At 8 o'clock this morning a flying column started to reconnoitre the Tibetan camp at Guru, whereupon a general from Lhassa with a quaint retinue came to interview Colonel Younghusband. The general asked the colonel to retire with his mission to Yatung.

And it was band to retire with his mission to Yatung, for the purpose of carrying on negotiation, threatening an attack if the mission proceeded. Col. Younghusband replied that negotiations had been proceeding fruitlessly for 15 years and "sidings, out in the cold." And it was "with its extensive lifts and miles of "sidings, out in the cold." And it was this assurance that won the Grand Trunk shareholders to endorse the scheme.

MILBURN'S HEART AND NERVE

She has been restored to perfect health. She writes: "About seven months ago I was badly run down in health and became very weak. I was troubled with fluttering of the heart and shortness a breath. When lying down at night I was almost afraid to go to sleep for fear I would never wake up. When I arose in the morning I would feel a little better, but as soon as I started to work my heart would start fluttering, my head would become dizzy, faint weak spells would come over me and it seemed as if black objects come dizzy, faint weak spells would come over me and it seemed as if black objects were floating before my eyes. I was growing worse every day until I got a box of Milburn's Heart and Nerve Pills. When the box was half gone I could feel that they had done me good and by the time it was finished I was in excellent health and would advise all sufferers from heart and nerve troubles to try them."
