Both are well known here, and the wishes of many friends for their future happiness will follow them. The ceremony was witnessed by Miss Lillian Walsh, cousin of the groom, and Doctor and Mrs. Currie, of Cambridge, the latter a sister of the bride. A honeymoon trip to New York and Atlantic City will follow, and in about ten days Mr. and Mrs. Ramsay will return to St. John.

He presented a sorry appearance and was trembling while the policeman was giving evidence. He told the magistrate he had been in that condition all morning and asked to be given another chance. He was remanded, however, and the court ordered that a doctor attend him. Another man was arrested last night on a charge of lying and lurking in a barn. Policeman Briggs said he found the man asleep in a stall next to one occupied by a horse. He was remanded. Another man charged with being drunk on the Long Wharf was also remanded to find out where he got his liquor. NOT YET CHANGED. Although the time-table on the C. P. PLANTING TREES WHERE OLD TIMERS HAD BEEN FELLED FOR SUBURBANITES

Now Regret That so Many Were Cut Down and so Others Are Being Started. It may sound strange to the ears of residents of the city and in other parts of the country but it is nevertheless a fact that trees are now being planted in some suburban sections where, only a few years ago, fine predecessors which would today lend shade and enchantment to the surroundings, were cut down. In the advance of the city dwellers towards the country, taking up summer cottages along the lines of the I. C. R. and C. P. R. they have in many cases hewn down fine trees to make the clearing for their homes, or perhaps to cause a lawn or garden to be made about the house. Now many regret their action and are hastening to remedy the error by planting young trees. This is particularly true at one station along the line of the C. P. R. which is a wide swath of trees in the vicinity of summer cottages. Many fine, wide-branched ones with spreading tops and extensive shade were chopped away to allow more room about the grounds surrounding the house. That they did not allow more to stand is now the regret of many who have built. Of course there is something in the argument that too many trees about a house are apt to cause dampness, but this cannot be said of homes at some of the suburban resorts which are practically devoid of trees of any size. While it is true that the trees which have been cut down are a way to be replaced, the grounds have been beautified with hedges in many cases or attractive lawns have been made, but still those who are now building at the suburban resorts are making particular pains to see to it that the trees are not stripped from the grounds surrounding the new cottages, but only as many are necessary to allow the work of clearing and building.

SEGEE MATTER GETS INTO COURT AGAIN

Before Chief Justice McLeod in the Chancery Division this morning was the case of the Turnbull Real Estate Company, Limited vs. John A. Segee, a motion was made by W. A. Irving, K. C., for the plaintiff to commit the defendant for contempt. In November, 1911, in a suit of ejectment between these parties, judgment was given in favor of the plaintiff, and a writ of possession was served on the defendant. A writ of injunction was also granted and served on the defendant, restraining him from taking possession of the lands in question. On May 18 the plaintiffs learned that the defendant was erecting a house on their lands and commenced action to commit Segee for disobedience to the order of the court. H. J. Smith appeared this morning and took technical objections to the motion. His Honor said that he would give judgment on Saturday morning, and suggested that in the meantime Mr. Smith arrange with his client to stop possession.

THAWING WATER PIPES IN JUNE

This is Experience Today in Connection With Sugar Refinery. The problem of thawing water pipes in June is one that is seldom met in this climate, but that is the difficulty which the contractors for the erection of the sugar refinery are trying to solve today. A service pipe to supply water for use during construction was laid last year and precautions were taken which were thought to guard against any possibility of frost. The pipes were laid to a depth of four feet in a hot bed of manure, but in spite of this it froze solid during a cold winter. There has been no sign of thawing by natural process, so this morning steam was quite a wide swath as a thawing machine was maintained, it seemed to have no noticeable effect on the ice.

JARVIS SENTENCED TO THREE YEARS IN PENITENTIARY

The following paragraph relates to a young man who went on the road for a St. John wholesaler, but was charged before he really did any business, and then cashed drafts on them and cut a wide swath as a thieving financier before he was rounded up, as recently described in the Times. Theophilus Jarvis, the young man who pleaded guilty of forgery, has been sentenced by Stipendiary Fielding of Halifax to three years in Dorchester Penitentiary. Jarvis passed a Bank of Nova Scotia check from the Annapolis Royal branch for \$100 at the Halifax branch of the Royal Bank of Canada and was brought back from Quebec by Detective Kennedy, who worked up the case against Jarvis.
