ZENOLEUM

**CURES
SCAB**

The Purest Coal-Tar Dip

The successful shepherd watches his sheep as a cat watches a mouse. He dips in Zenoleum to keep the sheep free from ticks and lice. He dips to cure scab, if by accident scab infests his flock. He disinfects the pens to keep them clean and the sheep healthy, because healthy sheep grow into good fleece and more mutton. This makes a flock profitable. *ZENOLEUM is recommended as a remedy for stomach worms.*

**The Principal Sheep Breeders in America
USE ZENOLEUM**

They find it the best of all dips after many years' experience. *Forty-two Agricultural Colleges* say "Zenoleum is best." It is equally good for many ailments and diseases of cattle, horses, swine, and poultry, and has a hundred uses of interest to good housewives.

No Strings to the ZENOLEUM Guarantee

Here it is: If Zenoleum is not all we say it is, or even what you think it ought to be, you can have your money back. No talk, no letters—just money.

GOSSIP.

W. J. Shean & Son, Owen Sound, Ont., offer a change in their advertisement, offering for sale a choice and richly-bred young roan Shorthorn bull, sired by their great breeding bull, Derby (imp.). The youngster is described as not only grandly bred, but promising to make a show bull and a grand getter.

John McFarlane, Dutton, Ont., writes: "We have recently sold to Peter Arkell & Sons, of Teeswater, Ont., a flock of nice yearling Oxford Down ewes at a good price. Have a number of ram and ewe lambs, which will be sold reasonably to parties in need of such. Also sold the beautiful red Shorthorn bull calf, Prince Royal, to Dugald Campbell, Cowal, Ont., and another nice one, King of Exfrid, to Peter McIntyre, of Appin. Have some more for sale, among them being one eighteen months old."

Two young Aberdeen-Angus bulls of serviceable age are advertised for sale in this paper by Wm. Ische, of Sebringville, Ont., a station on the Goderich branch of the G. T. R., five miles west of Stratford. The splendid record made by this breed at the Chicago International and the English Smithfield Show speaks stronger than words for its worth as a potent and profitable beef breed, and these young bulls should readily find homes in herds where improvement in breeding quality is needed.

The rich roan seven-year-old imported Shorthorn bull, Scottish Beau (36099), by Silver Plate, is advertised for sale by N. S. Robertson, Arnprior, Ont., owing to his stock coming of breeding age. Scottish Beau was used with good success in the herd of Watt Bros., of Salem, who paid \$1,200 for him at the dispersion sale of the Hillhurst herd of the late Senator Cochrane, in 1903, and he was purchased by Mr. Robertson from them. He is described as a low-set, thick-fleshed bull, of the best modern type, active as a yearling, and of superior quality.

In calling attention to the dispersion sale of the Hillcrest herd of Berkshires, belonging to Mr. J. Lahmer, at Vine, Ont., to take place on Wednesday, June 19th, as advertised, it is almost needless to say anything to readers of "The Farmer's Advocate" of the popularity of the herd, and the successful mail-order trade built up with it, as for years it has been constantly before our readers in the advertising columns of this paper. It is generally conceded as a law in the breeding of pure-bred stock, that to gain the entre to the buying public a breeder must make his bow in the arena of the show-yard, and win his spurs to get his name up; but in the case in point, this theory has been exploded. Mr. Lahmer makes no secret of the fact that his success in making sales is due, firstly, to "The Farmer's Advocate" introducing the inquirers to him, and, secondly, his ability to deliver the goods as represented. Those who are admirers of the Berkshires will find in this sale the result of years of experience and breeding along the lines of a certain ideal; not so many types, but one type—a pig with good length of body, a good head, smooth, even and straight, standing on good legs, and with a quiet disposition, resulting in easy feeders. At no time in the history of Berkshires have they been more popular than at present in Canada and the United States, largely the result of co-operation and organization of the breeders, and the profitable returns of the breed for the feed consumed. We are assured the Berkshires in this sale, on June 19th, constitute one of the most select offerings ever made in Ontario, and intending purchasers and breeders should write for the catalogue, which gives particulars.
