A Good Move.

We congratulate the Salvation Army on their action in bringing together the teachers of their school with the object of improving their professional skill. No matter how well grounded a teacher may be the art of his profession, there is always much more to learn, and much more of skill to be acquired. But when the professional training is small, how much more need is there of improvement? Teaching is a difficult profession and child study itself but in its infancy. How to train a child, though an ancient problem and on which thousands upon thousands of solutions are offered, has by no means reached a reasonably satisfactory state. Every effort to improve the skill and knowledge of our teachers in educating children should meet with encouragement.

Lived One Hour.

The accident to little Chas. Cox, son of Sergt. Cox, occurred Tuesday evening. The lad, who was a telegraph messenger on the island, jumped up on a loaded car as it came out from the mine of the N. S. S. Co. Slipping and falling off the wheels of the car passed over his body and he was horribly mangled. He was a bright boy, aged 13 years. Both Mr. Hutchings and I. G. Sullivan had messages to-day on the affair. The accident occurred at 6 p.m. and the lad died shortly after 7. The Magistrate is holding an investigation.

A Third Victim.

We learn from Mr. Hutchings, K.C., Deputy Minister of Justice, that according to Magistrate McDonald who investigated the tragedy at Port au Port Bay, the fire in Jessops shack was caused by carelessness in heating tar. Another of the victims of the accident a man whose name is not given is dead as the result of the affair. The woman who survives is terribly burnt and her death is not unexpected.

BERLIN, July 12.

The Foreign Office has given out an authorized statement respecting the letter of Emperor William to President Madrid of Nicaragua. Reports have reached Berlin that attempts were being made in America to construe this letter in an endorsement by the Emperor of the Madrid party. The statement follows: "The letter was not an autograph letter in the usual written form. The customary reply was prepared by the Foreign Office. It was not an autograph letter but was simply signed by the Emperor. The address great and good friend was in accordance with official courtesy. Any impression by Germany in Nicaragua affairs neither followed nor is intended. Germany neither sought nor designs to seek a cooling state in the matter of Germany's intentions toward the Galapagos Islands are equally without foundation, as are all suggestions that the German Government in any way modified the cultivation of friendly relations toward the United States." The Emperor's letter was dated April 20th, and said: "I am informed by your letter of the 27th December of last year that your Excellency was elected President of the Republic by the merited confidence of your fellow citizens, and that your Excellency entered upon your most honorable duties on the 21st of that month. An expression of the usual diplomatic good wishes and desire for the cultivation of good relations between the two countries followed."

EARTH DISTURBANCES.

Special to Evening Telegram.

MUNICH, Bavaria, July 13.—A sharp earthquake was felt here at 9.45 o'clock this morning. The walls of several buildings were cracked. The wavelike movement continued for three seconds thoroughly terrifying the people who fled from their homes, and remained in the streets long after the disturbance had ceased.

FRENCH STANDARD TIME.

Special to Evening Telegram.

PARIS, July 12.—The Cabinet has decided to submit a bill for the adoption of Western European time in France. During the old days of emigration toward England the French Standard time maintained the solar time in Paris which was nine minutes slower. The confusion resulting especially in telephone communication with England and as well as the change in Franco-English relations is responsible for the change.

The dirigible balloon which was recently refitted for a passenger service was destroyed in midair to-day through the explosion of a benzine tank, and her crew and her crew of four men dropped to their death. The bodies of the aviators were frightfully mangled. The gondola was torn to bits and the motor buried itself beneath the surface of the ground.

Special to Evening Telegram.

MONTREAL, July 13.—The negotiations which have been in progress for some time looking to the purchase by the Royal Bank of Halifax of the Bank of Montreal have been officially stated that the purchase has been effected. The deal is subject to the ratification of the shareholders of both institutions but there seems little doubt that this will be forthcoming. AMERICAN REPUBLICS CONFERENCE.

Special Evening Telegram.

BUNOS AYRES, July 12.—The fourth International Conference of American Republics was formally opened to-day in this city and will remain in session for five weeks. It was marked by a brilliant assemblage of delegates representing the United States and the Latin American Republics. P. C. Knox the American Secretary of State and Dr. De La Plaza the Argentine Foreign Minister were named as honorary presidents. The reports of a Latin American Coalition against the United States was the subject of much ridicule. The addresses of welcome was delivered by Dr. De La Plaza, and Hy. White former American Ambassador to France responded in English on behalf of all the delegates. The present conference plans to adopt a series of conventions and resolutions for the actual good of the various states on the American Continent, subject to ratification by the Governments concerned. In some quarters this gathering is regarded as second only to the great Peace Conference at the Hague.

The finest rainbow trout we have seen for some time were captured yesterday by Messrs. F. Ayre and F. W. Hayward. Some of them weigh 3 lbs. 4 ozs., and are on exhibition at Ayre & Sons window. Excellent trout are on exhibition at Martin's also.

KEEP MINARD'S LINIMENT IN THE HOUSE.

Doctor's Residence Burnt Down.

Shortly after 1 p.m. yesterday the residence of Dr. Pritchard, of Bay Roberts, was burned to the ground with almost all its contents, and but for the manner in which the people of the place worked the greater portion of the town might have been destroyed. A high wind from the S.E. blew and everything was as dry as tinder. Burning embers were thrown on the house owned by Mr. A. W. Piccott, Minister of Marine and Fisheries, and but that saturated blankets were placed around the building and on the roof this place must have also gone down before the fire fiend. Had such occurred a large part of the town would have been destroyed. Dr. and Mrs. Pritchard had left the house about 20 minutes before to drive to St. John's Bay, and the fire originated in the laundry where a crematory is used. It was well under way when discovered. The people about formed a bucket brigade and with sea water deluged the building, but all to no avail. In about an hour nothing but smouldering ruins marked the spot where a fine dwelling stood. The house was owned by Mrs. Taylor and we understand that it and its contents were fully covered by insurance.

Bankers Came In.

The Grand Bank banker, Kitchener, J. Grandy, master, arrived from the Grand Banks Tuesday evening. She has 400 qtls fish for 7 dories and had 2 caplin ballings. This is her first trip. She lost her cable in a gale and smashed her main gaff in the narrows.

A MAN HURT.

The Le Have banker Edith Marguerite, got in here this morning from the Grand Banks. She was a month fishing and has rather scarce and has 1000 qtls for 6 dories. She only took a fresh baiting Saturday and went on the Banks, when on Monday one of her crew, Chas. Prowse, of La Have, was hit by the fore boom which when the topping lift gave out fell on his left leg and hurt him badly. It was much twisted and he suffered extreme pain and after being visited by a doctor to-day was sent to Hospital. Another man will be taken in his place.

Bowling Bros. had a letter from Capt. Hartley, of the Dunure, by the Mongolian saying that John McGrath, of this city, a seaman of the ship was painting the hull in Oporto, on the 1st July, and in some way slipped overboard. He made no outcry, and as all were below his disappearance for a while could not be explained. The body was found a half hour later, taken to the morgue and was interred next day. He lived on Cuddihy St. this city.
