### CANADA'S GREAT OPPORTUNITY TO AID MOTHERLAND

War Orders Coming by the Hundreds of Millions of Dollars, But to Handle This Business Must Mobilize Working Forces

(Montreal Financial Times)

A dispatch from New York appearing in Montreal papers on Friday, confirmed the statement in these columns several weeks ago, to the effect that the British War Office has diverted hundreds of millions of dollars of war orders from the United States to Canada.

It has been known for the past six months that owing to the credit facilities which Canada could offer the Mother Country, it was highly desirable that Canada be given all the business of this special nature she could handle, but owing, no doubt, to the large contracts still under way in the United States, no special significance was attached by the manufacturers of that country to the change in the policy of the British War Office.

The Financial Times stated about two weeks ago that Mr. Flavelle had returned from Europe with some \$20,000,000 worth of war orders in his pocket for Canada.

#### DIAN MANUFACTURERS, BUT NEW YORK HAS GONE

DIAN MANUFACTURERS, BUT NEW YORK HAS GONE "one better than this, in the statement that within the last few days an order for shells larger than the biggest contract placed in the United States last year had been lodged with the Montreal Locomotive Company; an estimate of the order being \$175,000,000 to \$200,000,000."

New York despatches claim that Canada has developed facilities to handle a shell business which may amount to \$400,000,000 during the year 1917.

Increase Our Working Capacity.

There is no doubt that this remarkable development of the shell manufacturing business in Canada, brought about by England's need for shells and her necessity for conservation of cash resources, has been responsible for the Federal government's desire to mobilize the Dominion's working forces. Canadians, therefore, should put their best efforts in support of the government plan, as the more we manufacture on behalf of our Allies the sooner the war will be over, and the stronger we shall be individually and as a nation.

#### MISS ELLIOTT IN MOVIES

Access Returns from War Work to Pose for Her First Film

New York, Jan. 3.—Maxine Elliott, who has returned to this country after a five years' absence abroad, came back to act in motion pictures. She has been engaged by the Goldwyn Corporation, a new concern, and will begin work soon on her first film. Miss Elliott has been devoting most of her time since the beginning of the war to hospital work on the continent, so when she was asked during the last of the negotiations what arrangements for special dressing rooms, motors and other conveniences for her picture work she would like, she replied: "All of us in Europe have seen so much that is distressing, so much that is chastening, so much that adjusts any one man or woman's perspective, especially in Belgium and Flanders, that never so long as I live will I lay any emphasis upon receiving special favor and consideration above other men and women."
