

THE FATE OF THE ARISTOCRACY OF OLD RUSSIA

Princess Conducts Soup Kitchen, Sewing Rooms and Workshops and Admirals, Generals, and Governors on Staff.

Warsaw, Feb. 12—(Associated Press Correspondence)—Driven from palace to hotel, some of the members of the aristocracy of old Russia now are peeling potatoes or chopping wood here for a living.

Five thousand men and women and children some of whose resounding titles once brought them homage of courtiers clustered here after having fled to Poland before the Bolsheviks.

BEWARE OF BRONCHITIS

Bronchitis is generally caused by neglecting a cold, or exposure to wet and inclement weather. It begins with a tightness across the chest, difficulty in breathing, and a wheezing sound comes from the lungs.

On the first sign of bronchitis you should check it immediately by using Dr. Wood's Norway Pine Syrup, thereby prevent it becoming chronic, and perhaps developing into some more serious lung trouble.

Mrs. Alice Calhoun, Sheffield, Ont., writes: "In December, 1919, I was very sick with bronchitis, and had to stay in the house all winter. One day I saw Dr. Wood's Norway Pine Syrup advertised, so I got a small bottle which helped me very much; I then got a 60c size, and it completely relieved me. I cannot praise Dr. Wood's enough for what it did. Two of my neighbors are now using it for colds."

Don't accept a substitute for Dr. Wood's Norway Pine Syrup; the genuine is put up in a yellow wrapper; three glass boxes the trade mark, price 30c and 60c; manufactured only by The T. Milburn Co., Limited, Toronto, Ont.

Depend upon them to break up colds and ward off "Flu".

JUST a word of caution—don't believe the evil effects of a cold. Realize its seriousness. Once a cold fastens its clutches on you, it seems as if you can't shake it off. Many very serious illnesses often have their beginning in a cold which could be readily rid of promptly if the proper remedy is taken in time. Colds come quickly and develop rapidly. Don't take any chances. At the first onset of cough, or chilly feeling, start right in to take DOMINION C.B.Q. in the

born a princess of one of the oldest Russian houses and the wife of the former civil governor of Warsaw. This remarkable woman is conducting soup kitchens, sewing rooms and workshops for members of her unhappy class and taking orders from her admirers, who once commanded the armed forces of the Russian Emperor. On her staff are admirals, generals, governors, mayors and members of the old Petrograd court, while her husband has laid aside his gubernatorial duties to become her secretary.

A beautiful woman, she hides the tragedy of her life under an optimism that is an example to the unhappy folk to whom she ministers. A woman of action, too, for she escaped from Petrograd with her two sons after freeing her husband from the fortress of Peter and Paul and arming him with a fictitious passport that enabled him to flee to Warsaw. Here the family was reunited.

Selling virtually all she possessed to aid her fellowcountrymen, Mme Lubinoff, organized the Warsaw branch of the Russian Red Cross, which is being aided by the American organization.

Spurring not herself, Madame Lubinoff has not spared the colony of refugees which including many of the former Russian nobility. In the soup kitchen and wood yard which she has established in a Russian orthodox church at 5 Polowki—a squalid property placed at her disposal—are working men and women of title at tasks which once servants performed for them.

In a dingy little courtyard General Oholonsky, formerly architect at the Russian court, chops wood for a living with several officers of the crack Imperial guards, one of whom has lost his reason and must be watched. In a small and dirty building Prince Meechensky, who was master of ceremonies at the imperial court, peels potatoes for his daily bread.

In the crowded rooms the meals are served by women of the Russian nobility. Princess Ruboff, widow of Admiral Ruboff, who was executed by the Bolsheviks; Princes Ouchtomsky, whose husband was reputed one of the richest men in Petrograd and is now cashier in the rear room at 4000 Polish marks a month, the equivalent of \$4 a day, and Madame Kondratyevsky, widow of the Vice-Mayor of Petrograd who was put to death by the Red revolutionists.

Colonel Kessloff of the Imperial Russian Guards runs errands for Madame Lubinoff and refugees who collapse from exhaustion while waiting for their food are attended by Mte. Caragoseff, a former wealthy resident of Petrograd, now a nurse.

Working in an American Red Cross warehouse are twenty officers of the Imperial Guards regiment headed by M. Reckienbry, a lawyer of Kiev, who arrived in the Polish capital without undereclothing or footwear. He said his sister had been killed this winter by the Bolsheviks and that the capital of the Ukraine had become a city of the dead.

Madame Lubinoff boasts a storehouse about the size of an American housewife's pantry which is in charge of Michael Shiramchenko, the son of the governor of Tchernigoff, who was killed by the Bolsheviks. The assistant storekeeper is Victor Borsenko who was governor of Novgorod.

KING NICHOLAS DIES IN FRANCE

Aged Monarch of Montenegro Had Been in Exile From Troubled Country.

(Canadian Press Despatch). Antibes, France, March 1—King Nicholas, of Montenegro, died here today.

Nicholas I of Montenegro was born in October, 1841. He was proclaimed Prince of Montenegro as successor to his uncle Danilo I in 1860 and assumed the title of King under a resolution passed unanimously by the national Skupstina in 1910, on the occasion of the fiftieth anniversary of his accession. During the war Montenegro participated on the side of the Allies. When the armistice was signed the Serbians ordered elections for the national assembly and when the assembly met in 1918 it declared itself in favor of the deposition of Nicholas and the reigning dynasty.

Shortly afterwards the assembly voted for the union of Montenegro with the Jugoslav state of the Kingdom of Serbs, Croats and Slovenes. Nicholas and his cabinet since that time have been in France and final decisions as to the status of Montenegro lies with the peace conference.

Nicholas throughout his trials always claimed his right to govern his people. It was said he refused to accept an au-

I never knew what it was to get a good night's sleep, and many nights I just had to walk the floor until I became exhausted."

"So many others were getting relief by taking Tanlac that I decided to try it and it was certainly a wise move, for the medicine has rid me of all my troubles and built me up to where I feel like my old self again. Why, I have gained ten pounds in weight and I'm certainly thankful to Tanlac for my good health, for it fixed me up when everything else failed me."

Cause of Early Old Age

The celebrated Dr. Michenoff, an authority on early old age, says that it is "caused by poisons generated in the intestine." When your stomach digests food properly it is absorbed without forming poisonous matter. Poisons bring on early old age and premature death. 15 to 30 drops of "Seigel's Syrup" after meals makes your digestion sound.

FATAL DUEL IN KENTUCKY TOWN

Man Who Resisted Arrest Killed—Deputy Sheriff Mortally Wounded.

Lexington, Ky., March 2.—While scores of people stood at a comparatively safe distance to watch the battle, Deputy Sheriff John Smith of Hazard, Perry county, Ky., and Kelly Robinson, a professional "bad man" who had terrorized parts of the Kentucky mountains for years, fought a duel at Hazard with pistols, that resulted in the death of Robinson and the fatal wounding of Smith.

The duel followed the attempted arrest of Robinson, who was thirty years old, by Smith, who is twenty-two, being the youngest deputy sheriff in the state. Robinson had just been paroled from the penitentiary, where he was serving a term for murder. He reached Hazard and invaded his brother John's restaurant, where, with drawn pistol, he created terror among the diners and threatened to shoot them.

Officers ordered him to leave town and a squad escorted him to the outskirts. Robinson later came back into the town by a different route and met Smith in the street. Smith started toward Robinson and he began firing. Smith replied promptly. Robinson got first blood and shot Smith twice. Smith put two bullets into Robinson, with both men still on their feet. Then Smith got in a third shot and Robinson fell dead. Smith then collapsed and it was found that he was mortally wounded.

DIGBY SHORTAGE IS NOT SERIOUS

Digby, N. S., March 1.—That the much advertised "shortage" of the town clerk and treasurer of this town was but \$465.30 at the end of the year and that \$426.68 has since been paid into the town's account, was the subject of a report presented to the town council. The resignation of the town clerk and treasurer was read and accepted, and Alfred Boden, lately bookkeeper for Dr. MacDonald, the Metegan shipbuilder, was appointed to fill the vacancy.

The finance committee was in session all day today and all outstanding accounts against the former town clerk and treasurer have been settled.

Advertisement for Home-made Remedy Stops Coughs Quickly.

You might be surprised to know that the best thing you can use for a severe cough is a remedy which is easily prepared at home in just a few moments. It's cheap, but for prompt results it beats anything else you ever tried. Usually stops the ordinary cough or chest cold in 24 hours. Tastes pleasant, too, children like it—and it is pure and good.

Four 2 1/2 ounces of Pinex in a 16-oz. bottle, then fill it up with plain granulated sugar syrup. Or use clarified molasses, honey, or corn syrup, instead of sugar syrup, if desired. Thus you make 16 ounces—a family supply—but costing no more than a small bottle of ready-made cough syrup.

And as a cough medicine, there is really nothing better to be had at any price. It goes right to the spot and gives quick, lasting relief. It promptly heals the inflamed membranes that line the throat and air passages, stops the annoying throat tickle, loosens the phlegm, and soothes your cough spots entirely. Splendid for bronchitis, croup, hoarseness and bronchial asthma.

Pinex is a highly concentrated compound of Norway pine extract, famous for its healing effect on the membranes. To avoid disappointment ask your druggist for "2 1/2 ounces of Pinex" with directions and don't accept anything else. Guaranteed to give absolute satisfaction or money refunded. YOU MAY BE A BETTER MAN AT 45, THAN THE YOUTH OF 25

If you keep your blood rich in iron to give you plenty of "staying there" strength and endurance.

In an account of a severe nervous climbing test, a New York newspaper states that 20 per cent. of those who completed the feat were 44 years an over. It is therefore shown that you may be a better man at 45 than the husky strapping of 25 if you take care of yourself and keep your blood filled with iron. Prize fighters, wrestlers and athletes have learned the value of plenty of plain coarse foods in their training. Such a diet helps supply their blood with iron. Nature put plenty of iron in the husks of grains and the peels of vegetables to enrich your blood, but modern methods of cooking throw all these things away—hence the alarming increase in recent years in Anemia—in iron starvation of the blood, with its devastating weakness, nervousness and other attendant ill.

If you are not strong and well, if you lack bodily and mental vigor, do not wait until you go all to pieces and collapse in a state of nervous prostration or in your weakened condition you contract some serious disease, but take some organic iron like NUXATED IRON. Once to help enrich your blood and revitalize your worn-out exhausted nerves. Organic Nuxated Iron is like the iron you need and like the iron in spinach and apples. It will not injure the teeth nor disturb the stomach. You can even eat it if you wish. It offsets increased acidity of the stomach. It is in two weeks' time. Your money will be refunded by the manufacturers if you do not obtain satisfactory results. E. W. Ware of substitutes. Look for the "Nuxated" on every package and to N. I. on every tablet. THIS WOMAN'S EXPERIENCE

Brings a Ray of Hope to Childless Women

Lowell, Mass.—"I had anemia from the time I was sixteen years old and was very irregular. If I did any house cleaning or washing I would faint and have to be put to bed. My husband thinking every minute was my last, after reading your textbook for women I took a 25c. box of Pinex's Vegetable Compound and used the Sanative Wash, and never felt better than I have the last two years. I can work, eat, sleep, and feel as strong as can be. Doctors told me I could never have children—I was too weak—but after taking Vegetable Compound it strengthened me so I gave birth to an eight pound boy. I was well all the time, did all my work up to the last day, and had a natural birth. Everybody who knew me was surprised, and when they ask me what made me strong, I tell them Lydia E. Pinkham's Vegetable Compound. Use this testimonial at any time.—Mrs. ELIZABETH SMAR, 142 W. Sixth St., Lowell, Mass.

This experience of Mrs. Smart is surely a strong recommendation for Lydia E. Pinkham's Vegetable Compound. It is only one of a great many similar cases.
