**AT HIMSELF**  
Challenger This Morning Gave Shamrock I. Big Advantage and then left the old Boat far Behind.  
Special to The Planet.  
Rothsay, Firth of Clyde, July 10.—Another open water trial of the Shamrocks was started at about 11 o'clock off Bogany Point, island of Bute.  
The challenger allowed the older boat to get well away to windward and several lengths ahead, thus permitting her to get the first of the fresher off-shore wind.  
The Shamrock I. maintained all her advantage to Kilecattan, but the challenger then picked up rapidly and passed the ex-challenger clear to leeward after a clever bit of sailing.

**PRESBYTERY**  
Meeting of the Chatham Association Held in Blenheim Yeste-day.  
The Chatham Presbytery met in Blenheim yesterday with Moderator Dr. Battisby, of this city, in the chair. There was a very large attendance at both services. Rev. W. Knowles, of this city, was present.  
The final report of the Century Fund showed that this Presbytery had borne its part in the work.  
Dr. Monroe, of Kingstown, was congratulated upon receiving his degree as D. D.  
A committee was appointed to make out a suitable minute of the late Dr. McColl's death.  
It was decided to hold six meetings of the Presbytery in the year instead of four as formerly and thus avoid so many special meetings.  
It was decided to sell the Windfall church to the Methodists.  
The committee appointed to negotiate with the congregation in Dover reported that Rev. Lindsay, of Dresden, has resigned his position as moderator of the church and recommended Rev. W. E. Knowles, of this city, for the position. The action was approved of.  
The next meeting will be held in Ridgeway on the 19th of September.

The buildings will cost about \$10,000.  
The Dowsley Co. are already purchasing machinery for increasing their plant. The spring plant will be moved entire from Owen Sound, but the machinery for making the axes will be purchased new.  
Mr. Polson, who was the gentleman probably most instrumental in inducing the Dowsley Co. to come here, says that the factory will be in operation as soon as possible. The Wm. Gray & Sons' factory will be making from 8,000 to 10,000 buggies per annum next year, and they will take a good part of the output of the Dowsley factory. The establishment of William Gray & Sons is so large now, as to attract other manufacturers here, and that is why the tanning factory desires to come.  
Mr. Polson has another factory which he expects to induce to locate here as soon as the terms as to the establishment of the tanning factory here are agreed upon.

**CALLER HOME.**  
A very sad death occurred in this city this morning, when the daughter of Mr. and Mrs. G. W. Sulman passed away. The little girl had been ill for only two weeks with typhoid fever and pneumonia, and her departure from this life came as a blow to the parents and friends. The sympathy of the whole city rests with the Maple City Mayor and the family in their sad bereavement.
