THREATS HAD THEIR EFFECT  
What Fever Means.

Aldermen Afraid to Donate a Sum to the Yachtsmen During Their Regatta.  
A NINE-HOUR DAY TO BE THE RULE.  
There Will Be No Private Graft in the Supply of Carpets for the New City Hall.

The threatened personal suit against the aldermen had their effect on the Board of Control yesterday. The yachtsmen wanted a decision at once, but the Controllers, while according to the desirability of it, had been placed in this vivid manner face to face with the question of the legal effect of such a grant.

But the yachtsmen had been meted out to him threats for damages and such horrible things. But to Aid. Woods' mind, as he expressed it, "that's easy."

"I agree with Aid. Burns that we should learn our position from the City Solicitor," said Aid. Lynd, and from the men of an opinion, there is the promise of Aid. Burns to fall back on, that should a civic grant be illegal, he is to go down into his cavernous pockets for his share.

A 9-Hour Day Ordered.  
Perhaps the most far-reaching positive action taken by the Board was the institution of a nine-hour day for men employed by contractors on municipal works. The motion is due to Aid. Spence. He had moved in Council and Council had demanded advice from the Executive Board.

spend a few dollars for the whim and it carried.  
Must Tell What He Expects.  
It would have paid Council to put Aid. Spence on some working committee. By robbing him of a show during his illness they have subjected themselves to no little trouble, for he gets in his work more as a partially free lance. The Board were further induced to accept a resolution by him instructing Architect Lennox to lay before Council a statement of his account for services, past and future, connected with the new City Hall. The intention is to find out what extras for superintendence as well as commission he expects.

No Increases Probable.  
Passing hurriedly through the reports the only debatable ground was the mooted increase in Park Commissioners' salaries, from \$1425 and perquisites to \$2500 and perquisites. The increase was strongly urged by Chairman Spence of the Parks and Exhibition Committee, but strongly opposed for the present by Aid. Burns. The former was the official spokesman elsewhere. The latter, on the other hand, gave it out that he had felt the public pulse, and was averse to making any increases this year, at least until they got at the estimates and had an idea of what the rate was to be. The Mayor had been sheltered by temporary absence, but returned unfavorable to so much as \$2500, and finally favorable to a salary of \$2000 for the present.

Prayer Gets His Graft.  
Just as the Board was rising about 6.30, Mr. Alex. Fraser wrapped in his tentacles the job of preparing, at \$1500 cost, a pamphlet of 25,000 circulation, to be published as the official 1 civic advertising medium. Aid. Burns' suggestion to raise the \$1500 by doing away with postal card announcements to voters was displaced. The proposition is to find the funds by spending on this money paper has in previous years been devoted to private advertising agencies.

The drafting of the money bylaws authorized by the Legislature and including that providing \$75,000 for a new Technical School was ordered.

Wouldn't Be Hard on the Firm.  
There was a good deal of contracting let. Chief amongst the contracts was that for the supply of summer clothing for firemen. The lowest tender was \$13,000 a suit; the next \$14.75. Aid. Woods did not think the lowest man could do it at the money, and out of consideration moved to pay \$14.75 a suit. But he was voted down. Hoberlin Bros. are recommended at \$13,000.

Contracts for works were awarded to the following lowest tenders: Gravel road, Colville-street, Gladstone-avenue to Beacomb-street, to the Engineer, \$300; concrete sidewalks, Bathurst-street, St. Patrick to Roseberry-avenue, Gardner & Co., 68 cents per foot; Madison-avenue, Blue-roof-street to Diamond-avenue, 68 cents per foot.

The supplying of dry goods for the fall falls to the lot of Thomas S. Lobb, if he will sell the lot in his tender at the price offered by his competitor. He was the lowest by \$5.50 on his total.

Mr. Colby Bros. upon recommendation of the Engineer, who claimed their was at the most suitable material, though not lowest in price, were recommended for the contract of supplying engine oil at 40 cents per barrel, and to the Works Department, \$1000 for the supply of engine oil at 40 cents per barrel, and to 35 cents for extra cylinder oil, and 35 cents for boiler pump oil.

Will Tender for Carpets.  
Somebody had evidently been calling carpenter to the City Hall. The attempt to buy the new City Hall carpet without tendering has, by publicity, been frustrated.

"Get a cheap carpet and change it often," suggested Aid. Burns. "A good carpet is a long time in getting out of use. If they do let them and it out at private expense," insisted Aid. Burns.

Later on Aid. Spence remarked: "We have no idea how many women did vote." "Then if you don't nobody does," was a reply caught on the fly. The Mayor would
