

YESTERDAY'S COUNCIL MEETING MARKED BY BREEZY DISCUSSION

Commissioners Wigmore and McLellan Cross Swords with Commissioner Fisher—Tenders Opened for Main Street Paving—Clarendon Street Plans Again Amended—Other Matters Discussed.

The atmosphere at City Hall was decidedly sultry at times yesterday afternoon. Commissioner Wigmore accused the Commissioner of Public Works of doubting his veracity and there was rather a spirited passage between the Commissioner of Safety and the Commissioner of Works in regard to charges which Commissioner Fisher claimed Commissioner McLellan had made against him and had not substantiated. Tenders for the granite paving on Main street were opened, the amended plans for Clarendon street were accepted. Communications were received from the Trades and Labor Council in regard to the used to collect head tax from laborers, and the fair wage clause in connection with city work on the West Side. It was decided to grant the request of the Dominion Auto Co. for permission to erect an air pumping machine in front of their premises on the Marsh Road and the Commissioner of Works was given authority to purchase two car loads of cement from W. H. Thorne and S. Hayward Co.

The council was called to order at 3.30 by the Mayor. All the commissioners were present together with the common clerk.

Water and Sewerage.
The Commissioner of Water and Sewerage recommended that a contract be entered into with the National Water Main Cleaning Company for cleaning the following named water mains at 11 cents a foot, namely:
12 in. and 15 in. mains on the City Road from the Marsh Bridge, through Paradise Row and Main street, approximately 16,000 feet.
15 in. main on Brussels street, approximately 3,400 feet.
12 in. main on Waterloo street, approximately 4,600 feet.
Approximate total, 24,000 feet.
Approximate cost, \$2,640.

In moving the adoption of the report the commissioner stated the work this concern had done in cleaning the 24 inch mains had proven very satisfactory and had resulted in a large increase in the quantity of water delivered through them. They guaranteed to restore the mains to within 5 per cent of their original capacity and to make good damage they might do.

A Lively Passage.
Commissioner Fisher wanted to know if there had been any competition on the work and was told by the Commissioner of Water and Sewerage that outside of one small concern in Halifax this was the only pipe cleaning company in America, and they had been highly recommended to him by Engineers Goldsmith and McInnes.

Commissioner Fisher wanted to know if that recommendation was in writing, and Commissioner Wigmore asked if Commissioner Fisher doubted his word. The Commissioner of Works disclaimed any idea of doubting Commissioner Wigmore's word but wanted to see the recommendation in writing.

Commissioner McLellan said he thought that any commissioner had enough pride in the trust reposed in him to get the best he could for the city. Mr. Goldsmith was an expert and Engineer McInnes had somewhat of a reputation and a company endorsed by these two men he felt would perform its work in a satisfactory manner. He would support the recommendation of the commissioner.

Commissioner Wigmore said the work was a necessity. The 12 inch main running through City Road was in some places crusted to the depth of an inch and a half.

Commissioner McLellan asked Commissioner Wigmore if any person had said to him that he (McLellan) had held up the Lancaster water extension, to which the commissioner replied they had not and any person who made a statement of that nature was altogether wrong.

The Mayor was in favor of having the matter lay over and the commissioner withdrew the recommendation, which will be brought up again at the committee meeting on Thursday.

The Dominion Auto Co.
The Commissioner of Works reported that he had considered the request of the Dominion Auto Co. for permission to erect a compressed air pump and also the gasoline stand which had been erected by them under a misapprehension and recommended that permission be granted for both of these stands subject to all of the regular conditions of contract and in addition a provision for adequate lighting of the stands, a provision for the furnishing of the compressed air free to all, and a provision for allowing inspection at all times by or by order of any member of the Common Council.

Other Recommendations.
The commissioner also recommended that he be authorized to purchase two car loads of cement of 115 barrels each from W. H. Thorne & Co., Ltd., and the S. Hayward Co., the price in each case to be \$2.25 per barrel delivered less credits for the return of empty bags at 9 cents each, the cement being received in bags. He reported that by order of the Common Council a plan of Clarendon street lines and grades was prepared by the road engineer in 1912, and it has since become necessary to modify this plan because of the placing of sub-structures (sewer and water pipes) not conforming with the grade lines on the said plan, and he recommended that the modified plan, which he submitted, be adopted by the Council, which recommendations were adopted.

In connection with the purchase of cement the commissioner stated that it was not the intention of the department to carry the cement foundation in Main street to the edge of the car track—only to within 18 inches of the track.

Another Interchange.
In discussing the Clarendon street matter the commissioner said that the commissioner of safety had made certain charges against him which he had failed to substantiate. He had accused him of causing friction between two engineers in the city employ and he wished to say that this was not true; he had also accused him of interfering with the removal of material from the Market streets.

He had made a personal examination of Clarendon street and felt that the proposal which had been adopted by the council was not in the public interest in its entirety and before any work was done he proposed to use the power which he had and have another vote taken.

Commissioner McLellan rose to a question of privilege. He said the commissioner of works complained of certain statements he had made and said that so far as the charge of interfering with the workmen on the Market street work was concerned the commissioner could be furnished with the proof. On the friction question he said that the head of any department who consulted two engineers on the same question, especially where one of them had no jurisdiction, was certainly inviting friction, and as far as the power which the commissioner claimed to have, to have another vote taken, the council, itself, had some power and could take any work out of any commissioner's hands and turn it over to some other commissioner if they felt it was not being properly carried on.

Labor Council Communication.
The St. John Trades and Labor Council wrote asking what steps had been taken by the city in regard to collecting the head tax on laborers on the west side. This was referred to Commissioner Russell.

Main Street Tenders.
The following tenders for the paving work on Main street were then opened and referred to the Commissioner of Works and the Mayor.

B. Mooney and Sons.

A communication from Lieut.-Col. Guthrie in connection with the list of those persons eligible for military service was referred to the mayor.

Miss Sarah E. Thomas.
On Monday Miss Sarah E. Thomas died at the home of her brother, 286 Germain street, in the eightieth year of her age. The deceased had been in ill-health for some time, but the end came suddenly. Her brother, Pilot John Thomas, and sister, Miss Maria Thomas, survive. Her father was the late George Thomas, well known here.

RESTIGOUCHE AND ST. JOHN DIVIDE HONOR

Both Enlisted Thirteen Men During the Week Ending on Saturday—Total of 86 for the Province.

Considering the apparent slump in recruiting throughout the Dominion, the weekly report from the Province of New Brunswick is far from discouraging. Eighty-six men enlisted in the different units under mobilization. The 236th Kiltie Battalion was the favorite, receiving 55 of the total number. The only county failing to respond to the recruiting appeals was Gloucester. The tabulated list follows:

Restigouche Co.—
236th Battalion.....9
122nd Battalion.....3
65th Field Battery.....1

St. John Co.—
236th Battalion.....1
236th R.C.C.....3
242nd Forestry.....6
9th Siege Battery.....3
