association was quite right in realizing on the asset.

The list of fixtures referred to above will not be materially altered. The first match is against the Third L. R. V. in Glasgow on Aug. 22. Mr. J. A. Ellis of Ottawa, who accompanies the team as manager, cabled Mr. Bentley some days ago that the tour would be sure to go on. Fifteen players in all are going. These have all been chosen and the men wanted have all given a definite promise to go. After the Western Association meeting in Toronto it was for a little time uncertain whether the trip could be successfully carried through or not, but now all difficulties have been overcome and there is no doubt that the players who are going are quite capable of upholding the credit of footballers on this side the water. Their colors will be navy blue knickers and white flannel shirts with a maple leaf on the left breast.

Owen Electric Belts Summer - Goods

AND WHAT THEY ARE DOING.

Electricity as Applied by the Owen Electric Belt is now recognized as the greatest boon to suffering humanity. It has, does and will effect cures in seemingly hopeless cases where every other known means has failed. By its steady, soothing current, that is readily felt, it will cure:

Rheumatism, Liver and Kidney Troubles, Lost Manhood Lumbago, Dyspepsia, Impotency, Nervous Diseases, Urinal Troubles, Etc.

AN OLD RESIDENT'S OPINION: Toronto, July 2nd, 1891.

The Owen Electric Belt Co.

DEAR SIRS.—In reply to your request as to how my belt was doing, I will say I have been using it about four months and am so well pleased with it and what it has done for me that I would not part with it for ten times what it cost me. For over twenty years I had been a martyr to rheumatism, suffering at times the most excruciating pains, from which I could get but little relief, for doctors' medicines, pain killers, electric oils, etc., seemed to have no effect on me, and it was only when I got an Owen Belt that I realized what it was to be without pain for any length of time. I feel I am thoroughly and permanently cured and have been so for several months, for the Belt's action on me was most marvelous, removing the pain in a few days. I only regret that I had not tried it years ago, for if I had it would have savd me many dollars as well as years of pain. However, I am thankful I got it when I did and rest assured I will not be without it. I am ordering another Belt for a sick friend of mine, feeling assured it is the only thing that will help him. I have been a resident of Toronto for thirty years and am well known. If this letter is of any use to you you may use it.

H. SCHMIDT, 82 Vanauley-street. TORONTO, July 2nd, 1891.

A WELL-KNOWN R.R. MAN'S TESTIMONY

The Owen Electric Belt Co., Toronto:

GENTLEMEN,—Some weeks ago, on the advice of our doctor, after everything else failed, I procured one of your No. 4 Electric Belts for a very severe attack of lumbago and weak back. At the time I got the Belt I was so bad that I could not stand up without assistance, when sitting down and to get around was almost out of the question, so intense the pain. Now, after wearing the belt for a short time, the pains are all gone and I feel as smart and well assever. I know that it was the Owen Belt that cured me and I have much pleasure in recommending it to the suffering. I am still using my belt and would not be without it-or part with it, if I could not get another, for one hundred dollars. Yours truly, W. J. Lewis, Conductor, C.P.Ry.

These are a few of hundreds of similar ones. Send for Catalogue o Testimonials. Etc.

RHEUMATISM

It is not pleasant to be compelled to refer to the indisputable fact that medical science. has utterly failed to afford relief in rheumatic cases. We venture the assertion that, although electricity has only been in use as a remedial agent for a few years, it has cured more cases of rhuematism than all other means combined. Some of our leading physicians, recognizing this fact, are availing themselves of this most potent of Nature's forces.

TO RESTORE MANHOOD AND WOMANHOOD

As man has not yet discovered all of Nature's laws for right living it follows that every one has committed more or less errors which have left visible blenishes. To erase these evidences of past errors there is nothing to equal Electricity as applied by the Owen Electric Body Battery. Rest assured, any doctor who would try to accomplish this by any kind of drugs is practising a most dangerous form of charlatanism.

WE CHALLENGE THE WORLD

To show an Electric Belt where the current is under the control of the patient as completely as this. We can use the same belt on an infant that we would on a giant by simply reducing the number of cells. Other belts have been in the market for five of ten years longer, but to-day there are more Owen Belts manufactured and sold than all other makes combined, our Chicago factory alone being the largest of its kind in the world. BEWARE OF IMITATIONS AND CHEAP BELTS

Venting Their Wrath.

Editor World: In The Globe of the 17th inst. their correspondent at Sault Ste Marie states that I was severely "censured by the states that I was severely "censured by the states that I was severely "censured by the Selt" that has stood the test of years, and with more than a continental reputation.

Our attention having been attracted to the many base imitations of "The Owen Electric Belt" the many base introduced by the false statements of men calling themselves electricians, who, lacking brains sufficient to produce an Electric Belt of their own creation, have copied as near as they dare in appearance, but only in appearance, the "Genuine Owen Electric Belt" that has stood the test of years, and with more than a continental reputation. Belt" that has stood the test of years, and with more than a continental reputation.

In justice to ourselves and generous public we are determined to expose such unprincipled trickery and prevent, if possible, the unsuspecting from being guiled by such men and means.

The Owen Electric Belt Co. are not afraid of fair and open competition, as their goods have no equal in this or any other country, and will bear inspection by those competent to judge—and so great are they in demand that there are more of them made and in use than all other makes combined—their Chicago factory alone being the largest of its kind in the world.

Our Trade Mark is the portrait of Dr. A. Owen, embossed in gold upon every Belt and Appliance manufactured by the Owen Electric Belt and Appliance Co. None genuine without it.

The cheap so-called Electric Belts advertised by some concerns are perfectly worthless as a curative power and dear at any price. A genuine Electric Belt cannot be manufactured and sold at cheap prices.
