Archbishop Walsh and Armenian Relief.

Dr. W. B. O'Connell, secretary of the Armenian Relief Fund, has received a letter from Archbishop Walsh, in which His Grace expresses his sympathy and assurance that his most ardent sympathies are with the suffering Armenians, the victims of the heinous cruelty and savage atrocity of the brutal Turks; and that he heartily endorses the movement for relief of the Armenian people, and that he will do all in his power to assist in the relief of those hapless and oppressed Christians whose cry for help is heard in every heart and from every tongue.

Mr. Peter McIntyre, the well-known

ambassador agent, is widely exploiting his summer colony scheme, and says success is assured. His scheme of transforming Demill College, Oshawa, into a summer hotel was recently checked by the fire which destroyed that institution, but as Oshawa Council has offered a bonus of \$4000 for its rebuilding, and the merchants of the town offer to subscribe liberally, it is probable that the college will be rebuilt on such lines as will make it suitable for use as an hotel during the summer months. Mr. McIntyre yesterday went to St. Catharines, via the Lakeside, to interview the Garden City authorities, who would like to see the college established there.

To Prevent Scorching - Streets For Speeding - Cleaning Up the Bonds - New Pavements.

The Executive Committee will meet to-day, and it is probable that this will be the last meeting of the committee. The duties heretofore performed by the committee will under the new regime be divided between the Board of Control and the Legislation Committee.

Miscellaneous Police-men. The chairman of the Board of Works has written to the Chief of Police requesting him to detail a special squad of officers on wheels to arrest all bicyclists who are found riding immediately fast on the principal streets and crossings. The officers are to be in plain clothes. The chairman says the practice of scorching has become a nuisance, and should be stopped at once.

Among the visitors at the Board of Works office yesterday were Alex. Wheeler, John Wheeler and T. E. Taylor, who interviewed Chairman Lamb with reference to having certain streets set aside for speeders' horses. They were advised to present petitions to the next meeting of the board. The streets which are favored for this purpose are Eastern-avenue, North Lansdowne (College to Bloor), Palmerston-avenue (College to Bloor) and Roncesvalles-avenue. It is proposed to limit the time for speeding on these streets from 2 to 3 p.m.

New Roadways. The work of putting down a new macadam roadway on Queen-street-avenue from Elm-street to southward has been resumed by the Street Commissioner.

Several other permits for alterations to existing buildings have been granted.

The Street Commissioner reports that the resources of the Scavengers' Department are taxed to the utmost to remove the immense quantities of garbage, etc., that has accumulated during the winter. The work this year is heavier than ever before.

WORKING HOURS IN GERMANY. The Government has issued a decree limiting the working hours of employees in bakeries to 12 hours a day. A Conservative member of the Reichstag offered in interpellation, questioning the expediency of state interference with hours of labor.

Dr. Von Boettcher, Imperial Minister of the Interior, replied in a strong speech, in the course of which he was repeatedly interrupted by loud and prolonged whistling and shouting.

It was the bounden duty of the Government to limit the hours of labor, where 16 and even 18 hours were the rule. Continuing his remarks, he denied the claim of the Socialists to exclusive representation of the working classes. The Government, he said, was necessarily studying the welfare of the working people. These utterances were heartily cheered by the Centrists.

TO SAVE H. H. HOLMES' NECK. Is an Effort Really Being Made to Have His Sentence Commuted? Indianapolis, Ind., April 22.—Coroner Caster was advised yesterday that a strenuous effort would be made to have the sentence of H. H. Holmes commuted to life imprisonment, and at the same time received a telegram asking him to go to Philadelphia and assist in forming the Pittsburg child inquest with him. He will leave in a day or two for that city and will take all the testimony of the case for the Pittsburg child inquest.

Henry Bullock, the attorney for Holmes in this city, says an effort will be made to save his client, but he does not say how the proceedings will be begun. He says that the Lieutenant-Governor of Pennsylvania, the president of the Board of Pardons of that State, is opposed to capital punishment, and he thinks an effort will be made to secure a commutation.

No Power to Order a Strike. Buffalo, April 22.—The statement in regard to the United Trades and Labor Council ordering a strike for May 1 in the Building Trades Section of the Council is brand as a lie, said Augustus Parson, the representative of the Building Trades Section in the United Trades and Labor Council, speaking to a reporter this morning. The council has not the power to order a strike.
