HINDUS MAY ENTER

Chief Justice Hunter of B. C. Gives Sweeping Decision.

ORDERS ARE ULTRA VIRES

Idioey, Disease, Crime and Medi-
cancy, the Ordinary Grounds For
Excluding British Citizens on the
East Coast Are the Only Ones
Which Can Apply Against
Sikhs on Pacific Coast.

VANCOUVER, Dec. 1.—Chief Justice Hunter has given a sweeping decision condemning as illegal all the Federal orders-in-council which have hitherto kept Hindus out of British Columbia. The only grounds which a Hindu may now be excluded are those of idioey, disease, crime or medi-
cancy, merely grounds which apply against British-born citizens entering Canadian eastern ports. For instance, there is now nothing to prevent entire shipments of Hindus entering British Columbia, and judging from the persistence with which they have for three years been pressing the question of their entry, these ship-
loads may not be slow in taking advantage of the chance to come.

The decision specifically is in favor of a Sikh priest named Bhargwan Singh. Three days ago the chief justice gave an oral judgment giving Bhargwan Singh his freedom on habeas corpus proceedings. On Saturday, Chief Justice Hunter added a written judgment which went further than his brief court pronouncement. If Saturday's decision is good in law, it is difficult at this distance to see how the new regulations can be made effective by the Government to keep the Hindus out without distinctly mentioning them in a manner that might give serious offence to their British citizenship.

As to the other order-in-council referring to natives or citizens coming by a continuous journey from India, and which had been previously declared ultra vires by Justice Morrison in the case of re Itahim, the learned chief justice concurs in the order-in-council referring to "natives or citizens," whereas the statute merely says "a native or naturalized citizen."

His lordship says he assumes the Legislature had some manifest intention when it amended the act in 1908 to insert the word "naturalized" to give it large classification. He holds the word "native" is to be used as an adjective qualifying the word "citizen."

LAST FLEET CLEARS.

Twenty-Five Freighters Left Fort William Yesterday.

FORT WILLIAM, ON., Dec. 1.—In the final rush to get on their way down the lakes before midnight and thus avoid the necessity of having their insurance extended, twenty-five freighters, carrying about eight million bushels of grain, cleared for the east Saturday.

November had been a record month for grain shipment and more than 250 vessels have cleared from this harbor during the last week. More than 80 vessels with something like sixty million bushels of grain have gone east. It is estimated that about half of these vessels were bound for American ports.

No Hope For Leafield.

OTTAWA, Dec. 1.—All hope of the Leafield and her crew of twenty men is gone. It is certain that she foundered in the recent terrible storm, which swept the Great Lakes. A telegram received Saturday by the Marine Department from Captain D. Larin of the Government tug Arbitrator, which was ordered out from Port Arthur to look for the missing vessel, reports that the Arbitrator was out ten days. During four of these days the weather was so bad that the tug had to seek shelter at Eagle Harbor. All that was discovered was a black top-mast nine feet long belonging probably to the Leafield.

Duke Lost Jewels.

LONDON, Dec. 1.—It has just become known that the Duke of Connaught lost a quantity of valuable jewelry, including the Garter jewels, Scotland Yard is conducting a search of great secrecy into the mystery. It is not stated whether the property is supposed to have been lost or stolen or when it was first missed. The duke sailed for Canada on Oct. 17. The jewelry includes five cravat pins, three pairs of sleeve links, a gold wrist watch, an enamel garter and crown. Some articles bear the duke's initials "A. W." (Arthur William).

Murdered With Hatchet.

MUSKOGEE, Okla., Dec. 1.—A mysterious murderer, who chops victims to death with a hatchet, has made his appearance in this city and already has slain two aged business men, leaving no clue leading to the establishment of his identity.

Sink-Hole Delays Traffic.

BROCKVILLE, Dec. 1.—Another sink-hole, presumably caused by quicksand, has been discovered on the new line of the Canadian Northern Railway near Chaffey's Locks. The hole is about twelve feet deep and will delay the running of trains which it was proposed to start this week between Toronto and Ottawa.

PRICE GIVEN UP?

Diver's Release Taken To Mean That Operations Are Ended.

SARINIA, Nov. 29.—Samuel Gargath, the diver who has been in Port Huron for several days waiting for favorable weather conditions to examine the Price, made the descent yesterday, but after being down a few minutes he refused to continue the work, saying that his life was in danger. He had made his report to the underwriters, but just what that is nobody is aware.

The services of the diver have been cancelled, as far as the underwriters are concerned, and it is taken from that that they are through with the wreck. The result has been productive of two things. First, all doubt of the boat being the Price has been cleared away, and, second, the boat is in such a position as to preclude any further work. This is indicated by the withdrawal of the underwriters.

Chained To a Chair.

LONDON, Nov. 29.—Militant suffragettes are returning to their old tactics. One of them fastened herself to a chair in Caxton Hall last night with chain and padlock. From which point of vantage she shrieked "Voices for Women." The Rt. Hon. Joseph Albert Pease, M.P. for the Rotherham division of York, was forced to suspend his speech for several minutes while the stewards endeavored to remove the suffragette. They had to smash the chair before this could be done.

Thirty-Four Divorces Asked.

OTTAWA, Nov. 29.—Canada's 1913 divorce crop continues to grow at a disturbing rate. Each succeeding week brings two or more applications, and just as present there are thirty-four on the waiting list. Two applications, which came in since last Saturday, are from Jessie Eleanor Bankhurst, Toronto, and Eva Jane Hateman, Beaverton, Ont.

Rounding Up Bank Bandits.

VANCOUVER, Nov. 29.—One man has been arrested at Coquitlan and three others at Abbotsford, as suspects in connection with the attempted robbery of the Bank of British North America at Accasia on Wednesday. All are foreigners. One has been identified by the bank manager as one of the alleged robbers.

Forged Check For Quarter.

MONTREAL, Nov. 29.—William McLennan was yesterday morning sent to jail for five days by Judge Lafontaine for forging a check for 25 cents.

An open-air meeting of 1,500 unemployed in Winnipeg decided to ask the city to begin public undertakings which would give them work.

SEVERE COLD ON LUNGS AND CHEST QUICKLY RELIEVED

by **Na-Dru-Co Syrup of Linsseed, Licorice and Chlorodyne**

Mr. J. Seward, Brompsville, Que., writes:

"Two weeks ago I took a severe cold with severe cough and my chest was very sore, breathing tight and severe hacking cough. I was feeling miserable. I bought a bottle of Na-Dru-Co Syrup of Linsseed, Licorice and Chlorodyne and after a few doses I felt great relief and I went into a sound sleep, a thing I was not able to do for some nights. Next day I was able to be around again, and before completing the bottle, felt as well as ever. It is a fine cough and cold cure."

Na-Dru-Co Syrup of Linsseed, Licorice and Chlorodyne relieves the irritation and "stuffed-up" feeling in the air passages, soothes the tickling which makes you cough, loosens the phlegm and drives out the cold before it gets troublesome.

REBELS ADVANCING

Fall of Tampico Is Expected at Any Moment.

FEDERAL LEADER TAKEN?

It Is Believed That Gen. Navarrete Has Failed to Prevent the Capture of Victoria, But Has Walked Into a Rebel Trap—Vera Cruz and Salinas Cruz Alone Remain to President Huerta.

MEXICO CITY, Dec. 1.—The military situation throughout the country has shown no improvement in the past week, so far as the Government is concerned, and there are slight indications that much progress will be made the coming week. Steps have been taken to strengthen the garrison at Tampico, but there is known to be a greater force of rebels to the north and west. Whether this force will move finally toward the coast or advance toward Monterrey is problematical. It is in a position to do either.

The fall of Tampico is momentarily expected. Not only have the rebels captured Mazatlan, on the Pacific, but it is believed that the Government has had official news of the fall of Guaymas, the other important Pacific port.

This would leave Vera Cruz on the Gulf side and Salinas Cruz on the Pacific as the only important ports in the hands of the Government.

There is no definite news of Gen. Rubio Navarrete, the Federal commander, who failed to prevent the capture of Victoria, capital of the State of Tamaulipas, except a report that he ran into the centre of the converging rebel forces. It is believed by the rebels that he and his entire command were captured.

The movement of rebels south of Saltillo toward San Luis Potosi continued yesterday, the rebels entering Cedral, on the branch railway leading to Matehuala, occupied and sacked by the rebels earlier in the year. Federal troops have been sent north from San Luis Potosi in an effort to check the movement, and brisk fighting has occurred many times in the last few days, but without holding back the rebels.

In the State of Zacatecas, to the west of San Luis Potosi, according to Government reports, some advantage has been gained by Huerta's troops, but the mobility of the rebels has gone far toward neutralizing the advances made by the Government.

Operations in Michoacan and other regions farther south have been about equalized as between the constitutionalists and the federales. The situation in the north, it is conceded, is practically dominated by the rebels, although the Government still expresses the hope of being able to recapture Juarez.

Huerta Not Yet Bankrupt.

MEXICO CITY, Dec. 1.—The possible treatment of the Mexican question by President Wilson's coming message has aroused considerable interest among the Mexican Government officials, but there is a notable absence of alarm because of the deep-rooted conviction that neither intervention nor the supplying of arms and ammunition to the rebels will be recommended.

The continuation of the financial blockade, President Huerta will not regard as a vital blow to his administration, however onerous it may be. Anything short of these measures will be regarded with comparative complacency by Gen. Huerta, who is prepared to make a dog-in-the-manger course of resistance against his enemies, although he realizes it means indefinite warfare.

But his friends point out that although the Government may be bankrupt, the Provisional President is far from being without funds and is not likely to be entirely without money so long as private institutions and corporations possess funds. They are of the opinion that the President will not fall, for that the President considers right, to resort to forced loans. Indeed, persuasive methods have already been used, and in several cases have borne marked results, particularly to the forced loan system.

In the Mexican Republic there are many men rated as millionaires and several large corporations whose properties might be available for prospective taxation. There are millions to be had for the taking, and Gen. Huerta's admirers declare that he would be acting in accordance with justice and his duty to his country if he utilized this money for defence.

Tuberculosis Day Observed.

TORONTO, Dec. 1.—Yesterday was the date selected by the National Sanitarium Association for the appeal in the churches of Ontario for co-operation in the battle with the white plague. In Toronto the date was not favorable, as a number of special events had been arranged for celebration in leading churches; the most notable was that of the dedication of St. Paul's Anglican Church.

The statistics of the registrar-general's office, announced from the pulpits yesterday show that steady headway is being made against the tuberculosis scourge. The death rate has fallen over a third in twelve years despite the increase in population.

Big Show Opens.

CHICAGO, Dec. 1.—Valued at \$2,000,000, approximately 11,000 animals were placed on exhibition yesterday at the opening of the annual International Live Stock Exposition at the stock yards. Students from state agricultural colleges in Ohio, Iowa, Mississippi, Nebraska, Kansas, Texas, Oklahoma, Minnesota, and Wisconsin, will engage in a judging contest. Canadian agricultural students also are entered. A horse fair, where prize animals will be exhibited, will be held every night during the exposition.
