Progress and development in Victoria, B.C., is indicated by the fact that there will be an increase in the civic rate there this year. It will be one and perhaps two mills. The assessment is greater by \$3,600,000 than last year, but with the need of greater amounts of money for increasing civic needs, the expenditure cannot be met without an advance in the rate.

After an illness extending over a period of fifteen months, Hon. John Dryden, Minister of Agriculture for the Province of Ontario from 1890 to 1905, died in Toronto on Thursday evening. He was 69 years of age. The deceased was a son of the late Mr. John Dryden, who came from Sunderland, England, to settle in Whitby Township, in 1820. The late former Minister of Agriculture was born there in 1840. His career in municipal and provincial politics was a bright one.

The early history of Fort William was enough to decide on the ultimate destiny of the city as it is to-day and as to the future in store for it is as the manufacturing centre of the great Canadian West. As far back as 1669 its geographical position was what decided the famous explorer D. G. Dulhut to build a fort there as the natural divisional point between the water-way leading to the east and the entrance to the vast territory to the west. The Hudson Bay Company and the large army of traders in the years following used what was then known as Fort Kaministiquia, now Fort William, on the Kaministiquia River as the rendezvous of the hunters, voyagers and chief factors. The fur house of the old Fort is to-day used as an engine house for the coal docks.
