Hearing Continued in Sydney Murder Case.

Sydney, N. S., Sept. 8.—The preliminary hearing in the case of Frank Haynes, of San Francisco, charged with the murder of B. S. Atkinson, was resumed this afternoon, the crown having another array of witnesses summoned, and further evidence was brought out bearing closely upon the case.

The supreme court chamber which was especially thrown open for the use of Stipendiary Hearn was packed as never before, which shows the remarkable interest being taken in the case throughout the entire county. Two thousand people filled the corridors, halls and chambers. Press, counsel and even the magistrate, found it next to impossible to reach their places. Proceedings were delayed half an hour, and it was not until one man was arrested and the sheriff threatened to clear the court room that order prevailed. Women grew hysterical, men excited and children cried.

The prisoner seemed worried, the strain of the past few days apparently telling on him. Throughout, he took notes of the proceedings. He refuses emphatically to have his picture taken.
