RECENT DEATHS

Mrs. William Sleeth of Moncton, died on Thursday. She was seventy-six years of age, born at Kingston, N. B., but spent much of her early life in St. John and has been a resident of Moncton for upwards of forty years. She was formerly Miss Ellen McLary. She is survived by her husband and one daughter, Mrs. Harry A. Price, who resides with her mother, and one son, Herbert Sleeth, of the I. C. R.

Daniel O'Sullivan of Salisbury is dead aged seventy-five years. He is survived by two sisters and one brother.

THE LOBSTER INDUSTRY

Richard O'Leary of Richmond, one of the largest lobster packers in the provinces, being the owner of the canneries on the North Shore and at several points in southern Nova Scotia, says the industry has been hard hit by the European war, having lost a profitable market for many thousands of cases in France, Belgium and Germany. The factories are operating as usual this year and so far the catch has been good. The demand for the lobsters is kept up well and heavy shipments are being made from Nova Scotia ports.

SUSSEX TREE PLANTING

About one hundred trees were set out during the past week in different sections of the town of Sussex, under the supervision of H. A. White, President of the Town Improvement Association and W. E. McLeod, chairman of the street committee. About sixty were furnished by the Town Improvement Association and the balance by private citizens, who purchased them from the ladies committee. The trees were donated by S. H. White and came from Rockville. They are mostly hardy young maples.

POWELL-CHAPMAN

On Wednesday last at the residence of Mr. and Mrs. Clifford Chapman, Taylor Village, their daughter, Miss Grace B. became the bride of J. Evan Powell of Dover.

FINANCIAL MEN IN PUBLIC EYE

"I've got a great money making idea," said Mr. Binks to his neighbor.

"What's that?" inquired the neighbor.

"Do you see that automobile of mine?" asked Mr. Binks, pointing with all of the pride of a campaign speaker.

"Well, every time I take that car apart to fix it and put it together I always have 15 or 20 parts left over and I can't find room for them. I have taken that car apart three times and I have got the back end of my garage full of parts and the car runs just as well as it ever did. My idea is that I think when a man has taken a car apart say six times, he will have enough parts left over to build a new car, exclusive of the body. I am going to take my car apart every week and I think I ought to be able to build at least three new cars out of it. Then I will sell the old car and get another and start taking that apart. I figure that I ought to clean up about 500 per cent on every car that I buy."
