

TWO FORMER SOLDIERS DROWN

Russell Lenihan of St. John Lives at Fredericton—James Wade Meets Death at Baribouge

Fredericton, N.B., July 21.—Russell Lenihan, a member of the staff of the New Brunswick Military Hospital here, and a son of Patrick Lenihan of St. John, lost his life in the St. John river this afternoon. With two other soldiers in a small boat which is used by the officers to reach deep water, Lenihan tipped or fell from the boat and his companions could not get him out of water. He could not swim. In all was not more than three minutes in water.

When men were seen bringing the only ashore, Capt. Joinville and Capt. Iorlison rushed to the river bank and began to work on the man. The pullover belonging to the city of Fredericton was rushed to the hospital by the motor truck of the fire department and was used. Efforts to revive the man were continued for several hours without effect. No water was found in the lungs and it is possible that he died of shock. The home address of the deceased soldier is 118 Queen street, St. John. He was aged twenty years. He had not served overseas but had three brothers who had; Frank, one of these, being killed two years ago. A brother, John, taking a course in the vocational school here; the other brother, Gordon, lives with his father in St. John, their mother being dead. The deceased was a member of the hospital staff having enlisted in the A.M.C.

Coroner Ross viewed the body and permitted its removal to St. John. The funeral took place tonight. The G.W.V.A. band played the funeral procession to the C.P.R. station and patients and the staff of the N. B. military hospital accompanied the remains. The "Last Post" was sounded at the station. The body was taken to St. John.

Drowning at Baribouge Bridge.

Chatham, N.B., July 21.—A sad drowning accident occurred at Baribouge on Sunday afternoon in which James Wade lost his life. He and another young man were in swimming Wade took a boat and rowed out to Baribouge Bridge, tied the boat and lowered himself over the side. His companion was swimming around and heard young children crying out to him. He turned around and came back to Wade's boat, not seeing Wade he knew that something was the matter. The children told him that Wade had not come up after going into the water.

Strength Declines And Age Advances Follow This Suggestion

So many women grow old before their time, perhaps your wife or sister. A little while ago, buoyant, full of vigor and imparted pleasure to the whole family, but now in a few short years she has faded and lost color and strength. She is just ready to develop some disease that will further weaken and debilitate. You remember how it began, failure of appetite, tired in the morning, found housework burdensome, always nervous and a little irritable. It's a shame to let her go down hill further when you can build her up so quickly with Ferronase. The change this nourishing tonic makes in a weak woman is surprising. It gives great zest for food, increases appetite and digestion enormously. The blood gets richer and stronger and adds new life to every organ in the body. A rebuilding process works through the entire system. The first week will show an improvement, and a month or two will fatten up the thinnest, most run-down women you can think of. Take Ferronase for lost color, for nervousness, for weakness, use it when run-down and feeling poorly. It will do you more lasting good, keep you in better health, than anything else. Just a good for men and children, too, because Ferronase is harmless and safe. 50c. per box or six for \$2.50, at all dealers, or direct by mail from the Catarh-sonne Co., Kingston, Ont.

The young fellow swam over to the boat and dove several times but could not locate the unfortunate young man. After several attempts he gave up and went for assistance. The body was recovered in an hour's time and all attempts at resuscitation failed. Young Wade was twenty-five years of age and had returned last April from two years' service with the Canadian forces overseas. He is survived by his mother, Mrs. James Hayes, Baribouge, and three sisters.

ST. JOHN MAN HONORED

Sergt. P. Pemberton, son of Mrs. M. Pemberton, of 102 Winter street, was one of a group of fifty-eight picked men from the British army which was chosen to give performances at the military tournament at Olympia in London. An English newspaper says of the group, that it contained "the best trained men of the smartest army in the world" and the group had the very special honor of performing in a dress rehearsal at Aldershot before royalty. On the occasion of the rehearsal at Aldershot Sergt. Pemberton was singled out as being the only Canadian amongst them and was presented to Queen Mary who spoke to him most graciously.

HALIFAX WOMAN WAS SURPRISED

Mrs. Warren, After Her Wonderful Improvement Declares Tanlac to be the Best Medicine in the World.

"My wonderful improvement since I commenced taking Tanlac is not only a surprise to me but to all my friends," said Mrs. Blanche Warren who lives at 27 Canard street, Halifax, while talking to a Tanlac representative the other day. "I have been suffering from indigestion and a general run-down condition for a great many years," continued Mrs. Warren, "and when I commenced taking Tanlac I was hardly able to get about at all. Everything I ate would sour on my stomach and I often had severe cramping spells. Very often this sour, undigested food would cause gas to form so bad that it would almost cut my breath off, and I would be perfectly miserable for hours at a time. I finally got to where I would often have had attacks of acute indigestion which would leave me in such a weak condition that it would take me a long time to get over it. I lost in weight from one hundred and thirty to one hundred and four pounds, and I just felt like every particle of my strength had left me.

"I had read so many good statements about Tanlac that I decided to give it a trial myself, and see if it would do me any good. I have only taken two bottles of Tanlac so far, but the wonderful improvement I have made on those two bottles convinces me that it is the best medicine in the world for building up people who are all run-down like was. Why, I feel better in every way than I have in years. My food digests so much better than it did, and in fact I can eat just about anything I want without the awful fear of having an attack of acute indigestion afterwards. I am getting back my lost weight, and I can just feel my strength coming back to me. My general health has been greatly improved, and I never have that tired, worn-out feeling any more. Tanlac certainly has been a great blessing to me, and proved to be just the medicine I have been needing all this time."

Tanlac is sold by St. John by Ross Drug Company and F. W. Munro, under the personal direction of a special Tanlac representative (A.S.R.).

London Will Have American Hospital

Great \$10,000,000 Institute to be Centre of U.S. Medicine in Europe

London, July 22.—American residents of London have decided to found in this city an American hospital for Great Britain and held at the Royal Society of Medicine a meeting to appoint a committee to take charge of the project. Lord Reading was in the chair and he was supported by some of the leading medical lights of England, including Sir Humphrey Rolleston, president of the Royal Society of Medicine; John Bland Sutton, vice-president of the Royal College of Surgeons, and Sir Arbutnot Lane.

It was explained that the hospital idea was an outgrowth of the war. The situation would be for medical and surgical treatment of patients of all classes, irrespective of creed or nationality, and also for the promotion of scientific study and research.

During the war it was pointed out, there had been the closest co-operation between British and American medical men and British schools had been thrown open freely to large numbers of Americans who had come over to help care for the sick and wounded. It was desired to continue the close relations thus established and to remedy the conditions prevailing before the war.

Then London, notwithstanding the large mass of material for study in such a large centre of population that was necessarily offered, provided practically no opportunities for research or advanced teaching for graduates from other countries. The result was that American medical men went to Germany and Austria, and only rarely to Great Britain for scientific work, and British medicine and surgery failed to get their legitimate recognition in the United States.

It was hoped that the new American hospital would not only afford American visitors those familiar American surroundings that often are so important to patients suffering serious illness, but also would be the headquarters of American medicine in Europe.

No detailed plans for the American hospital have yet been formed, but it is intended to build an institution of the first rank, equipped with the best scientific apparatus. It will cost, it is expected, at least \$10,000,000 before it is completed, and subscriptions will be sought both in the United States and Great Britain.

SCORED LOCAL LABOR LEADERS

Conservative M. P. Talks Vigorously to Strikers at Sydney Mines — Letter From Premier Read

Sydney, N. S., July 21.—At a labor meeting held this afternoon at Sydney Mines a telegram from Sir Robert Borden was read dealing with coal parades by the national railways board. At the same time R. H. Butts denounced local U. M. W. leaders as demagogues and agitators. The secretary of the meeting started the proceedings by reading a number of prepared questions which were evidently designed as poisons for the politicians who were expected to be present.

The questions dealt mainly with unemployment at Sydney Mines, and the government's apparent apathy in the matter of furnishing orders for coal. Mr. Butts started by observing that judging from the appearance of the audience there was nothing much the matter with the people of Sydney Mines. He reminded them that he was not now member for North Cape Breton and that the questions submitted should have been put to D. D. McKenzie and other local Liberals.

Mr. Butts then proceeded to score the local labor leaders. He told his hearers to beware of agitators whose only business apparently was to go up and down the country creating discontent and trouble in the industrial centres. The worst enemies the men had he declared were among themselves. There is too much strike talk, he said, and he commended the remarks made at a previous meeting by Lieut.-Colonel J. A. MacDonald, who advised the workers to study thrift and economy. Above all he said beware of the strike promoter, and of all those who were inclined to I. W. W. and O. B. U. ideas.

Premier's Telegram.

The secretary then read the following telegram on the C. N. R. coal situation from Sir Robert Borden:

"Major McCormick, Sydney Mines (C. B.).

"The Canadian National railway board advises me that they are purchasing approximately 18,468 tons of coal this year than last year and although the present weekly consumption is only 18,000 tons more Nova Scotia coal is being purchased in excess of sixteen different companies in Nova Scotia and Cape Breton and are taking from the companies 18,468 tons of coal. They have accumulated seventeen weeks supply and are adding to their stock at the rate of 9,000 tons a week. They have distributed their orders with due regard to the output of the various mines and not one ton of American coal has been purchased to supplant Nova Scotia coal. Unfortunately the Dominion Coal and the Nova Scotia Company are unable to hand-trapped in the St. Lawrence commercial trade by present universal short-

PLANS FOR THE PRINCE'S TOUR

London, July 21.—(Reuter's)—Reuter's learns that the following are the details of the Prince of Wales' forthcoming visit to Canada:

"Times are excluded as some of the plans are tentative and subject to possible alteration. America is not mentioned in the programme but this does not mean that the United States are not to be visited. There is almost certain to be a visit to the United States but the details are not yet settled and it may be strictly limited.

"The general plan is a visit aboard the H.M.S. Renown to important centres in the maritime provinces, winding up at Quebec; an overland trip through most of the great lakes system, through the silver mining region and the great grain growing districts away to the west and beyond the Rockies to British Columbia and then back eastward across the Dominion to Montreal. This programme, excluding possible American calls, will occupy the Prince of Wales until October, and according to present indications he will be back in London in November.

"Leaving on August 5 the prince crosses the Atlantic to St. John's and from there goes to St. John (N. B.), visits to Halifax, Charlottetown and the St. Lawrence to Quebec follow. The prince will leave the Renown at Quebec and proceed overland to Toronto, where he will visit the exhibition. Ottawa will next be visited, where the prince will lay the foundation stone of the new tower for the parliament buildings. North Bay and Lake Nipissing will be the next objective and thence the prince goes to Cobalt where he will visit the silver mines, and to Timmins where he will inspect a gold mine.

REFORM LINE ACQUIRED. (Toronto Globe.)

Interest in the Robert Reford Company, pioneer Canadian ship line, has been acquired by the Cunard Line, according to an announcement. Robert Reford, president of the former company, has been elected a director of the

Helps a Weak Throat Strengthens the Voice Cures Bronchitis

By Breathing the Healing Balsams of Catarh-sonne You Are Cured Without Using Drugs.

You breathe through the Catarh-sonne inhaler medicated air that is full of healing, soothing balsams, full of piney antiseptic essences that resemble the air of the pine woods in the Adirondacks. This piney vapor has a truly marvellous action on weak throats. It brings strength and health to the bronchitic, stops that hacking, irritating cough, prevents hoarseness and difficult breathing. You can't find anything for weak-throated people on earth more beneficial than Catarh-sonne. It means heaven on earth to the man that has had bronchitis, catarrh or throat irritation. You will realize this the first time you use Catarh-sonne which is a scientific preparation specially designed for diseases of the nose, throat and bronchial tubes. Get the large size, it lasts two months, cost \$1.00; medium size 50c; sample size, 25c. All storekeepers and druggists or the Catarh-sonne Co., Kingston, Canada.

Cunard Steamship Company, while his own concern has been re-organized in accordance with the new plan. The Cunard Company announces it will greatly increase its sailings between Canadian and British Isles ports and will also re-open its offices in Antwerp and Rotterdam, closed by the war.
