WIII Contest West Toronto for Legislature as a Public Ownership Candidate.

A deputation of West Toronto electors waited upon A. W. Wright yesterday and presented him with the following requisition, which was numerously

"In view of the fact that public ownership of public utilities has become a feature of practical politics in the Province of Ontario, we believe that the legislature should contain members pledged to support that principle, and, whereas you as president of the Canadian Public Ownership League, and long known as a staunch and consistent advocate of the principle, are the logical choice of the supporters of public ownership, we hereby request that you al-low us to present your name as the public ownership candidate for the On-

Dr. Lorenz's Body Battery is a dry cell battery of high power, arranged so conveniently that it may be worn all night if desired. It produces electricity for

hours at a time without the use of acids or vinegar for

charging. The current is smooth, even, regular, soothing, restful—without shock, sting or unpleasantness.

The belief is growing that when tenders are called for the next 200 miles east of Prince Rupert, the route will follow the Copper river from the confluence with the Skeent. This will leave Hazelton the head of navigation. on the river many miles from the main lines which, after dropping over the pass at the head waters of the Copper will descend to the valley of the Bulk-ley river on the way to Nechaco Val-ley. The Copper river route wiuld con-siderably shorten the main line. Sur-

rebys are still carried on on the branch from Kitamaat to the mouth of the Copper river, and a small force is at work on two rock cuts not far from the mouth of the river. Owing to weighty horses hauling provisions being unable to negotiate the snow, the survey camps were on the verge of starvation three weeks ago and the matter was looking serious when a packer secured light pack animals and rushed provisions to the scene.
