COST OF THE G. T. P.

Little by little information comes out showing that the cost of the National Transcontinental will be at least double the amount estimated was made. The first revelation was made when the accentration contracts were signed at schedule price, estimated by the engineer at over \$50,000 per mile. It now appears that the quantity of excavation is larger than was estimated and the contract. by the Government when the contract than was estimated and the cost will be increased accordingly. Moreover, ferred to Mr. Houston and Mayor the price of ties and rails is higher than was expected. So, whereas Mr. Fielding placed the cost of the railway between Quebee and Winnipeg at \$28,000 per mile with the extreme possibilities at \$40,000, it is shown that the road bed alone on the parts under contract which are those most the price of ties and rails is higher under contract which are those most accessible, will be between \$50,000 and \$60,000, to which must be added the cost of ties, rails, tracking, station buildings, tanks, workshops, etc.

Again it has been brought but by Senator Ferguson that the Rocky Mountain section, estimated at \$50.

St. Thomas is known far and wide as a pretty decent place to live in, but it is very seldom that people come all the way from Philadelphia to be married. However, such was the case yesterday, when a couple from that city game here and were quietly married by Rev. Dr. Griffith.

They certainly could not have chosen a more quiet place to do the deed. Maybe the bride wanted to go some place where she would be most envied, and considered lucky, by the members of her sex.

To relieve a cough or break up a cold in twenty-four hours, the following simple formula, the ingredients of which can be obtained of any good prescription druggist at small co-t, is all that wil be required: Virgin Oil of Pine (Pure) one-half ounce; Glycerine, two ounces; good Whisky, a half pint. Shake well and take in teaspo inful doses every four hours. The desired results can not be ob ained unless the ingredients are pure. It is therefore better to purchase each separately and prepare the mixture yourselt. Virgin Oil of Pine (Pure) should be purchased in the original hall-ounce vials, which druggists buy for dispensing. Each vial is securely sealed in a round wooden case, which protects the oil from expisure to light. Around the wooden case is an engraved wrapper, with the name—Virgin Oil of Pine (Pure), prepared only by Leach Chemical Co., Windsor, Ontario—pl inly printed thereon. There are many imitations and cheap productions of pine, but these only create nausea, and never effect the desired results.
