WHEAT

# "PAGE FENCES WEAR BEST"

Made of High Carbon Wire,—we'll prove it to you. COILED not crimped. This makes it still stronger in service. It stays taut. Painted WHITE over heavy galvanizing—rust proof. Experienced dealers to erect it. Leads all in sales 209—as in merit. Get illustrated booklet and 1907 prices before buying. THE PAGE WIRE FENCE COMPANY, LIMITED, Walkerville, Toronto, Montreal, St. John, Winnipeg

Make Sure  
of  
Success

AFTER spending all the time and money necessary to properly prepare the soil, and after finishing the work of seeding, you cannot afford to take any chances on harvesting the crop.

The great element of safety and success in this work depends upon selecting the proper harvesting machine.

Taking everything into account, the McCormick binder will meet the most exacting requirements.

This is true not only because of the cutting and binding capacity of the machine, but also because of its easy draft, ease in handling and its remarkable strength and durability.

It is impossible in this small space to set forth the meritorious features of the McCormick binder in detail.

Someone in every community has a McCormick. Before you buy a binder ask this man about it.

Ask him if it has not given better service than any other binder he ever owned.

Ask him if it has not always been ready for work, and if it has not worked well in all kinds and conditions of grain.

It has been well said of the McCormick that "You see them wherever you go, and they go wherever you see them."

This is a well deserved compliment to the reliability of the McCormick.

The McCormick line of harvesting machines is complete and includes, besides grain and corn harvesting machines, binder twine, mowers, tedders, sweep rakes, side delivery rakes, hay loaders, stackers. Also a complete line of tillage implements and seeding machines, comprising disk drills, shoe drills, hoe drills, cultivators and seeders, smoothing, spring-tooth and disk harrows, land rollers and scufflers. Also gasoline engines, cream separators, hay presses, wagons, sleighs and manure spreaders.

The McCormick line is the O. K. line and is stenciled with the seal of excellence.

For detailed description of any or all of these machines, see illustrated catalogues.

Call on the local McCormick agent for information, or write nearest branch house for catalogue.
