

DR. THOMAS' ECLECTRIC OIL

WORTH ITS WEIGHT IN GOLD.

THE QUEEN OF MEDICINES

Is the Title Bestowed upon Dr. Thomas' Eclectic Oil.

IT IS WITHOUT A RIVAL.

In recent times no medicine has attained such a measure of popularity as **Dr. Thomas' Eclectic Oil**. From every part of Canada and from lands beyond the sea as well, a cry of relief has been heard. The wail of the victims to Rheumatism, Lumbago, Lamé Back, Neuralgia, Diphtheria, Coughs, Colds, Sore Throat, Croup, Asthma, Catarrh, and Earache, and the groans of those suffering from Burns, Bruises, Wounds, and Sprains have been silenced—not by the cold hand of death, but by the timely use, and through the beneficent effect of **Dr. Thomas' Eclectic Oil**. This incomparable medicine has of late years created for itself an unprecedented demand, and that demand has been caused simply by the merits of the **Oil**, and not by advertising, for very few medicines have been advertised less. But wherever the **Oil** has been introduced it has proved its own advertising agent. As regards healing power it has no peer, and the mass of testimony which has come to hand from those who have been cured by it, stamps it as possessing virtues far exceeding those of any other remedy at present on the market. If any one should presume to question the truth of this assertion, all that is necessary in order to answer the challenger is to point to the popularity of the medicine, and to the enormously increasing demand there is for it. Wild assertions count for nothing; "the proof of the pudding is in the eating of it;" **Dr. Thomas' Eclectic Oil** has been before

the public for years, it has been well tried and it has not been found wanting. There is no alcohol in the **Oil**, therefore, there is no loss of strength from evaporation. It could not be made from any other ingredients, nor from the same ingredients in any other proportions. The secret of preparing this **Oil** rests not in its composition—although that is important—but largely on the proportions and the manner of blending, consequently much thought and many anxious hours were expended before success was achieved. But success ultimately was achieved and the welcome the **Oil** has met with, and the enormous sale it commands, at home and abroad, is more than a recompense.

PAIN IN THE STOMACH CURED—MR. OMER MAHEN, Longtinville, Ont., writes:—"Three bottles of **Dr. Thomas' Eclectic Oil** cured me of a pain in the stomach after all other medicines I had tried failed to give me even relief."

KNOWS IT IS GOOD—MRS. A. H. ARIN, Cumberland, Wis., writes:—"I lived in Canada last year, and used **Dr. Thomas' Eclectic Oil** and found it the best medicine I ever used, and now that I know its merits, would not like to be without it."

PITCH FORK ACCIDENT—MR. EDWARD TAYLOR, Colchester writes:—"While at a thrashing bee I was accidentally struck in the hand by a pitch fork, the prong entering just above the little finger and struck the cord of the next finger. This stiffened my whole hand and made it very painful. I tried **Dr. Thomas' Eclectic Oil** which we always keep on hand, and the next day I was able to do some light work, and in one week it was entirely well, thus I highly recommend **Dr. Thomas' Eclectic Oil** to every one as being superior to all others."

MR. W. B. HILL, Cobourg, says:—"I have used it for croup, and found it all you claim it to be; can also testify to its efficacy in relieving pains in the back and shoulders."
