NEWS OF CITY AND OUTPORTS**NOTES FROM CHANNEL.**

The executioners axe has again swung in this direction, the head of Mr. William J. Bragg, tidewater at Port aux Basques, having fallen at the behest of the member for her for the district, who is evidently on the warpath in full paint and feathers. It is said that the mills of the gods grind slowly, but they grind exceedingly fine. In the near future there will be a say in certain matters and then all accounts will be balanced.

There is considerable indignation over this dismissal, and strong protests from influential friends of the Government have been made, and the Prime Minister will be acting wisely if he listens to these protests and rectifies the wrong. Come, Sir Edward, now is your time to show that with you there will be none of that delay of justice which makes injustice.

The recent tariff increases are evoking considerable comment and much wrath. People can now behold without the aid of glasses the manner

in which they were deluded by the remission of duties last year. They now realise the truth that the railway building and other pet extravaganzas of the Morris Government are likely to prove costly jobs for them. Truly this last juggle of Mr. Cashin's is frenzied finance indeed.

A correspondent in The Telegram of 3rd inst., from Channel, signing himself "Equite" is guilty of a slight error. In his report of the concert given by the children of St. James' school, he states that at the distribution of prizes "a gold medal presented by the head teacher was awarded, etc." It was, as a matter of fact, a silver medal. This correction is made without prejudice.

Will Wed Daughter of Prominent Virginia Lawyer.

The many friends in Newfoundland will be pleased to hear that Young Olson is to be one of the principals in another big match, as on the 19th inst he is to be united in matrimony to the belle of Harrisonburg, Va.

The bride-elect is Miss Irene Dechest, is the daughter of W. D. Dechest, a prominent lawyer of Harrisonburg. She is a striking brunette and is extremely popular in her home city. She has travelled extensively and has a large number of friends.

After the wedding the bride and groom will proceed to Boston to visit the groom's brother and uncle, and then they will visit other American cities, before returning to Harrisonburg, where they will make their future home. Rev. Dr. Jones Gone to Carbonear

Rev. Dr. Jones, who was visiting the city left for Carbonear, where he will be stationed during the absence of Monsignor McCarthy. The doctor arrived by Thursday's express. The journey from Little Bay by dogs and comatiks was an eventful run of 68 miles, but despite interesting and trying experiences, which included a night's rest at Gull Island, where, unknown to him, some cases of dynamite formed his couch, he is looking remarkably well, and contemplates with pleasure spending a few months in the old town, where his parents are still residing.

The doctor speaks enthusiastically of the prospects of the copper mine at Gull Pond, 35 miles from Little Bay. There is an immense quantity of ore there and the place will soon be a busy settlement.

Halifax Progressives Speak Well of Trip.

The Halifax Progressives have returned home safely. They speak well of their visit to Newfoundland. The following clipping from the Halifax Mail speaks for itself:

"Between the games the Halifax boys were treated like lords—banquets, sleigh drives, and other enjoyable entertainments having been arranged by W. J. Higgins, the popular President of the Newfoundland Hockey Association, and by Jack Tobin, their energetic Secretary. There was something enjoyable on all the time, and the Halifax players say they cannot express in words their appreciation of the many kindnesses shown them by the officials of the Association and many other gentlemen, particularly Fred Chesman and Nix Vinnicombe."

Important Announcement For Union Fishermen!

We have entered into an agreement with

THE FRASER MACHINE & MOTOR COMPANY, OF NEW GLASGOW,

For the manufacture of a large number of two cycle engines, which we will sell to F. P. U. Members at prices that will stagger the sales of all other first-class engines. We have used the FRASER engine for two years and found it satisfactory as a two cycle engine, and the engines to be built by FRASER for us will be supplied with the latest improvements in engines. No carburetor will be used with our engines. An adapter and igniter has been invented that does away with the carburetor, and our engines will all receive the fuel from the top of the cylinder, instead of from the bottom. Only one tank will therefore be necessary. No gasoline tank will be required. The engine will start on gasoline, supplied through a starter, and as soon as started will use kerosene oil. A Circular Letter describing the engines and giving prices and terms has been mailed to every Council and Union Store. Those engines can be had on terms allowing two years for payment. Altogether we have contracted for the delivery of 3500 engines, including "The Coaker," "The F. P. U.," "The U. T. C." and "The Advocate," for 1914 and 1915, and during the last two weeks we have received 100 orders and 250 enquiries. Consequently we are safe in asserting that the F.P.U. will handle 75 per cent. of the Motor Engine business transacted in the Colony. Union Members buying from the Trading Company save the following amounts: On "The Coaker" \$75.00, on "The Advocate" \$65.00, on "The U. T. C." \$55.00, on "The F. P. U." \$50.00. Not only are those amounts saved but any poor member is enabled to purchase for two years payment, while Agents of other engines require full payment within six months after delivery of engines.

We Also Sell "The Coaker" 4 Cycle 6 h.p. Engine on Easy Terms

For Further particulars apply to
