P. O. INSPECTORS DIVISIONS.—By an Order in-Council the following changes among others have been made in the Post office Inspectors Divisions: The

now taken the place of the full."

For Manitora.—Mr. Morill and family from Peel township, left on Tuesday last for the North-west, Mr. J. Living stone ir, supplying them with tickets. They joined the Patterson party at Paris. Some idea of the exodus from this quarter may be gained when it is stated that since April 1st, 1879, Mr. Patterson has personally conducted 47 car loads of passengers, their effects occupying no less than 15 cars of baggage and 125 freight cars, the cost of transportation alone coming up to something over \$370, 600.

more coming up to something over \$705-000.

What the local Paper Does.—An exchange truly says: "Good towns are the result of well supported industries, and among other things, a newspaper is provided by the local town and its business and the town hallwere destroyed by fire at Clinton on Tuesday morning. Erwin & Scandert's grocerow exercises than anything its citizens can patronice. And if business men fail to become educated to this fact, they lose sight of the medium between them and the customers who gowhere men don token their light under a bushle."

Music Ctiture.—A meeting was convended to this fact, they consider the formation of a singing class under the teaching of Mr. A.C. Black, who is at present in town. The matter was as favorably received that a committee was appointed, and active steps are being taken to form a class, which promises to be a large one. On Thursday evening of last week Mr. Black is employing his talents in a good cause in his endeaved to improve the estandard of church more and we trust his efforts will meet with that cordial support which they merit.

Vennor on the Weather.—Mr. Vennor holds out cold comfort in regard to the weather. He informs the Montreal Witness that between this and the end of the year the thermometer will give us a series of extremely cold readings. He does not anticipate very heavy snow falls, but rather what he designates as "dry and extremely cold weather." The New year, Mr. Vennor thinks, will be again open and mild, with copious rains, and a general break-up in some localities. February he forecasts as "dry and intensely cold"—in fact one of the coldest Februaries on record in a number of years. The spring of 1880 is to be early, dry and warm, and is to preface an exceedingly hot and extremely dry summer.
