From Kidney Trouble to Dropsy is Next Step.

(Monday, Health Talk No. 5.)
(By Dr. W. H. MacPherson, D.C., Ph.C.)

Dropsy is listed as among the incurable diseases, but in most cases, dropsy is a symptom of kidney trouble. It is a condition which is caused by the accumulation of fluid in the tissues of the body, and though other organs may be involved the principle cause is always kidney weakness.

The cause of this under-elimination of fluid wastes, of course, is weakened mental impulses over spinal nerve lines, due to displacement of spinal bones. Where there is displacement of spinal joints there is narrowing of the spinal nerve opening. The spinal nerves emitting through this opening are pinched, and the normal flow of mental impulses over these nerve lines is impeded. When the organs affected are the liver and kidneys there is under-elimination, and a gradual poisoning of the system results. Chiropractic spinal adjustments are necessary to restore the perfect mechanical condition of the spine, and thus remove the cause of disease.

Dropsical Condition Goes After Adjustments.

"This is to certify that for two years I suffered from chronic appendicitis and kidney trouble until I was in a dropsical condition. I then turned to chiropractic and during a course of twenty adjustments I lost fourteen pounds. The adjustments were continued and to-day I am feeling better in every way. The appendicitis has not troubled me since the first adjustment. I cannot recommend chiropractic too highly to those who may be suffering such as I was." C. N. Welch, Chiropractic Research Bureau, State-ment No. 1341W.

Legalized Robbery.

THE ENORMOUS DUTY ON SUGAR.

Editor Evening Telegram.

Dear Sir.—In Thursday night's Advocate there appeared an item reading as follows:

"THE 'CURRENT' SITUATION."

A rumour on the street to the effect that the Government will be approached to take control of the "current" situation is stoutly denied by the parties concerned. On the other hand those who speak for the authorities affirm that on no consideration will the current importations be taken over and further importation prohibited; no matter how the Government will be importuned to do so.

It is quite easy to understand why the Government will not be importuned into controlling the "Current" business, for the simple reason that there is a law to the effect that Currents Imported from Greece are to be admitted duty free, and fearing any trouble with our Greek fish customers, the authorities are chary about putting any duty on this fruit and roasting the public as they are doing with the Sugar outrage.

In connection with Sugar, perhaps, Mr. Editor, you are not aware that on a shipment of one hundred barrels of this commodity, costing four cents per lb. C.I.F. (or delivered here) and valued at approximately \$1400.00, the huge sum of over \$2100.00 is demanded and collected as duty on this particular importation. If this is not a "hold up," or a clear case of "legalized robbery," well then I can only add that we are a very submissive community and deserve this tyrannical treatment from the hands of our tax gatherers.

Of course it is practically useless to look for any relief from this hardship while the present Government waste and extravagance continues, but at the same time it may not be out of place to refer to this "Sugar Scandal" from time to time with the hope that the authorities may be conscience stricken at least, and as a last resort do something to wipe out one of the greatest blunders of the Coaker-Squires administration, by removing the indecent and exorbitant tariff on our Granulated Sugar.

Yours truly,
CONSUMER.

C.C.C. Band Dance C.C.C. Hall.

The grand opening dance takes place in the C.C.C. Hall on Thursday next, October 19th. This Hall for the past two months has been thoroughly renovated and painted and many improvements effected. The ventilation of the Hall will be greatly improved by the addition of a large window on the western side of the building. The gallery has been cleared of the unsightly platform, and in future will be used exclusively for the dancers and spectators for sitting out after each dance, the band platform being removed to the head of the Hall. The floor has received special attention and all the bad spots replaced by new lumber, and all knots removed, and the Electric Machine of Thomas Brothers has now made the floor as smooth as glass. The Orchestra of 14 men will be a feature, composed of 2 Cornets, 2 Clarinets, 2 Saxophones, 1 Piccolo, 2 Eb Tenors, 1 Trombone, 1 Baritone, 1 Eb Bass and Drums and Effects. This combination will replace the heavy brass band of former days. On Thursday the C.C.C. Orchestra will be at their best in all the very latest. And last, but not least, the catering by special arrangements will be in the hands of Mr. John Robinson and staff, the well-known caterer. The tickets are as follows: Ladies \$1.00, Gents Single \$1.50, and Double \$2.00.

DRUNK FINED.—A drunk and disorderly found on the street by Sgt. Stapleton, used bad language towards the officer of the law and swore it would take a motor to get him to the Police Station. He was arrested and was fined \$2.00 by the Magistrate this morning.

Pony Carriages Collide.

WOMAN BADLY INJURED.

Mrs. Coffin, wife of the well-known Jeweller, Mr. C. Coffin, was badly injured in a collision, on Saturday night, whilst proceeding to her home on Freshwater Road. It appears that Mr. Coffin with his wife and son were driving homewards in a pony wagon, when a similar outfit driven by Mr. Martin Doyle met in collision. The impact threw Mrs. Coffin out of the wagon. She was picked up and brought to the residence of Mr. A. Rice, where medical attendance was summoned. After treatment Mrs. Coffin was removed to her home.
