Daily Average . . . 8,757
Increase Over 1920 . . 212,739

Thursday, July 6, 1922.

Salt Responsible.

We offer no apology for returning to-day to the subject of reddening of codfish. Nothing can conduce more to the improvement in the cure of our staple product than that the opinions of experts and scientists should be carefully considered. It is not enough that the rules of thumb formerly thought quite good enough, should be continued. The foreigner who purchases our fish to-day is different altogether from his ancestor of a hundred or more years ago, who was not over particular in his purchase of food stuffs, whether of the sea or field. Science and hygiene, in the preparation of aliments have made remarkable strides, and where bacteriology was practically unknown to those who lived in past centuries, it is now a common subject upon which juveniles can discourse. With the season's codfishery just opening, as it were, the time is now ripe for the education of all those who are interested and employed in this industry. Old methods must give way to modern ideas and demands. Newfoundland's future depends mainly on her production of codfish. None can deny that from the ocean we derive our wealth. Therefore we must cater to the demands of our customers. If they want good, hard dried, clean and white codfish, we must be prepared to supply it. If we cannot do so, our competitors cut in and take the cream of our trade. It would be supremely foolish to refuse to listen to the advice of science, even in the curing and making of our chief product. And if the quality of salt heretofore used causes discoloration by reddening of fish in salt bulk, then that quality must be abandoned and new supplies sought.

Dr. Browne, of the United States Bureau of Fisheries, who has been conducting exhaustive experiments on the saline cure of fish, makes a report in which he says that all the causative agents of this troublesome and costly coloration of salted fish have been discovered, and that their original source is the solar evaporated sea salt with which the fish are cured. Mined or domestic salt seem to be free of their (bacteriological) presence. Any method devised for eliminating reddening must be based either upon the proper disinfection of the sea salt before it is used, or the substitution of mined or domestic salt, which is free from infection. But in either case a thorough disinfection of salt fish plants and equipment is essential, since at the present time all are highly infected. Dr. Browne here speaks of American plants, but from personal observation of Labrador and Shore fishings stages, we cannot but agree with the premises set forth, for there is no doubt that bacteriological infection is rife in numerous

plants at all the fishing stations. That, however, by the way. Dr. Browne continues by making the statement that it would be useless to dump sterilized salt or even mined salt into a highly infected plant, for it follows that infection must necessarily take place and the result of the use of the mined salt would not be greatly different under such conditions as the employment of sea salt. In the cleansing of stages and fish plants the recommendations of Inspector Biting of the American Bureau of Chemistry made in the year 1910, could be adopted without excessive labor or undue hardship to fishing stage operators: "Floors, splitting tables, washing butts and all apparatus and implements in use should be frequently washed by streams of water under high pressure. Butts should be thoroughly cleaned inside and out, as also should be racks and walls, posts and floors, not less than twice a week in summer, with a spray solution of sulphuric acid in addition to the sluicing. No refuse or rubbish should be allowed to remain in or about the stages." According to these recommendations old methods must give place to new ones, but if in the transition all assists in the improvement of our make and cure, the little extra labor and care will not have been in vain.

Harbor Grace Dock Wrecked.

LOADED VESSEL FELL FROM STOCKS.
The Lunenburg schooner Shepherd King, met with an accident on the dock at Harbor Grace yesterday, and as a result damage to the extent of hundreds of dollars has been done and the plant put out of commission for some time. The schooner partly loaded with salt and fish, struck a rock at Cape Broyle and went to the bottom. As far as can be learned the vessel fell down whilst on the stocks, stove in her planking and wrecked the dock. The John Green is being dispatched to the scene to-day to save the vessel.

S. A. Band Entertained.

INMATES OF SANITARIUM.
The S.A. Silver Band, under Bandmaster Horwood, visited the Sanitarium, Topsall Road, yesterday afternoon and played a number of selections, which were greatly enjoyed by the inmates of that institution, who appreciated the spirit of self-denial displayed by the Bandmen in giving up their holiday for the purpose of bringing cheer and gladness to them in their affliction. After they had finished playing the Band was served with refreshments by the Nursing Staff which was greatly appreciated by the men.

Cricket Match.

FELDIANS HAVE GOOD TEAM.
The efforts of Mr. Harold C. Hayward, Secretary of the Felidian Cricket team, are likely to result in a revival of this good old game during the present summer. He has arranged a match on Saturday between the Feldians and Shamrocks, and many well known local cricketers will be seen in action. The Felidian team will be: H. A. Winter (Capt.), R. H. Tait, A. Martin, R. Martin, E. Terrett, M. G. Winter, Jr., J. Paterson, W. Clouston, H. Munn, E. G. Ewing and H. C. Hayward.

Personal.

Mr. J. R. Bennett, who has been salmon fishing at Harry's Brook, returned to town by to-day's express, and reports fish fairly plentiful, having a 25-lb. fish amongst his catch.
Mrs. W. S. Greaves and son, who has been living in Louisville, Ky., for the past sixteen years, is visiting friends in Newfoundland for the first time in that period. Mrs. Greaves who crossed from North Sydney by a.s. Kyle yesterday, detained at Grand Falls, and will remain there a few days, the guest of her sister, Mrs. H. F. Fitzgerald.
Master John Crosbie, son of Sir John Crosbie, left by to-day's express for Grand Falls, on a visit to his schoolmate, Walter Fitzgerald.
Mr. H. F. Fitzgerald, S.M., Grand Falls, who has been in the city attending Synod, left for home, accompanied by Mrs. Fitzgerald, by express this afternoon.

McGuire's Ice Cream now ready for delivery Wholesale only. Phone 794-344.

MINARD'S LINIMENT FOR GARGLES IN COVE.

Where the Money Goes.

ST. JOHN'S WEST GETTING ITS SHARE.
Everywhere in St. John's West District work is being given by the Government with a lavish hand, possibly with a view to a election. A large number of men are employed on the Waterford Bridge Road. Amongst other work a number of men were engaged draining a piece of bog land just west of Littledale. For this purpose a drain was dug across the road and pipes laid, one half the work being done at a time in order not to impede traffic. Three days were spent by the gang in laying half the pipes, a job which could be done in one day, and three days more were spent in doing the other half. When the job was completed, it was found that the pipes were not laid low enough, and now the work is being done over again.

C. C. C. and Boat Club.

PARTICULARS GLEANED FROM AUTHORITIES.
There appears to be a lot of misunderstanding amongst the public regarding the status of the C.C.C. Boat Club and the C.C. Corps. As far as can be learned from those conversant with the matter the Boat Club has no connection with the Corps, and further that the Corps has received no benefit as a result of the Dominion Sports held in 1920. We have been informed by those who are in a position to know that not a cent from this source has been contributed towards the support of the Cadet Corps. The C.C.C. Boat Club, as far as can be gleaned, received permission some years ago to use the name, on the understanding that the Club would always have a boat or boats, whereby the boys of the Corps would be able to take part in the annual Regatta. Some time ago in order to provide funds for the C.C.C. Band, Mr. Arthur Bulley and his bandmen gave a series of dances in their hall. These dances were run off under the auspices of the C.C.C. The amount realized was given to the Band. The general impression is that in supporting the C.C.C. Boat Club the public are helping directly the C. C. Corps. This is not correct, as has been stated. It is all the more regrettable, therefore, seeing that the Corps is not in anything like a satisfactory financial position, and only through the generosity of a few it is possible to keep it going.

McMurdo's Store News.

TUESDAY, July 6.
Hudnut's Marvellous Cold Cream is in the very front rank of Cold Creams, and is perhaps, beyond all others, the proper application to use at night after exposure to the sun and wind, as something which will preserve, and improve the complexion. If you are on the lookout for something really high class, you should procure a pot of Hudnut's Cold Cream, its effects are truly marvellous. Price 80 cents a crock.
Users of Sanident Tooth Paste are recommended by the makers of their favorite dentifrice to use the Decoater Tooth Brush in order to secure best results. We have just got in a consignment of Decoater Brushes, which are at your service. Price 70 cents each.

Coals of Fire.

TRIED TO HIT CONSTABLE WITH BOTTLE.
Because a constable picked him up from the doorway where he was sleeping off the effects of booze in the street, a drunk pulled a big beer bottle from his pocket and attempted to hit the constable of the law with it. The constable grappled with him, arrested him, and had him conveyed to the lockup. This morning prisoner was fined \$2 or in default 7 days.

Tourists Here.

FIFTY COME ON "ROSALED." The streets were filled with tourists who arrived to-day on the "Rosalind." Postcards seemed to be the first aim of all, and stationers' shops did a thriving trade in these lines. The tourist traffic is just beginning, and a large number are expected to arrive on the return trip of the "Silvia."

Sports Prizes.

NOW ON EXHIBITION.
Prizes in connection with the G.W. V.A. Sports which takes place at St. George's Field on Wednesday next, are now on exhibition in the window of Messrs. Baird Ltd. Amongst the exhibits are three splendid silver cups for Football, Field Regatta and Tug-of-War. A beautiful gold watch is offered for the 10 mile Marathon and for other events there are splendid gold medals of chaste design.

EXPRESS ARRIVES.—The express with the Kyle's mails and passengers arrived in the city at 3.30 p.m. to-day.

MINARD'S LINIMENT FOR GARGLES IN COVE.

Royal Gazette Changes Hands.

NEW COMPANY WILL PRINT THIS JOURNAL.
If rumor is correct, the matter of printing the Royal Gazette, which for the past 100 years has been done by the same house, will shortly be given to a company recently formed and made up of well known supporters of the present Government. It is said that a Minute of Council was passed at the Executive meeting, June 30, giving the official Government printing to a new company, known as the Gazette Publishing Company. The latter are now placing foundations for new printing machinery in the building employed by them for this purpose.

Fishery Report.

Fortune.—Fish struck in plentifully yesterday, and both traps and trawls are doing well.
Bonaville.—Practically no fish in traps since Monday, and none taken with hook.
Flowers Cove.—Traps taking from 10 to 20 quintals; good fishing is also reported along the shore.
St. Anthony.—Good sign of fish yesterday, traps taking from five to fifty quintals.

A Costly Blow.

A constable in plain clothes who attempted to enquire into the actions of a man whom he discovered skulking in a cove, was told that the matter was none of his business, and when he insisted on the man giving an account of himself was assaulted. Two other constables were hailed and the assailant appeared before the magistrate this morning and was fined \$15 or 10 days.

Vagrant's Excuse.

TOO SICK TO WORK.
"I won't come here any more, your Honor, I'm going to work on the road to-morrow," pleaded a man who appeared in the Police Court to-day, the second successive day, on a charge of vagrancy. "Why weren't you at work yesterday," asked the magistrate. "I was sick," answered the man. "You'll be sicker to-morrow if you come before me," replied the Judge as he discharged the errant citizen.

Shipping Notes.

Schr. Mary F. Hyde has cleared for Sydney in ballast.
Schr. Edith M. Cavell has arrived at Burgeo after a 28 days passage from Oporto, with a salt cargo.
Schr. Freedom has cleared from Little Bay Islands for Kingston, Jamaica, with 2000 barrels split herring.
Schr. Marjorie W. Inkpen has arrived at Burin from the Banks with 700 qts. fish.
A dinner in honor of Lord Morris was given at Government House last night by his Excellency Sir C. Alex. Harris. Amongst the guests present were Hon. Geo. and Mrs. Shea, H. D. and Mrs. Reid, Sir Patrick McGrath and Col. Bernard.

Personal.

Mr. E. J. Ring, formerly of Harvey & Co.'s employ, returned by a.s. Rosalind on a brief holiday from Bermuda. Mr. H. D. Reid is leaving by express on a business trip to England. He will be accompanied by Mrs. Reid. Major Jennings, who has been here the past few days in connection with the Humber proposition, returns to England in a day or two.

TENNIS TOURNAMENTS.—The championship tournaments in men's and women's singles will probably begin at the St. John's Lawn Tennis and Croquet Club to-day. The tournaments were drawn recently and the lists have now been posted up. The first round has to be finished by July 14th.

TO CORRESPONDENTS.—Veritas, if the facts are as stated in your letter, why not institute legal proceedings for the recovery of any sum taken off salary by Minute of Council, and make a test case of it. It would be much more to the purpose to do this, than to make the charge over a noun de plume.

Call to Arms.

DUBLIN, July 6.
A call to arms was issued to-day by the Free State Government in the form of a proclamation opening the way for the enlistment of those citizens, who last week were declined by the government, because it was considered of the ability of the existing army to deal with the situation. Following the surrender of the insurgents last night, twenty buildings in O'Connell Street were completely destroyed by fire.
