CITY FREE OF CONTRACT  
LAWYERS ASSURE COUNCIL

But Further Opinions Will Be Had  
Gas Light Company Blamed For  
Drowning of Two Boys.

HAMILTON, Jan. 26.—(Special).—The city council had an informal session this evening to consider the power question and the friends of the Hydro-Electric power project received some good tidings thru Hugh Rose, K.C., of Toronto, who, he acted for the city and the Ontario Power Commission in the suit James Smith brought to quash the Catearact Power contract, said that his interpretation of Justice Anglin's decision in the suit was that the judgment freed the city absolutely from the contract and that the company would have no claim upon which to base an action for damages if this year's contract refused to take power under that contract, but took it from the Hydro-Electric Commission. Aid. Jutten also produced the opinion from W. E. Middleton, K.C., Toronto, who agreed with Mr. Rose's interpretation. Aid. Hopkins, altho a new man in the council, proved to be a valuable addition to the ranks of the Hydro aldermen. Aid. Ellis created a stir by asking City Solicitor Waddell if it was the city's duty to pay a dollar in interest on the contract, in order to clear up all doubt on the question of the city's position with reference to the contract, a special committee was named to submit a list to a high-class, disinterested lawyer.

Albert E. Knight, a six-year-old boy who lives at 212 North Westwood street, was run over by a rig this evening and had one arm broken and his shoulder dislocated. Coroner Griffin this evening completed the enquiry into the circumstances connected with the drowning of James Wright and John Taylor and the jury brought in a verdict stating that the Hamilton Gas Light Company, the owners of the property which the pond was formed were largely responsible for the accident because the place was not properly fenced. Dr. Roberts, the medical health officer, testified that he caused notices to be served on the company to drain the pond. The jury also found that Wright lost his life in trying to secure a cigarette that was on the ground and that Taylor lost his life in trying to save him.

For a New Park.  
The Beach commissioners have bought the Birely property of some 450 feet, and intend making a public park of it. The price paid was about \$15,000.

HOW I TOOK MY  
WRINKLES OUT

After Facial Massage, Creams and Beauty Doctors Had Failed

By HARRIETT META

Trouble, worry and ill-health brought the deep lines and wrinkles. I realized that they not only marred my appearance and made me look much older, but that they would greatly interfere with my success, because a specially, dependent very greatly on my appearance. The homely woman, with deep lines and furrows in her face, must fight an unequal battle with the younger and better-looking sister. I therefore bought various brands of cold cream and skin foods and massaged my face with most constant regularity, hoping to regain my former beauty. But the wrinkles simply would not go. On the contrary, they seemed to get deeper. Next I went to a beauty specialist, who told me she could easily rid me of my wrinkles. She paid my money and took the treatment. Sometimes I thought they were gone, but after several days the wrinkles came back. I could afford for such treatment. I found I still had my wrinkles. So I must carry them to my grave. One day a friend of mine who was versed in chemistry made a suggestion, and this gave me a new idea. I decided to try to work making experiments and studying everything I could get hold of on the subject. After several months of almost numberless trials and discouragements, I finally discovered a process which produced most astounding results on my wrinkles in a single night. I was delighted beyond words. I tried my treatment again, and lo and behold! my wrinkles were practically gone. At third treatment—three nights in all—and I had no wrinkles and my face was as smooth as ever. I next offered to my friends, who were now delighted to offer it to me. Miss Gladys Desmond of Pittsburgh, Pa., writes that it made her wrinkles disappear in one night. Mrs. M. W. Graves of Bridgeport, Conn., states: "There is not a wrinkle left; my friends say my treatment is younger. I consider you a true friend to Godsend to womankind." Mrs. James Brass of Central City, S.D., writes: "The change is so great that it seems more a work of magic."

I will send further particulars to anyone who is interested, absolutely free of charge. I use no cream, facial massage, face steaming or so-called skin foods; there is nothing to inject and nothing to injure the skin. It is an entirely new discovery of my own and so simple that you can use it without the knowledge of your most intimate friends. You apply the treatment at night and go to bed. In the morning, lo! the wonderful transformation. People who attend New Sounds to go to bed. Well, the test will tell. If interested in my discovery please address Harriett Meta, Suite 1250 J, Syracuse, N.Y., and I will send you full particulars.

WIFE SHOT BY HUSBAND  
REFUSED TO GIVE EVIDENCE

But Jury Find Negro Guilty of At-  
tempting to Murder His At-  
tractive White Wife.

William Seay, colored, was found guilty of an attempt to commit murder on the criminalizes yesterday afternoon. The complaint was his wife, an attractive light white woman, sentence was reserved.

In his address to the jury Crown Counsel Blackstock pictured the woman as only loving to respectability by subjecting herself and her children to a life with a colored man. Unstrung by the lax life he had led, Seay got into a nervous condition and pressed the revolver into his wife's face. By mere accident the bullet had glanced from the crown of her head. He had doubt intended to kill her, but his subsequent attempt at suicide in the bay was complete.

Chief Justice Falconbridge said it was unfortunate that people coming from the United States should imagine they would be able to carry revolvers in this law-abiding country.

His lordship laid stress upon the fact that the defendant's evidence came from the prisoner, and that in order to be a prisoner was not allowed to defend himself in his own behalf on account of the tendency towards perjury. He said that the evidence of the defendant was not to be taken as evidence of the moral aspect of the case, what was to be done with a man charged with murder and with murder, who committed perjury? If he got acquitted he was free, and if guilty no jury could avail against him for perjury.
