Intrative powers or the Chinese.—
It is generally supposed that the Chinese will not learn anything: but no people are more ready to learn if it is likely to be attended with advantage. They have lately been leight to make glass, and turn out bronze argand-lamps and globes, emblazoned with the London maker's name all complete; and actually export these lamps to Batavia. They like puting an English name on their commodities, and are as free with the word 'patent' as any manufacturer in Germany. tent' as any manufacturer in Germany.

They excel in the manufacture of locks, particularly padlocks. One of my friends gave an order to a tradesman to varnish a box, furnished with a Chubbs' lock, of which he had two keys, and one of these he sent with the box, retaining the other himself. When the box came back, he found that his key would not turn the lock, though the one he had given to the tradesman acted very well. Thinking some trick had been played, he accused the man of having changed the lock; and after some evasion, he acknowleged the fact, stating that, on examination, he had found it such an examination, he had found it such an excilent one, that he took it off and kept it, making another exactly like it, with the maker, sname, and everything complete, except that the original key would not open it. There mechanical contrivances generally have some defect of this kind. They have never made a watch that will keep time, through they greatly prize watches, and usually carry two. If you ask the reason usually carry two. If you ask the reason of this fashion, their reply is: 'Spose one makes sick, other can walkee.'—(A Sketcher's Tour Round the World.)

HOLLOWAY'S OINTMENT.

MOST ASTONISHING CURE OF SCROPULOU ULCERS-A CASE CERTIFIED BY THE MAYOR OF BOSTON.

Copy of a Letter from J. Noble, Esq., Muyor Boston, Lincolnshire.

To Professor HOLLOWAY,

To Professor HOLLOWAY,
Sir,—I suffered for a considerable period from a severe attack of Erysipelas, which at length settled in my leg, and resisted all medical treatment. My sufferings were very great, and I quite despired of any permanent amendment, when I was advised to have recourse to your Oinrment and Pills. I did so without delay, and am happy to say the result was eminently successful, for they effected a radical circ of my leg and restored me to the encourage of the left.

AT MALTA AND FORTSMOUTH HOSPITALS. The following important communication has been forwarded to Professor Holloway for publication, by Mr. B. Dixon, Chemist, Kings-t., Nowich.

Copy of a Letter from Captain Smith, of Great Yarmouth, dated January 19th, 1888.

To Mr. Dixon,

Dear Sir,—I send you the particulars of a care effected by Professor Holloway's invaluable medicines:—Mr. John Walton, late in Her Majesty's Service, in the British Fleet at Malta, had a very bad ulcerated ancle, and after having been in the Malta Hospital for six months, was sent to England as an invalid to Portsmouth Hospital, where he remained an inmate four months, there, as at Malta, refusing to have the limb amputated, he was turned out incurable. He then came to Yarmouth, and was under a medical gentleman for about three months, but his nacle became so much worse that all hope was lost. At this period, by my advice, he tried Helloway's Ointment and Pills, which, by amermited application, healed all the ulcers, and restored him to perfect health and strength.

I remain, Dear Sir, yours very truly, (Signed) JOHN SMITH.

To Professor Hollowar.

Dear Sir, — Has Sarah Diron, of Liquorpond street, Boston, has this day deposed before me that for a considerable period she was severely afflicted with Scrofalous Sores and Ulcers in her arms, feet, legs, and other parts of her body; and although the first of medical advice was obtained, at the cost of a large sum of money, she obtained no abstement of suffering, but gradually grew worse.

Being recommended by a friend to try your Ointment, she procured a small pot, and a lost of the Pills, and before that was all used, symptoms of amendment appeared. By persevering with the medicines for a short time longer, according to the directions, and strictly adhering to your rules, as to diet, S.c., she was perfectly cured, and now enjoys the best of health.

Copy of a Letter from Mr. T. F. Ker, Chemist,
&c., Lower Moss-lane, Manchester, dated
February 12th, 1983.
To Professor Hollowax.
Bear Sir,— I have great pleasure in forwarding to
you the particulars of a very extraordinary core of a
had breast, effected solely by the mae of your celebrated Oistment and Pills. Mr. Martha Bell, of Pittstreet, in this town, had been for a considerable time
laboring under nervous debility, loss of appetite, and
general ill health, occasioned by ulcerated wounds in
the breast. She had had much experience in the use
of all the known remedies for the cure of allows, but
without any beneficial result; in fact she had searly
lost all faith and hope of a cure being effected. In
this distressing and painful condition of body and,
mind, she was persuaded to have recourse to your
invaluable Oistment and Fills, which she immediately
did, and in the course of a very short time the office.

The Pills should be used conjointly with the Ointment in most of the following cases:

Bad Legs
Bad Breasts
Contracted and Stiff Skindienases
Burions
Bunions
Elephantianis
Sore-heads
