Mrs. J. E. Pierwith, of Carleton Place, writes: "My little boy cut the end of his finger and it seemed a case for a doctor. However, I applied Zam-Buk to stop the pain and bleeding and I gave the child such relief that I continued the treatment. Using nothing but Zam-Buk, I dressed the finger each day and the wound healed perfectly."

## MEDICINAL VALUE OF WHISKEY

Majority of U. S. Physicians Assert No Necessity for Their Use.

A Chicago dispatch says—A majority of physicians in nineteen states, representing all sections of the country, replying to an alcoholic questionnaire sent out by the Journal of the American Medical Association, assert that they did not regard beer and wine as necessary therapeutic agents in the practice of medicine. A majority of the physicians made a similar assertion in regard to whiskey.

About four-fifths of these physicians declared there were no instances in their practices where suffering or death had resulted from enforcement of the prohibition laws, and about three-fifths favored restrictions in prescribing whiskey, beer and wine. In the nineteen states 6,797 physicians replied they did not consider whiskey a necessary therapeutic agent in the practice of medicine and 6,619 asserted they had found it of value.

## LIMITED TO THREE DIVORCES IN SOVIET RUSSIA

Riga, Latvia.—Three divorces is to any one person are considering the limit in Soviet Russia according to Parley Christensen, of Chicago, candidate for president of the United States on the Farmer-Labor party ticket in 1920, who recently spent a month in Moscow. Mr. Christensen visited several Bolshevik courts.

"It is fairly easy to get a divorce in Soviet Russia," said Mr. Christensen when in Riga, "but I understand the limit is three for each person. If a man or woman has appeared in the divorce courts more than three times, he or she has a very difficult time."

"I visited one divorce hearing. It was extremely simple. The pair was separated in half an hour. On arrival in the court room, the man and the woman were separately questioned by the judge. He then got them together and tried to persuade them that their quarrel could be patched up and they might live together. They couldn't see it that way so the judge took them into another room to sign papers dissolving their marriage."

Mr. Christensen also visited a number of "People's courts" corresponding to police courts in America, where persons are tried for minor offences. Most of the judges, he said, were dressed in rough clothes, including brown flannel shirts.

"In general," said Mr. Christensen, "I was amazed at the fairness of these courts."

## PARENTS MURDERED OWN DAUGHTER BY MISTAKE

Sofia.—A strange tale of a family resulting in the murder by mistake of a girl by her own father and mother is vouched for officially by the Bulgarian police.

Ivan, a peasant of Hrazad, sold two calves for 10,000 leva, and started home from the market with his daughter Milka. Fearing robbers he gave the money to his daughter. The father was attacked on the road and killed by two men who saw him make the sale.

Milka fled and sought refuge in a peasant's house where a woman and her daughter comforted her and gave her dinner. Later Milka was sent to bed with the murdered man's daughter.

When the husband returned he told his wife he had killed a man uselessly, as the money he sought had been carried off by the murdered man's daughter.

The woman to whom Milka had told her story, repeated it to her husband and the two determined to kill the girl as she lay asleep to get the 10,000 leva.

Milka, in the daughter's room upstairs, overheard and escaped through a window. When police were brought by Milka they found the old couple had gone upstairs and killed their own daughter by mistake in the dark.

## JOKED ON SHIP IN FACE OF DEATH

Women and Men Courageous on Disabled Transporter, Creek Now Entering New York Bay.

New York, Jan. 12.—Buffeted by waves and wind, the disabled transporter, Creek, now entering New York Bay, was met by a line of tugboats and fireboats to assist her.

With her 1,000 foreign service veterans, war brides and children. Wireless messages picked up at Governor's Island reported the troopship still several miles away, at sea but steaming away at a two-knot clip.

Despatches from the transport declared the morale of all on board was high, despite the order last night to be ready to man the lifeboats.

Women, they said, hung over the rails, laughing and joking with the men, who sang as they made all ready to meet the catastrophe if it should occur. Many, however, were seasick.

## RETURNS FROM SALE OF LIQUOR IN N. B.

First Financial Report of Board of Liquor Vendors Shows \$51,000 Profit.

A profit of approximately \$51,000 is said to have been shown by the financial reports of the New Brunswick Board of Liquor Vendors for the period from their inception to Oct. 31st last, the close of the province's fiscal year.

While the Liquor Commission, as the board is generally called, came into being in May last, their actual activities as wholesale distributors covered only about three months prior to the close of the fiscal year. But even at that, it is understood the Government has not been disposed to accept the report as indicative of the revenue which might be obtainable even under the present system.

In fact, the official view appears to be that not until after the vote of the people in the referendum in favor of preventing further importations of liquor by individuals goes into effect on Jan. 18th will it be possible to secure an accurate gauge on the volume of business which might be done under the present system.

Reports from British Columbia, which have been made available, show that in that province net profits from the sale of liquor under the plan in vogue in that province for the period from June 15th to September 30th were \$541,666 and possibly by a plan of deduction on a per capita basis it might be figured out that New Brunswick might expect to do under a similar system here.

All these things are regarded in official circles as of importance at this time, with the Provincial Government admittedly considering the inauguration of a policy of liquor sales for revenue as an alternative to direct taxation.

CHILD FOUR YEARS OLD, KILLS FATHER.

Used a Knife, Was Imitating the Movies.

London, Jan. 13.—Hyman Coleman, 47, a butcher's assistant, of Whitehorse Place, Kingsland, died on Saturday in the German Hospital from a wound inflicted by his four-year-old son.

On December 3 he was playing with the boy, who, without appreciating what the consequences might be, picked up a butcher's boning knife, and remarking that that was what he had seen done in the pictures, stabbed his father in the chest. The action was done so quickly that no one had any time to interfere. The knife penetrated one of the man's lungs.

## IRISH FREE STATE NOW

South Parliament Ratifies Treaty At Meeting Held Saturday Last.

Dublin, Jan. 14.—The Anglo-Irish treaty expecting the Irish Free State was unanimously ratified this morning by the south Ireland parliament.

Eamonn DeValera and his supporters, who opposed the treaty in the Dail Eireann, were absent.

A provisional government was constituted, comprising Michael Collins, Wm. Cosgrave, Eamonn J. Duggan, P. J. Hogan, Finian Lynch, Joseph McGrath, Prof. John MacNeil and Bryan O'Higgins.

## NO INDICATION OF SEAT IN ALBERTA FOR MR. STEWART

Hon. D. McKenzie Mentioned for Judgeship in N. S. and A. K. MacLean for Position.

Ottawa, Jan. 15.—The week-end witnessed the usual exit from the capital of cabinet ministers who are sufficiently near to their ridings to pay them a flying visit over Saturday and Sunday.

With nomination day for ministerial bye-election in fourteen constituencies next Thursday members of the cabinet are naturally anxious to keep in touch with the political situation at home. A number of them will probably file nomination papers before returning to Ottawa.

Indications are that there will be a number of acclamations especially in Quebec, but on the other hand, some of the Ontario ministers will probably meet with opposition. There is speculation as to where Hon. Charles Stewart will find a seat. If he is to be in the House of Commons at the opening of the next session he must be accommodated soon, and Progressive members in his own province of Alberta show no anxiety to facilitate matters for him.

It seems likely that there will be a tendency on the part of the Government to defer important decisions on matters of state until after the bye-elections. Ministers will find it necessary to spend some time, in their constituencies and attendance at cabinet meetings may be irregular.

Duncan Ross, defeated Liberal candidate in West Middlesex and a stalwart supporter of the Government, has been paying his respects to the Premier, and this has given rise to a rumor that he is slated for appointment to the vacant judgeship in Elgin County.

The name of Hon. D. D. McKenzie, Solicitor-General, has been mentioned for the Nova Scotia bench and that of Hon. A. K. MacLean has been suggested as a possible appointee to the Eschequer Court. At present there is no vacancy in the Eschequer Court. The Lieutenant Governorship of Nova Scotia is still vacant, and apparently no action has been taken with a view to filling the vacancy.

## STRICT ECONOMY TO BE FOLLOWED

Estimates Must Be Kept Down—Work Halted on Contracts.

Ottawa, Jan. 14.—Word has been sent to all the department heads that they are required to prepare their estimates for consideration by cabinet council at the earliest possible date and also that these estimates must be kept down to the lowest possible figure. It is understood on the best of authority here.

An intimation was also given to the department heads that they must expect to have their estimates this year revised and cut down, and that strict economy is to be followed in the spending of public money.

Members of the government, from the Premier down are all stated to be insisting that during the present period of financial conditions expenditures shall be reduced as far as possible, consistent with the departments giving proper service in the work they have to carry on.

Work on contracts awarded by the late government during the last few weeks in which it has been halted by the King administration, it was learned last night, and contractors and others have been warned that there will be no further expenditures on those contracts until the new government is satisfied that the expenditures are both necessary and in keeping with the present financial conditions.

Among other contracts on which work has been suspended, it is stated, is the new ice-breaker which was to have been constructed at the Victoria plant in Montreal. The suggestion that this boat might be built elsewhere instead of Montreal is stated to be without foundation, though it was admitted that there was a possibility of not going ahead with the building of the vessel.

The Premier, it is understood, has called attention to the warning he issued just prior to the election that all such contracts will be subject to review by the incoming government and that if they were found unnecessary or improper they would be cancelled.

SON KILLED SEEKING DOCTOR FOR HIS DYING MOTHER.

Beaucourt, Que., Jan. 9.—Finding his mother lying on the floor in a faint, Achille St. Louis rushed out to get his horse to ride for a doctor. The animal took fright and killed St. Louis to death. He was found dead by neighbors. His mother had also died about the same time.
