the same sense: it also eliminates a " ph one being enough, and it neatly harm

DANGERS THAT BESET SUB-MARINE | ment.

Every one who has at all studied ocean elegraphy perfectly understands the dangers to which the shore ends of the communicating wires are exposed from the action of currents, the anchors of ships, &c. But the general idea prevailed that once the cable was laid in the gloomy depths of the ocean it was in safety. Such, however, is not the it was in safety. Such, however, is not the case, for the inhabitants of those regions seem to resent the intrusion. In many cases, owing to the inequalities of the bottom of the sea, the wires cannot rest wholly on the bed. but in some places hang in festoons. Then they are liable to accidents from the larger as of the sea, among which we particularly mention the sun-fish (Orthoriseus). That peculiar but little known a rose. Seen swimming it turns round li wheel and moves with great rapidity. grows to an enormous size, often attain four feet in diameter, and some of them said even to reach eight feet. Specim have been caught weighing 600 pounds. is found in all seas from the Arctic to Antartic Circle. Where the tail is in bony spines project. Not long since an interruption occurred in a cable, and on exam bottom it is not safe, for a species of marine weevil attacts the gutta percha and generally found, the tests were applied, and the pre-cise spot indicated. The wire was fished up was held fast as a prisioner, and, not being able to rise to the surface for air, was able to rise to the surface for air, was drowned.—Galignani's Massenger.

THE VOLUNTEERS AT MONTREAL .- The disposition of the military force in Montreal, on Friday last, reflected the highest credit now better than ever appreciated, especially outbreak on the part of the excited crowds the most appalling results. The different battalions were so stationed that the two principal points at which a disturbance was likely to occur—Place D'Armes and Victoria E. D. Square—had the wise counsels failed and the procession taken place, could be completely volunteers were placed near the chiexits from these grounds, and in the event of trouble could have completely cut off the mob from the rest of the city. The fine apany attention to them, and certainly teries were equal to any regul and the Mentreal Volunteers were not far hind they, will be confirmed by the citize like the city corps, were in splendidtrim, and their general bearing was sufficient evidence that they could be relied upon if their ser-vices were required.—Ottawa Times.

----INTEREST .- No blister draws sharper than does the Interest. Of all the industries, none is comparable to that of Interest. It works all day and night; in fair weather, and foul. It has no sound in its footsteps, but trave film, as a fly is bound in a spider's web the fatal mesh until the long-legged devours him. There is but one thing of

The Reform Club Band will give an open ir concert on Tuesday evening next.

Edinburgh has been the scene of a solemn protest against Sabbath deserration. Last week the Sabbath Alliance of Scotland adoptweek the Saboatt Affinance of Scotherd adopted a report protesting against this shocking crime on the part of two no less offenders than Her Most Gracious Majesty Queen Victoria and the Prince of Wales. The Queen, it seems, on a Sunday not long past, actually had herself rowed in a boat to visit an island n his part, embraced the favorable that reunion in the hereafter. He further said that reunion in the hereafter. He further said that he was sorry that his name was not Perley, and wished that his mother, (who was a Perley), had named him "Perley." Howard a Perley, he has got a Perley for a wife. With ever, he has got a Perley for a wife. With set words of any character fail to describe. ever, he has got a Perley for a wife. With ramble, chat, and other good things, the day passed rapidly and pleasantly away, leaving nothing but happy remembrances in the hearts of the participants. The family is to meet again in a similar reunion next summer—Georgetown Advocate.

set words of any character fail to describe. The report, however, congratulated the members of the Alliance on the fact that the boatmen who utually ply on Loch Mareo refused to convey the royal party, and that the hotel-keeper had been obliged to press his own servants into the service. The committee was also, we learn, pleased to find mittee was also, we learn, pleased to that "the worthy inkeeper at Achnashe had declined to allow his horses to be u Empires and the colonies generally on the share taken by them in recent exhibitions, thus refers to the Canadian exhibit: A lofty wooden structure of good design, erected for the Canadian Commission, and of representative obelisks and characteristic illussentative obelisks and chara sentative obelisks and characteristic illus-trations of the rich mineral and animal wealth of our splendid possessions abroad, set off by stuffed animals and birds, and other beautiful

splendid exhibition, more grand and elaborate that any previous display, was to have taken place, but, as ill luck would have it, very soon after the commencement a spark from a rocked fell in their midet, set fire to a fuse, and, in a moment, caused such a stampede as has not been witnessed here since the big fire. Those immediately surrounding the fire the Crown Lands, doubled the every dearer and defence are vastly fire. Those immediately surrounding the fire to complete the name previous display, was to have a remarkably cut every to sit to the mention day in Northumberland and beauties of the capital, his professional every and, and Monday 29th, but it is only common justice to mention them when the record justifies the recognition.

England. She has gained a moral victory, tastly the fire asked for. Like every visitor of taste, Mr. Scott was taken with the natural beauties of the capital, his professional every attitude she has shown that her will is as strong as it was in the palmiest days of the most important measures were carried out, has not been witnessed here since the big fire. Those immediately surrounding the fire triumph now is with the natural and westmorland, and Monday 29th, for polling facturers, who have a remarkably cute every visitor of taste, Mr. Scott was taken with the natural beauties of the capital, his professional every attitude she has shown that her will is as struck by the fine architecture of the Cathedral.

The Dominion Press, a weekly paper, lately was struck by the fine architecture of the capital, his professional every attitude she has shown that her will is as struck by the fine architecture of the capital, his professional every attitude she has shown that her will is as struck by the fine architecture of the Cathedral.
