Many there are who respond to the commonplace, monotonous call of Duty, and year after year uncomplainingly spend their lives on the treadmill of Routine; but who still feel in their hearts the call of the open road, the music of the story, the whine of the western wind, and the thrilling abandon of a mad gallop out beyond speed limits and green grass signs, to where life has ceased to be a series of cogs and—a man is still a man. To the members of this fraternity we recommend the following books at the Connolly Library: "The Rest Cure," by Maxwell; "Heart of the Hills," by John Fox; "The Cabin," by Stewart Edward White; "Two on a Trail," by James O. Curwood; "King Spruce," by Holman Day; "The Sea Wolf," by Jack London; "The Black Woodsman," by Chas. D. Roberts; "Smoke Bellew," by Jack London.

MET INSTANT DEATH.

David A. Daley, brother of Rev. E. E. Daley, pastor of the Tabernacle Baptist Church, Halifax, was instantly killed Saturday night, just before the steamer Briardene sailed for Halifax. He was in in charge of some men on the steamer, and was arranging props in connection with the gangway when the latter swung over and crushed him against the door of the freight shed. A brother and a son were standing near him at the time, and Daley had just told the son to "keep back" as it was a dangerous job and he would do it. He leaves a large family. Rev. Mr. Daley, left last night to attend the funeral.

A quiet but pretty wedding took place at the Church of St. Rose of Lima, Windsor Junction, this morning at 7 o'clock, when Wm. J. Butler and Frances Stirling, eldest daughter of Alex. Robertson, of Lakeview, were married.

Rev. L.J. The parish of Trinity was formed during the first year of Bishop Courtney's residence in Halifax.

Miss Hendry rendered a solo with pleasing effect at the evening service in Trinity yesterday.

SUNDAY AT ST. PAUL'S.

The contribution of St. Paul's Church to the ranks of the Christian ministry is perhaps the largest of any church in Canada. The list now numbers more than half a hundred. The latest name to be added to this long roll is that of the Rev. W. T. Townsend, B. A., who has just taken holy orders, and who was heard most acceptably in his old church yesterday. Mr. Townsend's sermon was brightly delivered, and followed with close interest by the large congregation present, who will all join in wishing him success as he goes out to be a missionary in the Canadian North.

Archdeacon Armitage himself filled his pulpit in the evening, his sermon bearing appropriately upon Ascensiontide teachings. The Archdeacon's sermons receive frequent illustration from events in his own wide experience of life which gives a vitality to the message especially appealing to young men, the presence of so many of whom in St. Paul's on Sunday evenings is always occasion of remark.

The music yesterday was of Mr. Clarke's usual high order of excellence, the anthems being rendered by the choir and Mrs. Marshall, and Mr. Schaefer, soloists, always heard with pleasure.

NEW ST. MATTHIAS CHURCH.

Campaign to raise funds to start next Monday.

St. Matthias Church was crowded at both services yesterday. In the morning the W. A. attended Holy Communion in a body, when the Rector read the Ascension-tide appeal and preached on Missions. In the evening, Rev. T. W. Townsend, B.A., a recent graduate of Wycliffe College, Toronto, preached. In the afternoon the Sunday school attendance was very large, every part of the church and parish hall being crowded.

The congregation of St. Matthias purpose conducting a campaign commencing Monday next, May 12th, for the purpose of raising sufficient funds to build a new church on the corner of Chebucto Road and Windsor St. The proposed church will cost in the neighborhood of $30,000. The congregation has in hand $6,200, and this campaign will be conducted among the Anglicans of Halifax and Dartmouth, and it is confidently expected that there will be a generous reponse to what is generally acknowledged as the greatest need in Halifax church life to-day.

$250,000 LOSS,

With $150,000 insurance, in North Sydney fire.

Large part business portion of town wiped out.

The insurance held by Companies in Halifax.

SYDNEY, May 5.—A conflagration about 2 o'clock Sunday morning, at North Sydney, practically destroyed the entire business section of the town, and before the fire was under control of the fire department a loss in the vicinity of $250,000 was incurred, and the fire also resulted in the death of Percy Sayce, manager of Nickel Theatre, who was burned to death in his room at the Vendome Hotel.

The fire gained such headway that in about three hours two blocks were consumed, including some of the largest business premises in the town.

The flames gained so rapidly that the local fire department were soon unable to cope with them, so Mayor W. A. MacKay telephoned for assistance from Sydney and Sydney Mines and these with the local corps worked hard and their combined efforts finally met with success, although not before it had developed into one of the most disastrous conflagrations in the history of the town.

The burned district extends from the corner of Archibald Avenue along Commercial St. to the store of Thompson and Sutherland and the Y. M. C. A. on each side of the street, the entire waterfront here being laid bare.

The fire was first noticed by J. J. Pullen of the Belmont Hotel, which is situated on the opposite corner to the fruit store in which it originated, that of J. R. Biggar, the latter building being on the corner of Archibald Avenue. He gave the alarm, but by the time the firemen reached the scene the store was completely gutted, and the flames had reached across the street to the Vendome Hotel. Guests at the hotel had barely time to escape, carrying with them only their articles of clothing, when the building was a mass of flames.

LOST LIFE IN FIRE.

One life was lost and several minor accidents occurred among the firemen. Percy Sayce, manager of the Nickel theatre, and a native of Birmingham, England, was burned to death in his room in the Vendome.

One of the guests who knew Sayce rapped at his door as he passed and shouted a warning to him, and it is said was answered, but the unfortunate man did not escape, his charred remains being found among the ruins. He was about 30 years of age and unmarried. Mayor MacKay wired the chief of police of Cobalt and Haileybury enquiring for relations of the unfortunate young man Sayce, who was supposed to have had an aunt and uncle there.

SEVERAL ESCAPES.

Some miraculous escapes from tenement dwellings on the top floors of several of the Commercial buildings have been reported. One little girl by the name of Jeans, escaped to the roof of the Salter block with nothing on but her night clothing and was with difficulty rescued from this perilous position high up on the burning structures. All of the occupants of the tenement lodgings lost everything they owned excepting merely the clothing they had a chance to hurriedly grab up and scramble out with from rear windows and over back roofs.

THE COURSE OF THE FIRE.

At the time of the conflagration a strong easterly breeze fanned the flames, which swept along the street. From the Vendome it caught the new store of J. W. Ingraham & Co., which was soon destroyed. The warehouses at the rear, owned by Messrs. Secrean and Vought Bros., were destroyed, and sweeping along until it set fire and destroyed the Moore building, jewellery stores, C. P. R. offices, Kirk and Whitman, Lawrence book store, and all along until it reached the big store of Thompson and Sutherland. Here the Sydney firemen were stationed.

The fight put up by these and the local firemen with Sydney Mines checked the progress of the fire and saved a greater loss of property. They had four streams of water playing on the fire here and also in the Y. M. C. A. building across the street, and there the fire was stopped.

All efforts to save contents from buildings were in nearly every case fruitless, and a very small portion of the goods in any building was saved.

The wires of the Electric Company were destroyed through the fire area, but they had their entire force of men at work and by one o'clock the cars were running as usual. The electric light service was also given as usual to night, although great difficulty was experienced in getting the wires connected in time.

The Marine Repair Railway with vessels on cradles was saved by breaking chains and allowing the cradles to slide into deep water.

Several vessels in the dock were at times in serious danger of being caught in the flames, which had caught the crib work of the wharves.

Johnson's Meat Market, a large one story building, a half mile away from the actual fire district, was at one time ablaze, caused by flying cinders.

Estimates this morning is $250,000 which is covered by about $150,000 insurance.

It is learned that neither Joseph Salters & Sons, Kirk & Whitman, nor J. W. Ingraham & Co. will rebuild.

McKenzie & McMillan, McCallum & Vought Bros. will rebuild.

Question of future of Scutari Unconditionally in hands of European Powers.

LONDON, May 5.—Sir Edward Grey, the British Foreign Minister, announced at to-day's meeting of the ambassadors that Montenegro had unconditionally placed the question of the future of Scutari in the hands of the European Powers. SHIPPING NEWS OF THE PORT.

The Arabic lands passengers.—Ice patrol steamer in the harbor.—American yacht here.

The American steam yacht Rambler is in port from New York, via Stonington, Maine. She is en route to Chicago, and is now owned by President Thorne, of Montgomery, Ward & Co., manufacturers.

The Plant Line steamer Halifax arrived last night from Boston.

After a couple of days delay, caused by fog and ice, the White Star Liner Arabic arrived Saturday afternoon. She had 1,806 passengers, 1,379 of whom were for Halifax. Of this number 575 were second and 804 third-class passengers.

Captain Stivey reported his delay in reaching port due to a very large amount of ice encountered in latitude 45.55 north, and longitude 50 west, together with dense fog which made speed very dangerous. The first ice was encountered Tuesday morning, and it continued in the vicinity of the ship until Wednesday afternoon. On two nights the ship was forced to lay to owing to fog which greatly accentuated the difficulties of navigating through the ice field. The trip covered nine days and 45 minutes from port to port. Had it not been for the weather conditions the Arabic would have arrived here Thursday.

Other ships are meeting with like conditions according to the Arabic's wireless communications. The Megantic had reported that she was approaching the ice field, last bound. The Virginian, also eastbound, reported that she had been compelled to lay-to all night, and the C. P. R. Montfort reports she was in dense fog.

Captain John Stivey, who is substituting for Captain Finch, has been for three years in the White Star, Liverpool-Cape Town-Australia service. This was his first call at Halifax. Captain Stivey had never before seen an iceberg, and on this trip he experienced them under the most dangerous conditions.

After being relieved by the ice patrol Seneca, the ice patrol Miami of the United States fleet, arrived in Halifax yesterday afternoon.

The Miami, owing to thick fog, did not sight the Seneca, on her return from Halifax, but secured her position by wireless and then proceeded to Halifax. While on duty they came across several icebergs, but none within two hundred miles of the line of the New York and English Channel route. The captain had no occasion of warning any New York bound boats of immediate danger of ice, his services being of more value to the Canadian liners. The Miami will be in port until the 13th. She is the sister ship of the Unalga, which the United States government recently sent to Alaskan service by way of the Suez.

This morning she saluted the Citadel, which responded.

Furness, Withy & Co., Limited, received a wireless yesterday from the Hamburg-American liner Wassgenwald to the effect that she will be in port this afternoon.
