Which he is determined to sell Cheaper than the Cheanest. fondon, October 15, 1841.

London Medical Hall. LYMAN MOORE& CO. Agents for Moffat's Vegitable Life Medicines.

These edicines are indebted for their name to their manifest DICINES and sensible action in purifying the springs and channels of life, S and enduing them with renewed tone and vigor. In many hundred certified cases which have been made public, and in al. most every species of disease to which the human frame is liable, the happy effects of Mofiat's pills and phonix bitters have been gratefully acknowledged by the persons benefitted, and who were previously unacquainted with the beautifully philosophical principles upon which they are

compounded, and upon which they consequently act. The life medicines recommend them. selves in diseases of every form and description. Their first operation is to loosen from the coats of the stomach and bowels, the various impurities and crudities constantly settling around them; and to remove the hardened faces which collect in the convolutions at unusual low rates, he is enabled to of the smallest intestines. (ther medicines only partialy cleanse these, and leave such collected masses behind as to produce habitual costiveness, with ali its train of evils, or sudden diarrhea, with its imminent dangers. Thisfact is well known to all regular anatomists, who examine the human bowe's after death; and hence the prejudice of those well informed men against quack medicines-or medicines prepared and heralded to the public by igno rant persons. The second effect of the Life Medicines is to cleanse the kidneys and the bladder, and by this means, the liver and the lungs, the healthful action of which entirely depends upon the regularity of the urinary organs. The blood, which takes its red color from the agency of the liver and the lungs before it passes into the heart, being thus purified by them, and nourished by food coming from a clean stomach, courses freely through the veins, renews every part of the system, and triumphantly mounts the banner of health in the blooming cheek. Moffat's vegetable life medicines have been

horoughly tested, and pronounced a sovereign omedy for dyspepsia, flatulency, palpitation of the heart, loss of appetite. heart burn and headache, restlessness, ill.iemper, anxiety, languor and melancholy, costiveness, diarhœa, cholera, evers of all kinds, rheuma. tism, gout, dropsies of all kinds, gravel, worms, asthma and consumption, scurvy, ulcers, inveterate seres, scorbutic eruptions and bad complexions, eruptive complaints,
