The last one on the plate

Even so, take it. The rule of etiquette is temporarily suspended when biscuits of Horton Flour are on the table. Flaky, light, white, with delicate crisp-brown tops, they are simply delicious served steaming hot with maple syrup or with plain sweet country butter. No wonder the plate is cleared as if by magic. What higher tribute could be paid to Mother's skill in cookery and incidentally to the uniformity and high-grade qualities of Horton Flour. Grocers sell and are glad to recommend—

A SKIM MILK VARIETY.

Most of our dairy farmers are well accustomed to hear of milk "testing" so much, either high or low, understanding thereby that it contains a certain percentage. What is not quite so clear to the majority, is the fact that milk varies considerably in its test, or contents of fat, from day to day, even from one milking to another on the same day, and from month to month. This applies to mixed herd milk and more particularly to milk from single cows. Thus, if milk is valued according to its fat contents, it is evidently of extreme importance to every dairy farmer to know what the milk does test; further he needs to know, whether selling cream or pooling milk, if Spot's milk tests 2.5 or 4.8, if Blossom's milk tests 3.1 or 5.2 per cent of fat. In one herd where six samples of milk from each cow were tested each month, it was found that three cows averaged only 1.8, 2.8 and 2.7 per cent of fat for the whole year. Do your cows give real milk or only a skim milk variety? You need quality as well as quantity, are you getting both? Cow testing is necessary for your peace of mind. Ottawa. C. F. W.

On Monday Archdeacon Martell, Chaplain of the 112th Battalion, went to Middleton where he addressed the 142 men of the 112th Batt. recruited at that place under the command of Captain Spurr. Lt. Longley second. The men were all much impressed with the earnest forceful words of their respected Chaplain. One of the officers afterward said it was the finest address to men he ever heard and that he would not have missed it for a good deal. After visiting his son, the Rev. W. Martell at New Germany and other places in Lunenburg Co., Captain Martell returned home Wednesday.

Max Rosenburge, alias Edward J. Nass, was arrested at Moncton on Saturday morning as an enemy spy suspect. It appears that he went to Moncton about nine weeks ago and secured work at the local shell factory. He came from the United States. Further investigation elicited the facts that he is an Austrian deserter from the United States army. He is being held pending further instructions from headquarters at Ottawa.

The Nicholasville correspondent to the Register says: Our pastor, Rev. T. L. Brindley, has heard his Country's Call and enlisted in the 112th Battalion, leaving here on Monday for Windsor. This is the sixth of the young men who have been on the Nicholasville Circuit to respond to the call. They are all followed by the good wishes of the people in this place. Evangelist Isaac Brindley will, so far as he can make arrangements, fill the appointments of his son during the remainder of the Conference year.

Miss Evelyn Starr in Montreal

The Montreal Star says: The New York Symphony orchestra was to have played in that city, but because there are Germans in the ranks, the engagement was cancelled and there was arranged instead a concert with the Barrere Ensemble orchestra. Miss Katherine Goodson, pianist and Miss Evelyn Starr, violinist. The Barrere orchestra, consisting of two flutes, one clarinet, two oboes, one bassoon, two horns and one big fiddle, is led by George Barrere, first flautist of the New York Symphony and a musician of wide reputation. Mr. Barrere's flute tone is the most lucious in the world. Miss Starr, a young Nova Scotian, the Star goes on to say, apparently destined to reflect honor upon her country, thinks for herself. Her numbers had all been variously played by many violinists before her; in none of them did she copy anything, yet never did she obtrude her own ideas to the detriment of the music. Technically, she is well furnished; and her tone, if not large, is firm and of considerable richness in color. With everything before her, the future should see her going far. Her numbers were Corelli's "Folia," Cui's "Orientale," the Schubert-Auer Moment Musical, Wieniawski's "Souvenir de Moscow" and the Beethoven Minuet.

There is evidence of dissatisfaction in Germany with the inactivity of the Kaiser's fleet. The Appam incident has served to revive enthusiasm. The newspapers are reporting Grand Admiral von Tirpitz not to hesitate longer to go into battle with the British navy, and to prove German superiority on sea as well as on land.

Minard's Liniment Cures Dis-temper.

Two Scottish tourists were travelling one day to Kenmare, when suddenly one looked very gloomy.

What's the matter? asked his friend.

Why, I have lost the best part of my luggage, replied the other in a tone of disgust.

"Was it stolen, or did you leave it at the hotel?"

Worse than either—the cork came out!
