Could we read the hearts of every man we meet, what a load of sorrow and despair would be disclosed. Indiscretions and Blood Discases have caused more physical and mental wrecks than all other causes combined. They strike at the foundation of manhood; they sap the vital forces; they madarmine the system, and not only do they often disrupt the family circle, but they may even extend their poisonous fangs in to the next generation. If you have been a victim of early sinful habits, remember the seed is sown, and sooner later you will reap a harvest. If your blood has been diseased from any cause do not risk a return later on. Your Nerves are Weak.

You sleep badly, appetite variable. You eat but gain no strength. Morning tiredness makes you wish it were night. When night comes refreshing sleep is hard to obtain. You're run down, your blood is thin and watery, your nerves have grown weak, the thought of effort wearies you. You need Ferrozone; it makes blood—red, need Ferrozone; it makes blood-red, strong blood. An appetite? You'll eat everything, and digest it, too. Strength That's what plenty of food gives. Ferrozone gives hope, vigor, vim, endurance. Use Ferrozone and vim, endurance. Use Ferrozone a get strong. Sold by McCall & Co.

How a Sprain Does Hurt.

But it isn't the sprain alone that is dreaded, just think of the loss of time and wages. Sprains without number have been cured by rubbing Polson's Nerviline well into the pores of the skin surrounding the joint. No matter whether it is a sprained wrist, ar-kle, knee or back, just try Nerviline on it, and see how quickly it will cure. There is only one liniment that can be depended upon to cure sprains, strains and swellings, and that is Polson's Nerviline. Large bottle 25 cents.

Never mind the ridicule, never mind the defeat; up again, old heart! Twenty Years of Bronchitis.

Captain Dunlop, of Kingston, commander of the steamer "Bohemian," of the R. & O. fleet, suffered unceasingly for twenty years, and although he took treatment all that time permanent relief was not obtained until he used "Catarrhozone," which cured him quickly and permanently. The Captain says "Catarrhozone is the best cure for Bronchitis on the face of the globe, pleasant to use, quick to relieve and sure to cure." Catarrhozone is a wonderful cure for all diseases of the Throat, Lungs and Bronchial Tubes. Two months' treatment, price \$1.00, small 25 cents. Druggists or Polson & Co., Kingston, Ont.

MERIDIAN OF GREENWICH.

An English Town Which Is the Headquarters of Father Time. Greenwich, as an English town, is nothing very remarkable, but as the headquarters of Father Time it is the most important spot on the earth. Its time is in every longitude of the globe, and every land, excepting Spain, Portugal and Russia, measures the hours from its meridian. No navigator on duty is without Greenwich time in sight, and every town and geographical point is known by its distance east or west from the Greenwich observa-

Ask the time, and the answer is always in even hours ahead or behind Greenwich or else the exact Greenwich time. In Great Britain, Belgium and Holland you get the Greenwich time. One hour before Greenwich time rules in Germany, Austria-Hungary, Denmark, Italy, Sweden, Norway and Switzerland.

Two hours ahead of Greenwich is adopted in Bulgaria, Roumania and Turkey in Europe. Eight hours ahead of Greenwich applies in the Philippines. Nine hours before the Green wich time is used in Australia. Ten hours ahead of Greenwich is offi-

cial in Victoria, Queensland and Tasmania. The United States, Canada and Mexico have adopted the fifth, seventh and eighth hours after. So it is around the earth-every tick

of every clock regulated by Greenwich Burro Punching Profanity.

In his book "A Day With a Tramp and Other Days" Walter Wyckoff tells the following story of profanity and burro punching in the west:

"The burros plainly shared the feeling of relief in reaching a more passable region, and the art of burro punching began consequently to disclose its difficulties.

"They were most difficult to manage at the fords. Generally they scattered to the four winds at the first approach to water, and when we had corralled them again and forced them down to the brink they would stand calmly, planted ankle deep in the stream, resolutely determined not to move.

"It was then that Price gave vent to real profanity, and I am bound to own that it was effective. When beating and prodding and the milder invective failed to urge the burros forward, Price would stand back, pale with rage, and begin to swear, calling upon all his gods and blasting the reputa tion of his beasts unto the third and fourth generation of their ancestors.

"By some subtle perception they seemed to understand that this meant business, and slowly at first, but pres ently, as though they rather enjoyed the water, they waded through and started down the trail beyond."

There Are Two Kinds of Mustard. There are two varieties of mustard -black and white. Black mustard is the most valuable for commercial purposes. Its seeds are very minute, weighing not more than en a grain each. Its pungent taste is caused by an essential oil. This oil can, like fruit flavors, be exactly imitated by the chemists. Both as a table condiment and as a medicine mustard has been known from a very remote

period. As now found in our grocery stores this spice consists of white and black mustard seeds, mased and ground fine. The white mustard keeps better than the black variety and is not so bitter. A good deal of the mustard sold is adulterated, sometimes with wheat flour, but more often with tumeric, the pulverized root of a common East Indian plant.

Both Caught.

There are two Portland women who have lost faith each in the other. They were attending the meeting of the literary union and on emerging from the hall found a sharp shower in progress, Each announced to the other that she must telephone for a carriage, and they departed into different stores, ostensibly for that purpose. When, ten minutes later, the women met in a Spring street trolley car, allusion was made the carriage,

Candies. Such candies as peanut brittle are far less injurious than fancy mixtures, as they are made by simply melting sugar and are without acids. Acid in the presence of heat splits ordinary sugar into two forms, dextrose and levulose These are both deadly sweets and much more prone to fermentation than real sugar. This is the reason why so many housewives cannot make good cranberry or other jelly.

The Great Qualification The animals were preparing for amateur theatricals. "I want to be the heavy villain," said

The most popular pattern for a little girl's dress is what is known as the French dress. It has the yoke and a long full waist fastened by means of a band to a short full skirt. This admits of great variety of trimming. Appliques, ribbons, the sash material different from that of the dress can all be used with effect. The same style is seen in some of the children's coats.

"I feel as if I should fly to peces. How often those words are on a woman's lips. They express to the uttermost the nerve racked condition of the body, which makes life a daily

martyrdom. If this condition had come sucdenly it would have been unbearable. But the transition was gradual. A little more strain each day on the nerves A little more drain each day of the vitality. Any woman would be glad to be rid of such a condition. Every woman tries to be rid of it. sandsof such women have been cured by Dr. Pierce's treatment with his "Favorite Prescription" when local doctors had entirely failed to care. "Favorite Prescription" contains no opium, cocaine or other narcotic
