IN THE MARKET.

There was a fair supply of the stands in the country populat this stands in the country population.

Passengers carried last year averaged more than 25,000 on each week day and the average fare, the statement shows, was 43-4 cents.

It was also announced that the wages paid out in the railway department of the company's activities during 1924 amounted to \$148,000, and this is declared to be approximately 40 cents on each dollar of revenue. The sum of more than \$150,000, it was said in conclusion, had been expended on improvements to the street railway system in the last two years.

Thorne Lodge, I. O. G. T. met in their hall, Thorne avenue, last night with Alfred Garland, C. T., presiding. After a business session, plans were made for a sleigh drive. A pleasing programme was given for a large number of visitors including grand lodge and district lodge officers, Rev. Wm. Lawson and Wm. Boodle, grand councillor of Massachusetts, and D. C. T. of Merrimac Valley District Lodge.

Good Programme.

Another pretty little incident in coonnection with radio broadcasting has developed out of the concert given by St. John artists in the CNRA studio, Moncton on last Tuesday night. Mrs. F. G. Spencer was one of the contributors to the excellent programme and it has pleased her greatly to receive a telegram from friends in New York with whom she stayed as a girl of 16 during her period of vocal tuition. The New York folks had not heard the St. John lady sing since the time she left the big city and, hearing her name Heard From.

Good Programme.

The programme was as follows:
Piano solo, Wm. Roberts; address, Jas.
A. McEachern, G. C. T.; solo, John
McEachern; five-minute talk, Grand,
Secretary G. P. Kelly; piano selection,
Miss Helen Wheaton; speech, E. N.
Stockford, N. C. T.; speech, R. A.
Brown; duet, Mr. Boodle and Rev.
Wm. Lawson.

Mr. Boodle, who is an excellent entertainer, gave several selections in a very pleasing manner and related several amusing incidents that occurred during the years in which he has been in the work.

Mr. Lawson was called on to deliver a short address, and told of many as the time she left the big city and, hearing her name mentioned from the air, were naturally keen to keep the dials indicated on CNRA until the whole programme had been discoursed. Mrs. Spencer's friends report that they heard her singing very clearly and complimented her on the freshness of her voice, which had lost none of its girlish charm as they remembered it.

Considering that years have elapsed and that she is now the mother of an interesting family this little revival of friendship constitutes another radio romance of which there are many these days of broadcasting.
