great Niagara syndicates. Premier Whitney has repeatedly mentioned the assurances he has had from the most rominent English and other financiers that the government policy would work no injury to any interest concerned.

## HIGH CLASS CATERING.

Yonge St. Butcher Makes Attractive Easter Display. Perhaps no other Toronto purveyor

has bone to the expense of Charles A. Dunning, in his endeavor to cater to high-class Easter trade. Mr. Dunning's store, 469 Yonge-street, is one absorbing in its attractions, and it is almost impossible to cite anything in high-class edibles which he has not on hand for the Easter season's business. Among the kaleidoscope pictures which the store presents, the following articles may be seen: Spring lambs, veals, spring chickens, broilers, young turkeys, beef, tenderloins and fillets; crowns of lamb, French and rosette chops, calves' heads and feet, sweetbreads, mild cured peafed bacon and hams, corned and spiced rounds of beef, home-cooked meats and home-made sausages. In vegetables a profuse selection of the following is available: Mushrooms, cauliflower, new potatoes, asparagus, spinach, new beans, tomatoes, water and garden cress, sweet potatoes, radishes, lettuce, rhubarb, celery, spring onions, parsley mint, green peppers, cucumbers and
