When You Decide

To build a wire fence be sure to take into account two or three important factors:

First the expansion and contraction of the wire caused by the extremes (of temperature experienced in this Canada of ours, and in the second place the shock it has to sustain when animals run amuck against it or the hired man backs the waggon into it, it is impossible for any straight wire to stand these tests-it lacks elasticity. But THE PAGE FENCE has it and will stand the above tests every time. Consult

CHRONIC HEADACHE. The change in my Mother's condition marcellous.

Scott's Sarsaparilla is a Boon. MONTREAL, August 29th, 1895. GENTLEMEN :- There is such a change in my mother's health that I cannot restrain myself from writing you. She suffered for years past with a chronic headache, accompanied with a disordered stomach. She was weak and irritable, and we thought she was going into a dechine. For three weeks she has been taking a course of Scott's Sarsaparilla, which was recommended to her by Mr. McGale, Druggist, Montreal. Her headache is now but a memory, her appetite is good, and she has gained five pounds in weight in twelve days. She is a find that the women of Beaverton had different woman, and I feel that you, in not sufficient energy to maintain their God's hands, have been the means of restoring her to health. I shall always recommend Scott's Sarsaparilla to sufferers from head or digestive troubles. Thanking you again, I close. Yours sincerely,

Hortense Gaviliere. Scott's Sarsaparilla is a concentrated extract, pleasant to the taste, and is taken in small doses. It is the finest remedy for disorders of the stomach and liver, palpitation, scrofulous sores, eczema and skin diseases arising from impurities of the blood. It builds up the weak, the strong it maintains in health. \$1 of all

ONLOOKER'S COLUMN.

A few Remarks on the Subject of Temperance.

It is rather a pleasing thing to me. Mr. Editor, to notice how rapidly the question of Prohibition is forcing itself forward into the arena of possible politics. In Nova Scotia we have Liberal Conventions pledging themselves currency to the rumor that two of Toronto's wealthiest citizens are to be and their candidates to Prohibition, in | made Senators. One has contributed try as party exponents of the principle, in Outario we have the Provincial Government pledged to enact as full a measure of Prohibition as their power will permit while in Manitoba the question has become a direct political one with a distinct party (the Patrons of Industry), as its champion, and to cap it all we have several straight Prohibitionist candidates in nomina tion in different provinces. Mr. Laurier also, in the name of the Liberal party, and, as a bid for support offers honor go to men who have made some 15th inst. to take a plebiscite of the entire sacrifices for the public good? Is mere Dominion on the question in the event wealth to be the standard by which men are to be judged and vacancies in of his election.

Truly the star of Prohibition musi be in the ascendant when such an advance has been made. Well does Onlooker remember the first campaign in Ontario county when the "Dunkin Act" was the question. As a worker at that time I have a vivid remembrance of the feelings which were brought into play in that memorable contest and the earnestness with which the issue was fought by the temperance people of the county but it ended as was expected; then came the it all appears the one great fact that public sentiment has so far advanced that the business of the saloon has lost | is to take its place, the most popular its respectability in the sight of the and necessary measures of reform The 19th will be a great day in North

But. Mr. Editor, I did not set out to write a eulogy on the temperance cause because such is really unnecessary, but to ask the electors and delegates to the different political conventions and gatherings of a public chartions and gatherings of a public char-acter which will shortly take place in the form of a patriot and the august this Riding, if they will not give a hand to help forward this movement. In the last the can there be any loss of prestige in office could be had for a price. That knowing that the representative of such a suggestion has been made by a your party is one who does not, as daily newspaper not unfriendly to the Shakespeare has it, "put t in his esteem political honor and propriety mouth which steals away his brains", are held. Be he Conservative, lalmost admire the government that can make a shrewd and profitable financial deal in trucking in the offices to the progress of the age. In spite of and honors at its disposal. "Royal Commissions" Prohibition is no "dead issue" and your candidate ought surely to be in touch with that sentiment which is so rapidly becoming a political factor throughout the

As a side feature of this topic, Mr. Editor, I must confess it was with much regret, after reading the able address of the Provincial President, I thought of the lapse of the Beaverton branch of the Womens' Christian Temperance Union. To think of the many questions of social importance which this powerful organization is grappling successfully with in behalf of the women of our country and to local branch. It does not speak well either for their patriotism for desire for better things when they refuse to lend a helping hand to those who are so bravely battling in behalf of their sex and social purity.

Senators for Gold.

There is a rumor in Toronto that Messrs. Gooderham and Massey are to be appointed senators, to fill the two Ontario vacancies. It is generally understood, however, in Ottawa, that Sir John Carling and the Hon. J. C. Aikins have been promised the seats. In this connection Toronto Saturday Night a Conservative journal has this Quebec we have the Patrons of Indus- from his riches to the comfort and culture of our citizens; the other has never donated a dollar that I have heard of to any educational, philanthropic or progressive movement, though he is probably the richest man in this province. It is said, however, less liberality to the Conservative campaign funds, Such sums have doubtless been donated as manufacturers give money, to further his business above reproach, but neither of them Mr. D. Woodward has purchase has given an hour to the service of the public. If to be appointed to the Senate be an honor, should not the the Senate to be filled? Is it to be made a chamber of money-lords who can thus easily achieve the prefix of "Hon.," while others who toil their lives away in nobler pursuits than that of acquiring wealth are to receive no recognition at all?

A hereditary House of Lords is bad enough, but it has the advantage of giving a preparatory training to those who from childhood are destined for a seat amongst the peers of the realm. Our Senate is bad enough, recruited largely as it is from amongst defeated liticians and discredited Members of Parliament, but even such men have at one time or another been more or s in touch with the people and retain a lingering desire for the approval of their fellow-citizens. If a plutocracy Worse than the considerations
