

ALL SICK WOMEN

SHOULD READ MISS SCHWALM'S LETTER

In All Parts of Canada Lydia E. Pinkham's Vegetable Compound Has Secured Similar Cures.

through the advice of Mrs. Pinkham, of Lynn, Mass., which is given to sick women absolutely free of charge.

Mrs. Pinkham has for many years made a study of the life of her sex; she has consulted with and advised thousands of suffering women, who to-day owe not only their health but even life to her helpful advice.

Miss Annie E. Schwalm, of 336 Spadina Ave., Toronto, Ont., writes:

Dear Mrs. Pinkham:—I have found Lydia E. Pinkham's Vegetable Compound a specific for Leucorrhoea, with which I have been troubled for years. I also had irregular and painful menstruation which affected my general health until last spring. I was only a wreck of my former self. In my affliction I was advised to use your Compound, and am so glad that I did so. I found that in a few short months there was no trace of Leucorrhoea, my strength gradually returned, and in a very short time I felt myself a perfectly well woman. I credit my good health, and beg to assure you that I am most grateful to you for discovering such a wonderful remedy for suffering women.

The testimonials which are constantly publishing from grateful women establish beyond a doubt the power of Lydia E. Pinkham's Vegetable Compound to conquer female diseases.

Women suffering from any form of female weakness are invited to promptly communicate with Mrs. Pinkham, at Lynn, Mass. She asks nothing in return for her advice. It is absolutely free, and always helpful.

Forty men and three women to every 1,000 persons are color blind.

Two or three meteors fall somewhere on earth every twenty-four hours.

The common house sparrow flies at the rate of seventy-two miles an hour.

There are 1,800 churches in Moscow. They are the wealthiest churches in the world.

In Holland persons under eighteen are prohibited from entering a public house unless accompanied by an adult.

In 1840 tea planting in India did not exist, yet last year it produced 60 per cent. of the total consumption in Berlin.

Of the total income of the United Kingdom, which is about \$1,000,000,000 per annum, about one-half is enjoyed by one-tenth of the population.

In a recent lecture in London it was remarked as curious that, though the Tibetans had not realized the principle of the wheel or arch, they thoroughly understood that of the cantilever and used it in their bridges.

Feeding the pigeons is a favorite pastime of the students on the Harvard campus. The birds are quite tame, and it is not an uncommon sight to see some young student with his head bowed on his head and shoulders, feeding them with peanuts.

A remarkable record of thrift comes from Morrisville, Vt., where a young man has purchased a farm from the savings of five years' labor in the lanter.

At no time did he receive over \$10.65 a week and much of the time less, yet he laid by \$1,200 clear besides supporting his family.

"Sleeping in the open air can only be practical with safety from arrest by wealthy persons or those who can show that they have plenty of means and are doing it for experiment, and then only so long as no obstruction is caused," said the magistrate of a London police court the other day.

A Japanese recently applied for leave to attend the meetings of the San Francisco Building Trades Council. He said he wanted to listen to its deliberations and also wanted to ascertain how to proceed in order that his community might be admitted to unions affiliated with the council. His request was refused.

An Austrian meteorologist, J. N. Nowak, who forecasts the weather by means of a plant called "abus precastus," discovered by him in Mexico many years ago, will erect his first weather station in Vienna and London. Nowak maintains that his forecasts are obtainable from three to eight days ahead.

For the first time within living memory, says The London Mail, a child has been born in the curfew tower of Windsor Castle. She is the daughter of Keeper Wellbelove. The tower was constructed by Henry III. in the thirteenth century. Instruments of torture still remain there, but now the grim old prison is a nursery.

In a list of unclaimed letters published by the New York postoffice a few days ago were missives addressed to Harry Thaw, the young Pittsburgher whose marriage caused a sensation recently. Marconi, the wireless telegraph man, and Craig Wadsworth, secretary of the American embassy in London.

Scottish fishermen have introduced fishing boats driven by motors. Experienced fishermen have demonstrated the great advantages of such boats over sailing craft in calm weather or when the wind is unfavorable. The Scottish fishing fleet comprises fully 10,000 boats working at line and net fishing, in addition to a hundred or more steam trawlers.

In her latest novel "Rita" drew a valiant portrait of the Countess of Warwick. At the New Vagabonds' dinner in London the other night the two were brought face to face. Some expected Lady Warwick to cut "Rita," but she did nothing of the sort. On the contrary, her ladyship was very gracious. "Rita" is Mrs. Desmond Humphreys.

Mme. Patti (Baroness Cederstrom) has received from President Loubet the ribbon of the Legion of Honor in recognition of her charitable work in Paris. In signing the decree conferring the decoration President Loubet is said to have uttered a remark so undiplomatic as to make every other Frenchman blush. "I do this," he is reported to have said, "with as much pleasure as I experienced long ago when I had no gray hairs and when I heard Mme. Adeline Patti sing in 'Lucia' and in 'La Sonnambula'."

King Leopold of Belgium is "a man of extraordinary fine physique, an accomplished linguist, widely read, traveled and holding advanced liberal views in all matters pertaining to statecraft and social science. He had the presence to see in the Congo section of Africa an opportunity to found a colony for the surplus population of the small State over which he rules, Belgium being the most densely populated of European countries."

Japanese Cadetships. Cadetships in the Japanese navy are open to every subject in the Empire, as are also commissions in the army and all civil appointments under the Government, says The London Chronicle.

There is no system of nomination, and the successful candidates are chosen entirely by competitive examination. The naval exploits during the present war have naturally given a strong impetus to the eagerness of high spirited youths to enter a service which has won such glory for their country, and the applications for naval cadetships during the present year already far exceed in number those of any preceding entire year. In one district of the four in which they are received they already amount to over 3,700 as against 3,000 in 1903 and 5,500 in 1904.

Builds a Mausoleum. What will be at its completion one of the finest mausoleums in America has been started in the last few weeks by Senator George Cox. It is to be built in Mount Pleasant cemetery, Toronto, and is of the finest white granite. The interior will be of marble. It is in the southern part of the cemetery, in the new portion. The background is a beautifully wooded hillside, and the whole, when completed, will make up one of the most magnificent sights in Toronto. It will be 47 feet long, 25 feet wide and 22 feet high. The work will probably be finished by fall.

The distracting headaches from which so many women suffer make life a daily purgatory. If men suffered with headache as women do, business would be almost at a standstill. Does not the fact that women only suffer from these severe headaches suggest that there must be a womanly cause for them?

When the womanly organism is diseased, headache, backache, nervousness and sleeplessness are consequences which are sure to follow.

\$500 Reward for Women Who Cannot be Cured.

Backed up by over a third of a century of remarkable and uniform cures, a record such as no other remedy for the diseases and weaknesses peculiar to women ever attained, the proprietors and makers of Dr. Pierce's Favorite Prescription now feel fully warranted in offering to pay \$500 in legal money of the United States, for any case of Leucorrhoea, Female Weakness, Propriety, or Falling of Womb, which they cannot cure. All they ask is a fair and reasonable trial of their means of cure.

"World's Dispensary Medical Association, Proprietors, Buffalo, N. Y."

"I took two bottles of your 'Favorite Prescription' and two of the 'Golden Medical Discovery' and am feeling better than I have for years. I had a severe trouble, pain in the side and headache. After taking your medicine I got well. You may publish this or use it in any way you think best, as I cannot speak too highly of Dr. Pierce and his medicine."

FREE. Dr. Pierce's Common Sense Medical Adviser is sent free on receipt of stamps to pay expense of customs and mailing. Send 31 one-cent stamps for the book in paper covers, or 50 stamps for the cloth-bound volume. Address Dr. R. V. Pierce, Buffalo, N. Y.

DAY PAST FOR STATUTE LABOR.

Tenor of Belief at Eastern Counties Good Roads Conference.

Brookville, June 29.—The Eastern Ontario Good Roads Association opened a two days' convention yesterday morning with a large attendance of municipal officers, principally clerks and wardens from, not only the eastern, but many western counties. The meetings are under the auspices of the Leas and Greenville Councils. The president, ex-Wardens Cummings, Carlsson County is ill, but he sent along his address, which was read, referring to the increased interest taken in road improvement since the organization of the association five years ago. When the association stated not a township in the counties east of Kingston had commuted statute labor or constructed cement culverts. There was not a mile of road except that built by the tolls road companies. Now fully one hundred municipalities are using concrete exclusively. Half the townships of the County of Carleton have commuted statute labor and others are following the example. The association has given examples of scientific construction. The County of Lanark last year expended several thousand dollars for the construction of a leading system of county macadamized roads and purposes expending \$100,000 in this work.

The commutation of statute labor and the construction of permanent roads were the two leading topics of the day. The commutation system in Blenheim Township, County of Perth, was explained in an admirable manner by Reeve Bonis of St. Marys, and "How Commutation Has Succeeded in Fitzroy Township" was handled by Clerk A. Murphy of Antrim. Both were strong believers in the abolition of statute labor. Provincial Highway Commissioner Campbell of Toronto talked on the progress of the good roads movement. He thought the time had arrived in older Ontario, when economic road building should be studied and practiced by the commutation of statute labor, which has long since served its usefulness. Road building should be let by tender and conducted in business like manner. The Government stood ready to aid counties willing to buy toll roads off.

The other main speakers were Highway Commissioner McDonald of Connetquot, and Warden James McElwain of Drayton. At each address there was a lively discussion.

FRANCE CONSULTED RUSSIA.

Count Lamsdorff Advised Her to Meet Germany Half Way.

St. Petersburg, June 29.—At Great Britain's door The Novoe Vremya lays much of the responsibility for the Franco-German crisis, saying she is pursuing her traditional policy of encouraging a conflict between her competitors in order to profit thereby.

"Great Britain," the paper adds, pushed France into the Moroccan adventure, sustaining M. Delcasse, the former Foreign Minister, in his resistance to Germany's claims. For decades Great Britain's hostility has been directed against Russia, at last succeeding in having another country accomplish a task from which she herself shrank. With Russia no longer dangerous for the present, all Great Britain's machinations were set in motion against Germany, now her chief competitor in Europe.

The Novoe Vremya, however, believes that, with Premier Rouvier in charge of the negotiations for France, Great Britain's plans will be defeated and the Moroccan affair will be satisfactorily adjusted.

Premier Rouvier's note was submitted to Russia before it was transmitted to the Berlin Government, and Foreign Minister Lamsdorff was apprised of every step taken. The statement that France has already called upon Russia to mass troops on her western frontier, however, is authoritatively denied. Russia is believed to be advising her ally to meet Germany half way.

Berlin Quiescent.

Berlin, June 29.—The Moroccan question has entered on a quiescent phase so far as Berlin is concerned. The Foreign Office feels that the acute stage of the controversy with France has passed and contemplates calmly the further developments.

G. T. P. COSTS LIVES.

Two Surveyors Are Drowned and Another Becomes Insane.

Ottawa, June 29.—Mr. Robert Smallman and Mr. Pickering, of party No. 7, district C. of the Grand Trunk Pacific survey, have arrived home after experiences of a most eventful character. Mr. Smallman was with Messrs. Almond and White when they were drowned last week, and saved his life by clinging to the canoe. They reached New Liskeard on Saturday with the bodies of their chief, Mr. M. B. Almond, and the second engineer, W. White.

For ninety miles Messrs. Pickering and Smallman canoed and carried the bodies of their late chief and his assistant, until they reached the Long Portage, twenty miles from Ville Marie. Here rough boxes were constructed and the remains were taken on to that village, thence to New Liskeard on the Government tug Dora.

Surveyor Goes Insane.

Amadee Bayard, jun., a son of a resident in Janville, a suburb of Ottawa, went insane while surveying with the Transcontinental party at New Liskeard last Saturday night. He attempted suicide by jumping from a wharf, but was rescued and brought to Ottawa yesterday and locked up for examination.

AFRAID OF ATTEMPTED RESCUE.

Extra Guard Is Ordered Over Gaynor and Greene.

Montreal, June 29.—Special precautions are being taken at the Montreal jail in view of the approaching conclusion of the Gaynor and Greene case to see that the famous fugitives do not escape.

Yesterday morning Governor Vallee of the City Prison received explicit instructions from the Solicitor-General to engage extra men if necessary and take every possible precaution to make sure that no rescue can be carried out.

It has cost over a million dollars to defend them in the courts in the last three years.

Fire Scars in Theatre.

Winnipeg, June 29.—The usual vaudeville performance at the New Dominion Theatre was concluded Tuesday evening by a startling series of loud explosions in the gallery. Flames leaped fiercely to the roof and scenes of great theatre holocausts sprang to the eyes of the six hundred odd people present, and for a time a hideous pandemonium reigned. There was a wild rush for exits, women screamed and fainted and several fell to the floor and were trampled on. The kinetoscope films had caught fire, and the whole machine blew up with a series of terrifying explosions. The fire was soon suppressed, however.

Drowned at Kewaythin.

Port Carling, June 29.—No trace has yet been found of the body of Wilfrid Kay, the 13-year-old son of James Kay of Point Kay, Lake Rousseau, drowned at Kewaythin on Wednesday of last week. The victim of two professional al divers have been of no avail up to the present. The body is lying in more than 70 feet of water and probably buried under two tons of stone. Wilfrid was playing around on the pier of a new wharf when the outer pier turned over. The boy was never seen again and was no doubt carried down and buried in the muddy bottom under the stones.

First Wireless Message.

Halifax, June 29.—The first communication by wireless telegraph with Sable Island was had yesterday, when the Camperdown station here received a message from the island that the station there is not yet complete. It is expected Dominion Day message will be sent from the island to the Governor-General. The next station is to be erected at Cape Sable.

Cornwall Railway Strike.

Cornwall, June 29.—The Cornwall Electric Street Railway was tied up yesterday morning. The men who received 13 cents an hour, demanded 17 cents, and no answer being forthcoming from the company they struck.

Damaged by Fire.

Winnipeg, June 29.—The city asphalt plant was damaged to the extent of ten thousand dollars by fire at noon yesterday. It situated in the tankroom. It is the only municipal plant in Canada.

Church Burned.

Watersdown, June 29.—The Baptist Church of this village was burned down early yesterday morning. Extensive repairs have just been made. The place is now tenanted.

District Doings

EBERTS.

Come to Chalmers' ice cream social next Friday evening. A good game of football will be played early in the evening, and after the supper a choice program of music, recitations, etc., will be given in the church.

Mrs. Oliver entertained a number of friends Friday evening in honor of J. P. Oliver and bride, who are spending a couple of weeks here, after which they will visit in Toronto. A most enjoyable time was spent by those present.

Misses Tena Harper and Ruby Maggs, of Chatham, assisted Chalmers' choir with their music last Sunday.

A very severe electrical storm visited us last Sunday evening. John Barker, 9th Con., had his barn struck by lightning and one side of the roof was torn off. The storm also played havoc with the trees and fences in that neighborhood.

Our football boys will play against Mitchell's Bay at New St. Andrew's garden party Wednesday evening.

Miss Stringer, of Chatham, is visiting her sister, Mrs. Alex. McNeill, age.

THIS MEDICINE IS BREATHED.

That's why it is sure to cure Catarrh. You see it goes direct to the source of the disease, its healing vapor repairs the damaged tissues, and catarrhal inflammation. "Otarthozone" always cures because it goes into those tiny cells and passages that ordinary remedies can't reach, goes where the disease actually is. Impossible for "Otarthozone" to fail, as any doctor will tell you. Don't be misled into thinking there is any thing as good as Otarthozone—use it and you'll soon say good-bye to catarrh.

DOVER SOUTH.

Some friend this week sent The Planet an account of a marriage but did not sign his name as evidence of good faith. The Planet always requires correspondence to be signed and when the writer does not sign his name we have to withhold the matter. More than once difficulty has been occasioned by the publishing of anonymous items.

McKAY'S CORNERS.

On Thursday, the 25th inst., under

Ayer's

Cherry Pectoral. Coughing, coughing, day after day, tears the throat and lungs. Healthy tissues give way. You are ill. Ask your doctor why Cherry Pectoral cures coughs. J. C. Ayer & Co., Lowell, Mass.

PLANET ADVERTISEMENTS PAY
