roceedings in the of Commons.

From Our Own Correspondent. in the House to-day were of an unhally quiet and uninteresting nature.

HOLIDAY ON MONDAY. Sir John Thompson, in moving that the House should adjourn over Monday, said that the Government had concluded to adjourn the House in deference to a general desire on the part of the members.

Mr. Laurier said he would offer no objection to the motion, as it was evident that it was the desire of a majority of the members that the House should not sit on

The motion was adopted without further comment.

On the motion of Sir John Thompson the House went into committee, and passed the resolution declaring it expedient to provide, with respect to the Superior Court in the Province of Quebec, that, if the Chief Justice residing at Montreal, who is appointed by the Governor-General-in-Council, to perform the duties of Chief Justice in the district of Montreal, Chief Justice in the district of Montreal, as it is comprised and defined for the Court of Review, or, if the Chief Justice resides at Montreal, the judge residing at Quebec, who is appointed by the Governor-General-in-Council to perform the duties of Chief Justice in the district of Quebec, as it is comprised and defined for the Court of Review, shall receive in addition to his other salary the sum of \$1,000.

BILLS ADVANCED.

The bill granting subsidies to the Gov ernment of the Province of Quebec was passed through committee and read a second time.

The bill respecting the Common School Fund was passed through committee and read a second time.

Several hours were spent by the House in committee, considering the bill respecting the utilization of tue waters of the North-west Territories, which was reported and read a second time.

SUPPLY. After recess the House went into committee of supply on the estimates. The House adjourned at midnight until Tuesday afternoon.

The Grand Opera House was filled to such an extent last night that hundreds were turned away, the occasion being the closing exercise of the London Conservatory of Music and School of Elocution.
The closing concerts of this institution have become more than of local interest, for many came from the surrounding towns to attend. The piano soloists pects and better felling among acquitted themselves admirably, some merchants with an increased numacquitted themselves admirably, some noticeable features being the clearness of technic, phrasing and the expressive individuality of each. The singing reflects the greatest possible credit upon the teachers, and at times brought forth bursts of applause. After the musical programme there was given a comedietta in one act, entitled "Six to One." This was given by the students of elocution, and it proved an agreeable surprise to the audience. It would be difficult to individualize as to the merits of each one, but the ualize as to the merits of each one, but the shutting down, owing to accumulation of event brought out considerable talent, which savors considerably above what one would expect from young ladies studying elocution for pleasure. The following is many industrial establishments from starting up, and extremely restricted volume of business among wholesale dealers in clothing at Baltimore, delayed orders from country merchants in Georgia and South Carolina, where crop damages have been threatened, and a sharp restriction in the volume of general trade at Chicago, where the railway strike centres. At New Orleans trade in all lines is smaller. At Nashville and at Birmingham it is dull and without sign of early improvement, which is true also at Portland, Oregon.
Important among the favorable features

are the rain throughout the South Atlantic, Gulf, South, Central and North-western States, where crop damage had been feared, with resulting gains to small grain, cotton, fruit and vegetables. New England woollen mills are at work on dress goods and report an active re-vival in orders, and shoes shipments from eastern factories hold up well, while Boston banks report increased demands for loans, and Providence jewellers fair orders for autumn delivery. Demand has increased for paints, oils and glass at Pittsburg, for iron at Philadelphia, St. Louis and Chicago, at the latter points the markets being firmer. The most favorable report comes from St. Louis, where the volume of business after a marked in the volume of business after a marked increase within a week is reported about normal. Kansas City jobbers announce receipts of fall orders in staple lines, and Milwaukee bankers report the demand for loans is increasing. Jobbers in the three large Minnesota cities report an improved demand among country mer-chants in that State and North Dakota reflected on orders recently received.

There is an improved trade at Memphis,

Jacksonville and Charleston, due primarily to the effect of rain on the crops. Atlanta announces the volume of trade for Albert Village this afternoon, all the train made it in order to avoid the crossing of

Ald. Coo ridiculed the idea, as stated by Ald. Jones, that the steam railways went through the country paying their own way. The city paid \$75,000 for the M. C. R. and \$65,000 for the C.P.B. [Laughter.] Mr. W. Scarrow said the new offer was the worst one yet by long odds. He was surprised that the Council had seemed favorable to it. The most illusionary thing in all this business was the cheap fare scheme. Why, the cheap fare would pay them. It would result in increased traffic. How nice we would feel if we gave away our franchise for cheap fares, and at the end of five years saw every other city getting the same rate. Why, London West had an infinitely better agreement-cheap fares for the workingmen and they to do their own paving.

Electrolysis, too, was a serious matter. It would be only a question of a few years when we would have to replace our water-

The policy of trying to keep men from other places out of work in this city was a very narrow one, he argued.

They were making 8 per cent. on their investment, and were not anxious to give the city something for nothing. He was in favor of cheap fares. The city would get \$24,500 a year by this means. No figures had been given in any way comparing with this amount. With regard to paving, the street railway offered to put down their railway and leave the streets as they found them. Then if the city—not the company—wanted to put down a new pavement, the company said, give us the material and we will lav it Mr. Parsons said, Hang on to the plum, But we had been hanging onto it until it The rails would sell for old iron, and OF THE WORLD'S FAIR NOW COMPLETE, only a few of the cars could be used as A Dredge Sunk and One Life Lost. trailers.
