TUESDAY, JULY 10, 1906.

SITUATION IS SERIOUS.

Workingmen's homes, says the Canadian Graphic, are beginning to agitate Toronto and incidentally most of the growing towns and cities in Canada. Toronto has been a long time waking up on this question. It's some years now since the newspapers began to talk about scarcity of houses. Real estate men and builders kept right on building expensive and middle-class houses because there was less money and more restrictions in the other kind. It has taken Toronto about seven years to live down the fiction that there are vacant houses on every street. The boom and its collapse made this a fact. Immigration and expansion have made it a fact. Now a vacant house is worth photographing. Comfort in Toronto is not increasing. The cost of comfort is not decreasing. Until workingmen's homes are built on a systematic basis, comfort will keep on decreasing and the cost of ordinary living to the laboring man will continue to go up.

WANTED — A PLATFORM FOR McCOIG.

About the most amusing line of reading matter offered to the public these warm, sultry days, is the series of attempts the Banner is making to delve into the local political situation and turn up with something which at least has the appearance of favoring its candidate, A. B. McCoig. With all of its flops, contradictions, apologies and mis-statements, however, it has as yet been able to do what it started out to do—to show that Mr. McCoig has been a good representative. It has tried to bluff, it has compared him to Mr. Clements, it has knocked out Mr. Clements, and it has talked about Laurier and Whitney—in fact it has looked in every conceivable nook and corner, and has found nothing it can use in any shape to bring forth the desired result.

The Banner's latest move was to transplant Mr. McCoig from Ontario politics to Dominion affairs, in the hope that under the protecting wing of Premier Laurier he might blossom forth into a great politician in the eyes of the people of Kent. Premier Laurier, however, is having all he can do at present to look after himself and, as a result, Mr. McCoig, left to stand on his own merits, has fared badly.

A few days ago it was announced in the Banner that Mr. McCoig had secured a wharf or dock for Tecumseh Park. Considerable correspondence which was alleged to have passed between Mr. McCoig and Hon. Mr. Hyman, Minister of Public Works, was published in the Banner, and there was great rejoicing in the McCoig camp. At last, after many months of tedious but faithful labor, they had found something which Mr. McCoig had done, was doing, or was going to do—it was not made quite clear at the time which of the three it was, but it was something.

The rejoicing was short lived, and, queer to say, the balloon of hope was punctured by Mr. Hyman himself, who was said to have written all that correspondence which appeared in the Banner.

The matter was brought up in the House by Mr. Clements, and what does Mr. Hyman say about the wharf that Mr. McCoig was so active in securing? He said, "The wharf is the official property of the speeches made in the House, credits Mr. Hyman with the following:—

"As to Tecumseh Park, the Government are improving the condition in connection with the piling that was done some years ago and when that is completed I think the boats may be able to get in there without a wharf."

of securing a wharf at Tecumseh Park he will do it.

This now leaves Mr. McCoig still, where he himself once said he was going, "In the back benches." This last incident with the Dominion Government shows him up in a worse light than ever. Can it be that he is out of touch with his own party in both houses, or does Premier Laurier think that if there is any liberal patronage for Kent, it rightly belongs, and should go to Mr. Geo. Stephens, ex-M. P., instead of this McCoig, who while holding a seat in the Provincial House greedily accepts the nomination for the Dominion House three years before an election?

As we have said before, it might be more in Mr. McCoig's interests if he would wait until he has done something to warrant his past election before he jumps out for higher honors. Up to the present he has done nothing whatever. It is surely up to him to change his smiling face to the earnest countenance of a man who has the welfare of the people at heart, and who holds the claims of the electors, ahead of his own personal interests.

PROVED IN MOUNT FOREST.

Every doctor in this town tried his best to relieve Mrs. J. Witham, of Asthma, and none succeeded. "For years," she states, "I was a dreadful sufferer; nothing gave relief. At times I found it necessary to have all the doors and windows open to get my breath. When in despair I heard of Catarhoxone. I used it and now am perfectly cured." This proves beyond doubt that any case of Asthma is curable with Catarhoxone. No remedy so pleasant none so absolutely certain to thoroughly cure; try Catarhoxone yourself; it's guaranteed.

H. W. BRICK IS MISSING.

Was Manager of the Canadian Branch of Wampole & Co. of Perth.

Perth, July 9.—Mr. H. W. Brick, who has for some time been associated with Henry K. Wampole & Co. in connection with their Canadian business, and who resided in this town, left here Saturday morning, June 30, for Toronto to spend the Dominion Day holiday. He appears to have left Toronto Saturday afternoon and has not since been heard of.

Mr. Brick's disappearance naturally caused a sensation here, for he was prominent in local affairs, and has taken an active interest in public matters since his removal to Perth about the first of this year.

Enquiries were made Saturday at the company's laboratories, and the information given was that Mr. Brick was no longer in the employ of Henry K. Wampole & Co. in any capacity, and no longer in any way authorized to act for or represent them.

The business is in no way affected by Mr. Brick's absence, and everything was in full swing Saturday.

TALC MILLS BURN.

\$150,000 Blaze at Hillsboro—Will Seriously Affect Market.

Brookville, July 9.—The largest mill of the International Talc Co., said to be the largest in the world, was totally destroyed by fire at Hillsboro, the cause of the blaze being unknown. The flames had gained such headway when discovered that it was found impossible to save it and everything went up in smoke, including several cars loaded with the finished article. Its capacity was 50 tons per day.

This makes the fourth mill of its kind destroyed within the past year, and the removal of the largest plant will, it is said, cripple the talc supply of the world. The loss is over \$150,000, covered almost half by insurance. It is not known whether the mill will be rebuilt.

He Kept His Word.

"Such a change," said Senator Sullivan, apropos of a certain bill, "would be about as satisfactory as the change that a landlord once made."

"A woman came to see this landlord. She wanted to look at a house that was to let. The man sent a clerk to show her over the house, and on her return she said:

"I like the house very well. There is only one thing that I object to."

"Well, madam, any reasonable alteration," the landlord murmured suavely, "would, provided you took a three years' lease."

"I'd take a three years' lease," said the woman, "if only the house had more closets."

"The number of closets shall be doubled," said the landlord.

"Very well," said the woman, in a pleased voice, and she signed the lease then and there.

"After she was gone the landlord called in his clerk again.

"John," he said, "take a carpenter over to No. 37, and have him divide each of the closets in two."—Ottawa correspondence.
