A Dangerous Season For The Little Ones

Winter—With its extreme changes of temperature—one day warm and bright, the next cold and stormy, is decidedly dangerous to the health of little ones. The mother is afraid to take the children out for the fresh air and exercise they need so much. The children are cooped up in over-heated, badly ventilated rooms and in consequence many of them are seized with colds or grippe. What is needed to keep the little ones well is Baby's Own Tablets. They are a sure regulator of the stomach and bowels and in this way drive out constipation and indigestion and break up colds or grippe. By their use baby will be aided in getting over the winter season with perfect safety. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

SUCCESSFUL TRAPPING.

Messrs. Carroll and Frank McNamara, returned on Wednesday from a

successful trapping expedition to the headwaters of the Little Southwest Miramichi. They brought with them the pelts of fifty-seven foxes, an otter skin, besides a number of mink and sable. (Fredericton Daily Mail.)

PASADENA PIPES FROZEN.

To the Editor of the Post: Sir:—A friend early last winter moved from Boston to Pasadena, Cal., and since has written every two weeks or so concerning the wonderful climate, perpetual summer and all that kind of publicity stuff made familiar by chambers of commerce. Yesterday I received a letter telling of all the water pipes in the house being frozen on the night before it was written. This happened just before the date set for the Carnival of Roses. I fear to give the name of the writer of the letter because of the danger of his being lynched by the California climate boosters should it become known of his telling the truth about the perpetual summer's skidding.

MINARD'S LINIMENT FOR THE GRIPPE.

MUNICIPAL COUNCIL PROCEEDINGS

Inspection Bark—Stanley Mosher.
Apple Inspectors—C. W. Duggan, J. Dodge, Kenneth Douglas, Leslie Lewis, N. Burridge.

WOMAN'S HEALTH WHEN FORTY-FIVE

A Critical Period When Dr. Williams' Pink Pills Are a Real Blessing.
At special periods a woman needs a medicine to regulate her blood supply, or her life will be a round of pain and suffering. It is at such times that Dr. Williams' Pink Pills are worth their weight in gold, for they make the new rich blood that banishes the symptoms of distress that only women know. The better blood that comes with the use of these pills strengthens every vital organ and brings womanly health and happiness. This is fully proved by the case of Mrs. G. Withuhn, Arcola, Sask., who says:—"I am one of the many for whom Dr. Williams' Pink Pills have done wonders. About three years ago I was so weak that I could not do my housework, or even go about without feeling utterly worn out. The doctor suggested that an operation was the only thing that would help me, but this I refused to undergo, and I returned home almost in despair. My trouble was all due to the insidious change of life. At this time I read an advertisement of Dr. Williams' Pink Pills and decided to try them. By the time I had used six boxes there was no doubt that they were just what I needed, and under their continued use for some time my health was fully restored, and since that time I have been in the best of health. I am writing this letter in the hope that it may induce some other suffering woman to use Dr. Williams' Pink Pills and regain health."
These pills are sold by medicine dealers or will be sent by mail at five a box by writing the Dr. Williams' Medicine Co., Brockville, Ont.

OFFICERS POLLING DISTRICTS, No. 4 and 19.

NEW LAMP BURNS 94° AIR

Beats Electric or Gas.
A new oil lamp that gives an amazingly brilliant, soft white light, even better than gas or electricity, has been tested by the U. S. Government and 35 leading universities and found to be superior to 10 ordinary oil lamps. It burns without odor, smoke or noise and pumps up in simple, clean, safe. Burns 94° air and 6% non kerosene (coal oil).
The inventor, J. M. Johnson, 246 Craig St. W., Montreal, is offering to send a lamp on 10 days' FREE trial, or even to give one FREE to the first user in each locality who will help him introduce it. Write him today for full particulars. Also ask him to explain how you can get the agency, and without experience or money make \$250. to \$500. per month.

It's Uniform Quality is due to Infinite Care—

YOU know how impossible it is to judge flour quality by a mere inspection.
Different flours may cost the same and look the same, yet give entirely different results. Then, too, you will oftentimes find a good flour, that varies in quality—a success in one baking and a failure in the next.
Your only real safeguard in buying flour is to select one that has been tested and proven in advance—and is guaranteed uniform in quality.
Maple Leaf Flour is made from the finest selected Canadian hard wheat, skillfully blended and milled. Exacting tests at every stage of its milling makes possible its sale under a definite "money back" guarantee of uniform quality and satisfaction. You can depend on Maple Leaf Flour for unvarying baking results—always.

Ask your dealer about a wonderful course in "Cookery Arts and Kitchen Management" FREE to every user of Maple Leaf Flour.
