

THE ACADIAN.

WOLFVILLE, N. S., JUNE 5, 1914.

Editorial Notes.

This is 'blossom week' and the showing is indeed a fine one. The Valley is one great garden and the air is sweetly perfumed with the odor of the apple blossoms.

Checking Speculation.

Under recent legislation the oil traders of Alberta are not allowed to sell highly speculative shares in Manitoba. Prospectuses must be examined and approved before shares can be put on the market.

It is said that we should not interfere with 'business'. But 'business' will interfere with ignorant and credulous investors.

However valuable the oil properties in Alberta may prove to be, much of the money now thrown about in reckless speculation will never bring any return.

There have been mergers in Canada that involved flagrant robbery of the people. Upon millions of stock that represent no actual investment the public is required to pay dividends.

There will always be unwise investments. There are failures as honorable as successes. There is much legitimate land dealing. Not every mine that fails to produce stands for unfair treatment of investors.

When Baby Suffers From Constipation.

Mothers, if your baby suffers from constipation, if his little stomach or bowels are out of order, give him Baby's Own Tablets. They never fail to give relief and an occasional dose will banish constipation and keep the stomach and bowels in perfect order.

Notice.

The following persons are appointed surveyors of highways in Ward No. 8 for the year 1914. Those who have not been sworn in will please apply to G. E. Bishop, J. P., Greenwich, and have their road papers filled out, as there is a penalty for neglect.

G. E. Bishop, Superior Ward 8, Greenwich, June 3rd, 1914.

But it is necessary for the business man to "Do Well" first, or people will not know that he will "Do Well".

The Anniversary of Acadia University.

God of our fathers, known of old, Lord of our far-flung Acadia line, Beneath whose loving hand we hold In trust these institutions of Thine.

The tumult and the shouting dies, The students and the visitors depart, Still stands Acadia, thro' sacrifice, And loving, loyal hearts, Dedicated to high and holy project, Our Alma Mater we'll ne'er forget.

Far-called Acadia's grade, hold sway, Keeping their heads cool and hearts pure, Under the palm and pine to day, Offering for human ills, the cure, As taught white undergraduates yet, Our Alma Mater we'll ne'er forget.

To the spirit of Acadia true, The class of '14, five years they claim, Return in numbers not a few, And on the Cup imprint their name.

Grateful sons of a parent proud, Come up to the Halls they adore, And for Acadia cry aloud, As in the happy days of yore, For life's work new vision get, Their Alma Mater they'll ne'er forget.

At Acadia '18, From Classic Halls will graduate, Sons, born this year, to emulate, Those who the past did illuminate, And placed the future in their debt, Their Alma Mater they'll ne'er forget.

VERAAX. The Menace of the Fly. It has now been established that flies are not only a nuisance, but that they are very active distributors of disease.

While by preference they infest places where filth abounds, they are of ubiquitous habit, and pass cheerfully from the manure heap, the privy, the garbage pail or the sick room to get the first taste of food intended for our dining tables, to deposit on it such germs of such diseases as typhoid fever, tuberculosis, infantile diarrhoea, etc.

The chief breeding places of flies are collections of garbage and manure—particularly horse manure. In such places they multiply with great rapidity. Each adult female fly deposits several hundred eggs, which pass through the cycle from egg to fly within eight or ten days.

Our houses (particularly the dining room and kitchen, and all sick rooms) and the faces and bodies of infants should be protected against flies by suitable screening. Every fly should be killed on sight. But the principal means of controlling the fly pest is by doing away with the breeding places.

Particular care should be given to the removal of stable manure, which, during warm weather, should under no conditions be allowed to remain at a less distance than a quarter of a mile from a human habitation. Garbage, contents of privy vaults, and refuse of all kinds should be similarly removed if the preferable destruction by fire cannot be carried out.

It is important to carry out these precautions from the very commencement of warm weather, and to persist in them throughout the fly season. The presence of flies indicates the presence of filth or insanitary conditions in the neighborhood, and is a certain sign that a cleaning up is necessary.

Do not patronize dealers in food stuffs whose wares are not kept carefully screened from flies. In the resignation of Miss R. Mick as head of the Education Department of Acadia Seminary the school loses an invaluable teacher. Not only as a teacher of education but also as a teacher of culture, Miss Kemick will be missed and her place cannot easily be filled.

WM. C. BLEAKNEY. We have the best of Fruit and Vegetables in season. Our cheese cannot be beaten for quality. Also we can supply you with the necessary amount of bread every day through closing at 7c. only.

Overwork and Worry.

A FRUITFUL SOURCE OF BROKEN DOWN CONSTITUTIONS.

A little worry does a great deal of harm. Overwork and worry gives rise to headaches, nervousness, weak back, lack of interest in your work, indigestion and sometimes a complete breakdown of the nervous system, leading to paralysis.

Mrs. J. C. Chapman, Oshesee, Ont., says: 'I became completely run-down and my nervous system shattered from overwork and worry. I always felt tired and exhausted and slept badly at night. I tried several medicines but did not find the hoped for relief. Then I decided to try Dr. Williams' Pink Pills. I took them regularly for several months and they restored me to perfect health.

The Fenian Bounty.

Ottawa, June 3.—The resolution extending the time for making payments to Fenian veterans to July 31, 1915 had a narrow escape from death yesterday at the hands of the senate.

Patrons of the motion picture performances at the Opera House enjoyed a rare treat this week when the remarkable production, 'Sixty Years a Queen' was presented. Good audience were present both on Monday afternoon and evening and the program as presented was greatly enjoyed.

A May Wedding.

WILSON—FORSYTHE. The marriage was celebrated at St. Frances church, Wolfville, on Monday, May 25th, at 10 o'clock by Rev. Father McCallum, of George Wilson, son of John Wilson, Windsor street, Halifax, and Miss Alice Forsythe, daughter of Frank Forsythe. The groom was supported by his brother, Harry Wilson. The bride looked charming in white satin with union overdress and pearl trimmings.

DEED.

RAOULS.—At Stoughton Mass., May 19th, William H. E. Esq. eldest son of late Daniel and Margaret Eagles, aged 98 years.

Get Bumper Crops This Year

by using the proper fertilizer—one containing from 6% to 10% of POTASH. Plants are like human beings; you must feed them properly if you want them to thrive and produce maximum yields.

Home Mix Your Goods
