TELEGRAPHERS TO STRIKE? Secretary of the Union Says One is a Certainty.

CHICAGO, Ill., June 18.—Secretary Wesley Russell of the Commercial Telegraphers' Union to-day announced that the force of clerks to-day sent a notice to members of the union.

The question at stake is the 10 per cent. increase in wages, which the two companies proposed to give on March 1st.

The word relation comes from the words to bind together. It should have come from words "to divide."

Why waste your time trying to prejudice people against something you know very little about? Be sure that the wise men will think in spite of all your and your church say to the contrary.

I care not a whit whether you term a Christian or a Pagan—I take notice that count. Desist speak louder than words, and am proud to come company with such professed lives as Emerson, Channing, Martineau, Longfellow, Theodore Parker and others.

SEVEN MINERS KILLED. SCRANTON, Pa., June 18.—Seven employees were killed outright and another seriously injured in an explosion of gas in the Johnson mine at Priceburg late today.

Look for Blood Humors They Crop Out Constantly, showing the system Needs Purifying. You're not satisfied with your looks, can you be with such disfiguring pimples, such rough and uneven skin?

Blood is full of humors and it's no wonder you look and feel poorly. You are hungry, nervous, however, and your appetite is miserable. Sleep is hard to get. Snag and vim are lacking.

High time to improve matters—but what's the proper remedy? Experience proves that Dr. Hamilton's Pills give instant relief. They tone the entire system, fortify the blood, and impart a feeling of new life in a few days.

Unlike strong purgatives, Dr. Hamilton's Pills are exceedingly mild. They are made from concentrated vegetable matter, and can be taken by young or old without absolute safety.

TRAMP CAN'T EAT BOOKS RICH MAN TO BE FRIEND

Carnegie and Rockefeller Do Not Reach the Man Who is Fast Losing His Self-Respect.

NEW YORK, June 17.—Believing that the libraries of Andrew Carnegie and the endowment funds given by John D. Rockefeller to colleges are not reaching the poorer members of society, James Eads Howes, grandson of the builder of the St. Louis Bridge and the New Orleans jetties, has decided to devote his fortune to the betterment of the professional tramp.

Mr. Howes has studied the tramp question from the viewpoint of the tramp. He has ridden on trucks, gone hungry in the hobo camps, and earned a living as a laborer on railroad work.

Relief stations have been established in New York and Chicago, where the tramp may be cared for until he gets on his feet. But when he gets the money that it has cost to help him on the upward path he is expected to pay back.

Control by Nation. "I believe that the nation must assume this power of control by legislation, and that the present haphazard and piecemeal method of relief is a discourager of bad weather. There is no more effective method of stopping rain than by having the sun shine.

TO REV. GEO. JACKSON. Dear Sir,—I note your futile attempts to stem the tide of reason in making a point of condemning Unitarianism, and your curious statement that Unitarianism is not a Christian religion.
