Ammonia water, instead of soap, for cleaning white paint, will clean it perfectly without dulling.

Three years imprisonment will be the punishment meted out to deserters under the proposed conscription bill.

Motorists who are going away on trips, should see that they have their passports before leaving. Then where they cross to the United States they should see the customs officials about their cars so that they will not have to pay any duty when they return. If this is done they will not find any trouble crossing the borders.

Hard and soft corns both yield to Holloway's Corn Cure, which is entirely safe to use, and certain and satisfactory in its action.

## A PATRON OF ART.

He Was a Good Bluffer, but De Wint Called His Hand.

Peter de Wint, the English landscape painter, was accustomed each year to have a semiprivate show of his pictures before sending them to the Water Color society's exhibition. On such occasions his friends frequently bought pictures, which, of course, appeared at the public exhibition marked "Sold."

Among the painter's friends was a wealthy man who wanted to appear a patron of art and at the same time to keep his money. He managed this by loudly admiring the paintings already sold. He was always a bit too late to buy the pictures that pleased him most and, having seen them, he could never content himself with less beautiful works.

De Wint at last suspected the man's sincerity, and when the next show day came round he concluded to test him. After plenty of time had been allowed for De Wint's friends to make their purchases, the rich man arrived. As usual, his eye soon fell on two "perfect gems" marked "Sold." Turning to the artist, he said, "Now, De Wint, those are exactly the things I should like to possess; what a pity they are not to be had."

"My dear sir," said the painter, slapping him on the back, "I knew you would like them, so I put the tickets on them to keep them for you."

## A LESSON IN THRIFT.

How a Young Man Can Lay the Foundation of an Old Age Income.

In "The Family's Money" in the American Magazine a father asks his son why he does not increase his income every year in the following manner: "Suppose you save \$250 a year, or about \$5 a week. You could do that and not suffer. Invest that money in a sound 6 per cent security. During the second year it will earn for you \$15, giving you an increase of \$125 a month. Add your interest gain to the principal, and at the end of the second year you will have \$515 working for you.

"At the close of the fourth year you will have a capital invested of \$1,092, which during the fifth year will give you \$55, or more than \$5 a month. Of course each year is adding to your principal and your income. When the eighth year comes to an end you will possess capital of \$2,470, which during the ninth year will earn \$143, or more than \$12 a month, and that is not an amount to laugh at.

"At the end of the twentieth year you have \$4,150, which during the following year will earn \$550, or more than \$45 a month. When that year closes you will possess capital of practically \$10,000, which will give you an income increase of \$900 per annum, or \$50 a month."

Trial is Inexpensive.—To those who suffer from dyspepsia, indigestion, rheumatism or any ailment arising from derangement of the digestive system, a trial of Parmelee's Vegetable Pills is recommended, should the sufferer be unacquainted with them. The pills are inexpensive and the result will be another customer for this excellent medicine. So effective is their action that many cures can certainly be traced to their use where other pills have proved ineffective.

## Boys and Girls.

The difference is apparent early. A boy has as much fun in stoning a cat as a girl has in hunting for violets. A boy's curiosity is directed to the ice box; a girl would like to see what is in the top bureau drawer.

A girl can give the impression when away from home that her parents are wealthy; a boy cannot.

A girl is never so young that she will reveal to guests at a party that the spoons-are borrowed; a boy child never grows so old that he fails to.

Give a boy a dollar, and he will eat it; give his sister one, and she will wear it.

When brothers fight it is over the larger share of pie. When sisters quarrel one has worn something belonging to the other without asking permission.

## A Woman Did It.

A lesson to landlords is this. A woman did it. She wanted the house papered. The landlord talked about the paper shortage and took his rent and went.

The next month when he called he found the house beautifully papered. He was pleased and said so. The woman smiled. She walked to the wall and moved a picture aside. Beneath the picture was a grimy square of the old paper. The woman had papered around every picture in the house. As she said the month's rent she gave notice that she would move the next month.
