Western Car Shortage, Ship Wheat to Saskatoon

Owing to car shortage the Board of Grain Commissioners has arranged with the railway companies to allow farmers, who have orders on the car order books for cars for shipment of grain to Fort William and Port Arthur, to change these orders and make shipment to the Government Terminal Elevator at Saskatoon, and preference will be given in supplying cars for such shipments to Saskatoon.

We therefore advise farmers west and north of Saskatoon, who are waiting for cars, to change their orders at once, and get cars to ship their grain to the Government Terminal Elevator, Saskatoon. The grain is inspected there by Government grain inspectors, the same as at Winnipeg and weighed by Government weighers as at Fort William and Port Arthur.

We attend to and dispose of the grain in store Saskatoon, just the same as in store Fort William and Port Arthur, the Winnipeg market being the great central market for all western grain, and we make liberal advances on receipt of the shipping bills for the same at 7 per cent interest, or draft for reasonable amount can be made through any bank at country points.

In order that we may give prompt and proper attention to shipments, bill all cars, **Notify Thompson Sons and Co., Winnipeg**, sending us the shipping bills either direct or through a bank at once, after cars are loaded.

Load direct into car over loading platform if possible, but where grain is loaded through an elevator and consigned to us for sale, we hereby guarantee to pay to the operators the storage charges on same, and to adjust shortage or surplus in weight, according to Government Terminal Elevator outturn.
